JUDGE NELSON'S DECISION.

Speaking of patent medicines, the Judge says: "I wish to deal fairly and honorably with all, and when I find an article that will do what it is recommended to do, I am not ashamed to say so. I am acquainted with Dr. Vanderpool (having been treated by him for cancer), and have used his blood medicine, known as the S. B. Headache and Liver Cure, and while I am 75 years old, and have used many pills and other remedies for the blood, liver and kidneys, I must say that for a kidney tonic in Bright's disease, and as an alternative for the blood, or to correct the action of the stomach and bowels, it is a very superior remedy, and beats anything I ever tried."
J. B. NELSON,
Yakima, Wash.
At 50 cents a bottle. It is the poor man's friend and family doctor.

JOHN PASHEK,
Merchant - Tailor,

Next door to Wasco Sun.
Just Received, a fine stock of Suitings, Pants Patterns, etc., of all latest Styles, at Low Prices.

NO FEAR OF CHOLERA

People Pay no Further Attention to it in New York.

A SCARE OCCURS IN NEW JERSEY.

Nurses and Convalescents Leave Elizabeth Hospital in Fright.

THE HOSPITAL IS QUARANTINED.

A Staten Island Pole the Cause of the Scare—An Expert Diagnosis to be Made.

New York, Sept. 20.—With the exception of a scare in Elizabeth yesterday, nothing of interest is seen in the papers concerning cholera. This suspected case is a Pole named John Cusick, who was taken to the hospital from some chemical works on Staten island, suffering from what the physicians are inclined to think is Asiatic cholera. This morning the hospital authorities telegraphed the New York board of health to send a cholera expert to diagnose the case. All nurses and patients in the hospital able to move left the building this morning in fright. The hospital is quarantined.

In this city the cholera as a matter of news has fallen out of public interest. The city papers print it on the inside pages, reserving the more prominent places for the Grand Army encampment and politics. No new cases have appeared, and news comes from quarantine of the arrival of the steamer Furnessia, from Glasgow with 629 cabin passengers. Three hundred and fifty-six passengers from the steamers Rugia and Scandia were taken to Hoffman Island this morning, making the total number in quarantine there 1065. The passengers from the pest ships Rugia and Scandia thus turned loose are among the people who are not known to have been infected, and are being held there merely as a precautionary measure. Thirteen of the lot from the Scandia had been in the pest on Swinburne island.

DEATH TO MONGOLIANS.

An Unreasonable Slaughter of the Late Protected Pheasants.
Complaints against persons for slaying Mongolian pheasants still continue. The temptation to shoot these beautiful and toothsome game birds proves too strong for the country sportsmen; however, none of these pheasants ever find their way into the markets here, or grace the table of the Portland epicures. Previous to this to kill the Mongolian pheasant was against the law, and the risk was too great to tempt any game dealer to expose them for sale. Out through the valley the shooting of these birds seems to be indulged in with comparative impunity now that the law has expired. The Albany Democrat of Thursday says: "One of the two men accused of killing 231 Chinese pheasants in two days says they were two weeks killing them, an average of nineteen a day for each man. Among hunters the Chinese question is the absorbing theme, and the words squabs, setting hens, etc., are mixed up in a manner to confuse, confound and upset a common man. In the meantime a breakfast of the Celestials knocks out even the ancient dish of nightingales. Whether killed with their heads up, on the run or on the wing, they present a diet unsurpassed this side of Mars. Hunters should do all in their power to preserve the bird perennially, for it makes a noble dish; but the universal verdict is that for pure enjoyment nothing has been offered ahead of hunting the Mongolian ring-necked pheasant and his trotting mate. Leave the squabs alone; pick out the strutting rooster, the tender-breasted youngster verging into roosterdom and the meek-looking hen, and blaze away for the fun of yourself and friends."

Don't Like Lively Coos.

Eugene Journal. The man who wrote that article in the Coast Mail of September 1st, concerning the notorious Captain Symons, the great Siuslaw, the state university and Eugene, ought to be swung up on sight, without judge or jury. We are almost tempted to print it to show the brazen impudence of the Coos bay townsite speculators, who are booming their operations with government reports and government money; but the language is not fit for publication in this community, being too much like a buzz saw or a dull rasp, which grates on refined feelings.

THE MALHEUR MURDERS.

A Hotly Contested Case—Whiskey Saved Them From Hanging.

From the East Oregonian.
A letter just received from Vale, Malheur county, contains the information that in the case of the State of Oregon vs. William and John Bailey, jointly indicted with Lee Mullen, Al Mullen and John Coder, for murder in the first degree, for the killing of William Humbert on April 5th, 1892, a jury was obtained Thursday morning at 11 o'clock, just one week and two hours having been consumed in the effort, and the case immediately proceeded to trial. The evidence closed at 9 o'clock in the evening, after which the counsel proceeded to argue the case to the jury, and the charge and instructions of Judge Clifford to the jury were finished at 1 o'clock, when the jury retired to deliberate on their verdict. In eighteen hours they returned into court with a verdict of murder in the second degree.

The case was hotly contested on both sides, and but for the fact that the defendants were in an intoxicated condition at the time of the offense, the verdict of the jury would undoubtedly have been murder in the first degree. At one time during their deliberations the jury were about equally divided for murder in the first and second degrees, but after being out eighteen hours, those who were for murder in the first degree, in order to arrive at a verdict, concluded it better to return a verdict of murder in the second degree. The case of The State vs. Al and Lee Mullen and John Coder, jointly indicted with the Bailey boys, proceeded to trial Saturday morning. It will be very hard to obtain a jury in this case, inasmuch as about one hundred jurors were examined in the former case, and of course hardly any of them will be qualified to sit in this case.

Should Patronize Oregon.

Ashland Tidings. Portland has let the contract for building her new city hall to Gould and Gladen of Omaha, for \$381,370, to which to get the actual proposed cost about \$100,000 will have to be added for extras. The stone to be used in the building will be shipped all the way from Wyoming, whereat people interested in quarries tributary to Portland are justly displeased. Portland expects the trade of her own state and gets a portion of the trade of interior Washington, yet she must ship the stone for her magnificent new city building from Wyoming, while the home quarries remain undeveloped. Such is the reward we get for paying our bills to the Portland merchants on the 1st of every month promptly.

After Totten's Theory?

Telegram. A letter has at last been received from Captain Oakes, although several claim that they have heard of him before. He writes his wife from Chicago for money with which to come home, saying that he has no recollection of leaving home. When Captain Oakes left here he had \$2,400, and many thought he went to New Orleans to witness the fights. This he denies, and in explanation of the disappearance of the coin says he was drugged, robbed and shipped to Chicago. This portion of his letter has created considerable amusement among his friends, and he will be the subject of much good-natured railery when he gets home—providing his wife sends him funds to travel on.

Oregon all Right.

The steam thresher is now pouring in to the Oregon horn of plenty tremendous loads of wheat, and all the warehouses stand smiling at the fun. And all other branches of business smile gladly when the glittering stream of cash meanders toward the agricultural business. Oregon generally has a golden autumn, a silvery winter and an emerald spring. Oregon is all right. While the wheat crop is considered short, and will consist of fewer bushels for the state than last year, it is consoling that the farmers are engaging in more mixed farming, and that there will be more dollars made through the year than we made last year.—Klamath Star.

Farmers' Institute.

Observer. The farmers of Eastern Oregon will hold an institute at Milton on the last two days of this month. An interesting program is being prepared for the occasion.

MRS. HARRISON'S CASE

So Much Improved That She Will Start For Washington Today.

RAINS ALONG THE RIO GRANDE.

The Stricken Section Along The Border Greatly Benefited.

PRE-HISTORIC RACE-RELICS FIND.

Phoenix Contributes Relics Which May Settle Many Heretofore Disputed Questions.

LOON LAKE, Sept. 20.—Mrs. Harrison's physicians yesterday morning decided to comply with her request to be taken to Washington. She starts today if she continues to improve.

San Antonio, Sept. 19.—Major W. E. Creary, who has just arrived from an extended trip through the stricken section along the Rio Grande border states that the recent heavy rains have produced a wonderful change in the appearance of the country. At Laredo he found grass in abundance.

A Prehistoric Race.
PHOENIX, Arizona, Sept. 19.—In digging a sewer on Madison street, workmen have broken into a burial place of a prehistoric race, and the find will settle many questions heretofore disputed by scientists. The fact that they cremated their dead is proved by the finding of several urns containing the ashes of their bodies, together with the teeth and pieces of skulls.

San Francisco Accidents.

SAN FRANCISCO, Sept. 19.—A rockaway containing seven young people was upset on a steep grade in South San Francisco yesterday. Several of the party were cut and bruised, and Miss Wilhelm Smith, 28 years of age, was so severely injured that she died early this morning. Joseph Linsky, aged 47 years, one of the most popular police officers in this city, was found dead in bed this morning, having been accidentally asphyxiated by gas. His wife and little son narrowly escaped a similar fate. They are still prostrated, but not in a dangerous condition. John Hunt, Louis Geary and Michael Sweeney went boating yesterday. The boat capsized, and Geary and Sweeney, each 24 years of age, were drowned.

Another Hill Trick.

Review. The arrest of labor commissioner Peck puts the New York democracy in a ridiculous light. Of course the motive is one of pure spite. Everybody understands that if the statistics had been to the liking of the democracy, Mr. Peck would not now be under arrest. Probably the democratic press will say, though, that the arrest is another Hill trick, played for the purpose of downing Cleveland.

Would Change P. D. Q.

Klamath Star. A Coos county man wants the salary of the governor cut down. Fifteen hundred dollars a year is mighty small steam for the pardoning power to run on. Should that merciless Coos bay citizen ever get into the penitentiary, he'll change his mind pretty soon after changing his clothes.

From Calcutta.

SAN FRANCISCO, Sept. 19.—The ship Carbet Castle arrived this morning, 166 days from Calcutta. When the ship left the port there were 111 cases of cholera there. Although there was no sickness on board, the vessel was placed in quarantine, and will be thoroughly fumigated.

Has Arrived in South America.

VALPARAISO, Sept. 19. The steamer America has arrived at Buenos Ayres from Genoa. It had on the voyage twenty-four deaths from cholera, and has been strictly quarantined.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.
