All Watch Work Warranted.

Jewelry Made to Order.

138 Second St., The Dalles, Or.

## Kranich and Bach Pianos.

Recognised as Standards of the highest grade of manufacture.

## JUDGE NELSON'S DECISION.

Speaking of patent medicines, the Judge says: "I wish to deal fairly and honorably with all, and when I find an article that will do what it is recommended to do, I am not ashamed to say so. I am acquainted with Dr. Vanderpool (having been treated by him for cancer), and have used his blood medicine, known as the S. B. Headache and Liver Cure, and while I am 75 years old, and have used many pills and other remedies for the blood, liver and kidneys, I must say that for a kidney tonic in Bright's disease, and as an alternative for the blood, or to correct the action of the stomach and bowels, it is a very superior remedy, and beats anything I ever tried."

J. B. NELSON,  
Yakima, Wash.

At 50 cents a bottle. It is the poor man's friend and family doctor.

## JOHN PASHEK, Merchant - Tailor,

Next door to Wasco Sun.

Just Received, a fine stock of Suitings, Pants Patterns, etc., of all latest Styles, at Low Prices.

Madison's Latest System used in cutting garments, and a fit guaranteed each time.

## DON'T GIVE IT AWAY

A Big Deal on at Indianapolis Today With Mares' Nests.

TAUBENECK WIRED TO HUSTLE.

Some More Rainbow Chasing of Possible Gigantic Proportions.

DISCREET ABOUT THE SENSATION.

Wants it (Should Originate Outside of the Headquarters of the Populists—Ahem!

St. Louis, Mo., Sept. 21.—Chairman Taubeneck, of the populists national committee, received a summons by wire today to hasten to Indianapolis to attend a meeting of the national executive committee tomorrow. When he was asked what the object of the Indiana meeting was, he replied: "Now, I have an idea, as several members of the national committee will be in attendance, but I will give out nothing for publication as yet. I will say that there is a big deal on, and if I chose to make it public I could make a sensation in every close state in the union, and several other states that are not considered doubtful. There is a gigantic deal going on in three states, but I will not give out the names of the states or the nature of the scheme being worked. It will come to light in two or three weeks, and then I will be prepared to give some startling information; but I don't care for the sensation to originate in populist party headquarters, and it won't, if I can help it. I will probably be able to talk more freely when I return."

### A New Hawaiian Cabinet.

SAN FRANCISCO, Sept. 21.—The steamer Australia arrived from Honolulu at noon today, with news that the queen has appointed the following new cabinet: Edward C. MacFarlane, premier and minister of finance; Samuel Parker, minister of foreign affairs; Charles T. Gulick, minister of interior; Paul Neumann, attorney general.

The appointments gave great dissatisfaction, as they were the old ministry over again, with two exceptions. MacFarlane and Parker have changed places and the others retain their portfolios. Parker and Neumann were very obnoxious to the opposition, and it was against them that the want-of-confidence motion was particularly aimed. The day the Australia sailed a want-of-confidence motion in the ministry was tabled by a vote of 24 to 22. An adjournment was then taken. The fight was to be resumed the next day, and the opinion seemed to be that the ministry would be forced to resign.

The bill introduced in the legislature to grant the Louisiana state lottery a twenty-five years' franchise to maintain a lottery in the Hawaiian islands is universally condemned, and the consensus of opinion is that it will not pass its first reading.

### Rushing Into Print.

NASHVILLE, Tenn., Sept. 21.—Nashville is greatly exercised over a scandal which developed today. The principals are John P. Williams, one of the wealthiest men and vice president of the Fourth National bank, and Mrs. V. Booren, wife of a prominent citizen. This morning Mr. Booren issued a circular in which he says: "But for the pleading of the invalid mother of John P. Williams, I would have blown his brains out long ago. He has been very intimate with my wife for the last six months, and as the papers will not publish the facts, this is the only way I have of putting them before the public. Williams is a heartless villain, and I am not afraid to say so." The affair has caused one of the biggest sensations ever known here, and it is rumored that Williams and Booren will fight a duel. Mrs. Booren, who is a beautiful woman, recently came from Dallas, Tex.

### Tourists Annoy the Queen.

New York, Sept. 21.—A special from London says the queen has entirely given up attending public worship on Sunday in the parish kirk at Crathie, where she went regularly for thirty-five years. The rush of tourists from Braemar and Ballatrae became latterly an intolerable nuisance, and they often acted badly. She now goes to Crathie

### DISTRESS AND WANT.

Results of The Plague on The Trade of Hamburg.

HAMBURG, Sept. 21.—People who have heretofore done business with Hamburg are afraid now to handle anything made in the plague-stricken city, and in consequence every branch of industry shows an entire absence of orders. Of course, with no demand for their products, manufacturers find it impossible to keep their employes at work, and daily the idle population of the city is gaining fresh accessions from the ranks of clerks, artisans and unskilled laborers who are discharged because of the utter stagnation of business. The distress is most marked among the dock laborers and fishermen. The shipping trade of the city has received a most severe blow from the epidemic, and many vessels belonging to Hamburg have been forced to lie up until the epidemic abates. Dock laborers and other men employed about the wharves can find nothing to do, and in many cases actual starvation is staring them in the face. The fishermen, too, find their occupation gone, as nearly every one is afraid to touch fish, let alone eat it, and those who still follow their business find no money in it. Whole loads of fish are everyday carted away from St. Paul's market and sold for a few marks to farmers to be used as a fertilizer on their lands. Many porters about the city are without work and have been idle for a considerable time. Southeast of Hamburg and belonging to the city is a territory called Verlande. Here are located many persons who cultivate small tracts of land, and who have heretofore found a ready and profitable market for their products. Now all is changed, and those market gardeners are on the verge of ruin. They are unable to dispose of their products, and the fruit is rotting on the trees. The situation is extremely bad in whatever light it is viewed, and succor for the impoverished and famishing people will have to come from the charitable.

### Peace for a Day Only.

VALPARAISO, Sept. 21.—The review of the troops here yesterday was witnessed by a large number of people. Festivities were continued all over the republic. At Santiago during the review yesterday stones were thrown at the president's carriage, some of them striking the coachman. Some of the men who threw the stones were arrested. The people are intensely excited at the outrage. Some of the military officers regard this action as the outcome of President Montt's lenient conduct toward the enemies of the present regime.

A correspondent at Buenos Ayres says that there are well-developed manifestations indicating the early outbreak of another revolution. The troops in the camp at Catalina have revolted. Pena announced that he intends to pursue a peaceful course against his opponents. President Pena insists that Senor Zeballos shall take the foreign portfolio. Senor Rioja stated in congress yesterday that the lower orders in the province of Buenos Ayres are in extreme misery, owing to the existing state of finances. They are unable to obtain the necessities of life, and their condition, he says, calls for immediate attention.

### John's Fresh New Love.

Klamath Star. England is becoming solicitous for our welfare. John Bull has always embraced the opportunity to slight our citizens and bully our government, but now he wants us to adopt free trade, and prosper. Under protection we have beaten him in all his fields of industry, but his new love for us sees greater glory in free trade. John's new love is always fresh.

### Creditable all Around.

Klamath Star. The Dalles DAILY CHRONICLE appeared September 13th with an extra, directing attention to the facilities afforded by The Dalles for the investment of capital. It is creditable to the head, the heart and the hand of the writer.

### This is the Sentiment.

Chicago News. As between the action of the ghoul who robs graves for hire and the steamship company which makes money by spreading choleraic infection, public opinion would probably find it easier to pardon the former.

## VESSEL IN DISTRESS.

The Belle of Oregon Barely Escapes From Destruction.

SPOKEN 600 OFF SAN FRANCISCO.

Considerably Damaged in a Severe Hurricane Early in September.

CHASING COMMISSIONER PECK.

His Political Enemies After His Scalp on The Run Intending to Crush Him Out.

SAN FRANCISCO, Sept. 22.—Captain Charleston, of the British bark Scottish Bard, from Chili, which arrived off the Heads late yesterday afternoon, states that September 12th he spoke the American bark Belle of Oregon in distress 600 miles from port. The captain of the Oregon stated that he had been damaged in a hurricane two weeks previous, while bound from Astoria to New York with a cargo of wheat. The damages sustained by the Oregon were almost identical with those on the McCallum, only the rigging had suffered more. The main-mast was badly sprung, the main-topmast had been carried away, the bulwarks were damaged, the cargo had shifted slightly, and in the hold there were seven feet of water. The Oregon is making for this port, and will probably arrive in a few days.

### After Commissioner Peck.

NEW YORK, Sept. 21.—An Albany special says: Commissioner Peck's enemies are after his scalp on the run. Although he is now under bail to stand trial for destroying the public records, they yesterday had his case presented to the grand jury. It is alleged the failure of the attempt to get the case railroaded through the police court was the direct cause of the present movement before the grand jury. It is considered almost certain that indictments against both Commissioner Peck and Stenographer Rogers will be handed down when court meets. In that case bench warrants will at once be issued against both the accused, who will undoubtedly furnish bail to await trial.

### The Drawing Card in Portland.

Oregonian. The single track locomotive, invented by Dr. J. B. Mahans, which is intended to work a revolution in railroad building, was hauled out to the exposition building last evening. It was set on a section of the peculiar saddle-shaped track, which was placed on a low truck with block wheels. Six horses hauled it to the corner of Sixth and Washington streets, where they were stalled. A chain was run out ahead of the team and attached to a truck with four horses. The first attempt to start was a failure, but a second trial proved successful, and the ten horses and their unwieldy load moved off up the smooth pavement without any trouble.

### Klamath County Workers.

Express. Klamath county workers rarely get off their feed. The wife of one of the leading ranchers south of town has been cooking for seventeen harvest hands during the past week and she informed The Express editor that it did her soul good to see the boys eat. She baked fourteen loaves of bread every day and Tuesday morning she made 100 biscuits. After breakfast not a scrap of biscuit was to be seen. As the lady is one of the best cooks in the county the boys' appetites are not to be wondered at.

### The Chronicle Enterprise.

Klickitat Leader. The Dalles CHRONICLE issued a very interesting and instructive 8-page paper last Tuesday. It gives a very lengthy write up of The Dalles and county and makes a very creditable showing. THE CHRONICLE is enterprising.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.
