OFFICIAL PAPER OF DALLES CITY. AND WASCOS COUNTY.

National Republican Ticket.

FOR PRESIDENT, BENJAMIN HARRISON, of Indiana.

FOR VICE-PRESIDENT, WHITELEW REID, of New York.

FOR PRESIDENTIAL ELECTORS, J. F. CAPLES, of Portland. H. B. MILLER, of Grant's Pass. G. M. IRWIN, of Union. D. M. DUNNE, of Portland.

THE FARMERS' OPPORTUNITY.

Campaign orators are now going about the country, telling the farmers how they should vote. Many an agricultural fair resounds with earnest disquisitions on the tariff, on the financial questions, reciprocity or the force bill. These questions of national concern are kept uppermost in the campaign. Most of the thinking of the nation is done in the country districts, and campaign managers send thither their solidest literature. The floating vote in the centers of population comes under different methods of campaign management. While the tribute to the intelligence of voters from the farms is natural, the farmers should not forget that there are other questions in the campaign which concern them still more directly, but which campaign managers affect to ignore. A new congress is to be elected this fall, besides national officers. Each nominee for congress in the country districts might profitably be asked to define his position regarding these matters:

Free postal delivery in the villages and thickly-settled farming districts. An increase in the permissible weight of certain classes of mail matter that circulate chiefly in farming communities. The building of good roads, either under the supervision of federal authority, or with the encouragement of that authority. The introduction of postal savings banks. There is not one of the benefits mentioned that the country districts cannot obtain in the near future, with a proper presentation of these matters. Not one of them does violence to the traditions of either party. Some may object that these homely topics should give way before the great national issues of the hour. Not necessarily. It is a good year for the farmers to find out where their would-be representatives stand, on other issues besides those that seem to claim the exclusive attention of the parties.

Since 1878 a system of taxation has been proposed in the District of Columbia by which the people of the United States are robbed for the benefit of rich real estate syndicates in Washington city. Real estate and rents there are very high, while taxes are very low. The explanation of the disproportionately low rate of taxation is that since the year 1878 the United States government pays one-half of all the taxes in the district and improvements in the capital city on the flimsy plea that the government owns so large an amount of property in the district that it would be unjust to the property owners to expect them to pay a higher rate. The real estate ring of Washington contrive constantly to project statutes, parks, buildings and other improvements to be largely or wholly paid for out of the public purse. Is it any wonder, therefore, that real estate in Washington has been booming beyond all precedent? Does the state of New York pay half the taxes of the city of Albany because the ten-million-dollar state capitol is located there? Does the German government pay half the taxes of the city of Berlin? Does the French government pay half the taxes of the city of Paris? Does Great Britain pay half the taxes assessed against the property owners of London because Westminster Hall and other public buildings are located there?

The Rock Island Sun reports that some of Hunt Bros.' men, grading south of town, recently found a peculiar stone which puzzles the geologists in that section. It is a crystal, having the appearance of a petrification, with cubiform projections, some of which were quite brilliant. Some one has suggested that it may be petrified lime, while another, who is entirely familiar with the chemical experiments and pranks of the elements for ages past, ventures the belief that it is petrified water. A smaller specimen of the same kind of rock was found further east on the line of the Great Northern, and it is worn as a pin by H. D. Culver, of Rock Island.

Why should the door, which has been closed to keep out pestilence, be opened again to permit the free entry of that which will produce social disorder and fill this country with an element that it can not absorb and assimilate? It is time says the Telegraph, to draw a line somewhere which will lessen and limit excessive immigration.

A Reliable Man. M. J. Griner, a Justice of the Peace at Print, Michigan, says one bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy saved his life. He had been down with bloody flux for three weeks when he commenced using this medicine. It soon cured him, and he believes saved his life. He also says it saved the lives of three railroad men in that vicinity. Squire Griner is a reliable and conscientious man, and whatever he says can be depended upon.
