Jos. Southwell complains that the Celilo and Warm Springs Indians are a pest to him. They turn their ponies into his meadows after dark and take them out before daylight, and destroy the feed for his own stock. There ought to be some recourse at law for redress of such trespassing.

Bad Business.

The Astorian says it has just developed that the most strenuous efforts were made by Puget Sound Odd Fellows, previous to the conclusion of the arrangements for holding the grand lodge session at Portland, to keep the Odd Fellows from visiting the mouth of the Columbia river. It is said that last April or May Portland Odd Fellows wrote to the officers of the lodges at Tacoma, Seattle and Spokane, asking them to assist in entertaining the visitors on their arrival in the northwest, but the reply was they could not afford the necessary money, or hadn't it. The trip was arranged, however, without their assistance, and then the Tacoma and Seattle men tried to switch them off to Yellowstone Park. No stone was left unturned to break up the projected excursion, and even telegrams containing misrepresentations were sent to members of the grand lodge. That the efforts were without avail, is largely due to the active measures taken by Dr. Chance, aided by a general desire on the part of the intending visitors to see the mouth of the Columbia. It is due to the Odd Fellows of Spokane to say that they acted fairly throughout.

The Single Rail Railway.

An observer who thought the new locomotive for the single rail railway ought to be exhibited on the road, was reminded by another careful observer, at the Portland Exposition Saturday evening, that it would then "be out of sight" before we could see it, as its speed on the rail is ninety miles per hour. The company will not attempt to test the engine on a track merely for experimental purposes as they are satisfied without going to that additional expense. They expect to wait until the opportunity offers for building a permanent road. They have now three prospects in view. One is a road from Portland to Mt. Hood, another is a line from Salem to Dallas, a distance of fourteen miles, and the third is a line from Grand Dalles to Goldendale. In the latter case the people are very anxious for a road and it is stated that they will meet the projectors with a liberal subsidy. The engine now built will use steam as a motor power, although there is another motor in course of construction that is to be propelled by electric storage batteries.

We've heard of a woman who said she'd walk five miles to get a bottle of Dr. Pierce's Favorite Prescription if she could get it without. That woman had tried it. And it's a medicine which makes itself felt in toning up the system and correcting irregularities as soon as its use is begun. Go to your drug store, pay a dollar, get a bottle and try it—try a second, a third if necessary. Before that third one's been taken you'll know that there's a remedy to help you. Then you'll keep on and a cure'll come. But if you shouldn't feel the help, should be disappointed in the results—you'll find guarantee printed on the bottle wrapper that'll get your money back for you.

How many women are there who would rather have the money than health? And "Favorite Prescription" produces health. Wonder is that there's a woman willing to suffer when there's a guaranteed remedy in the nearest drug store.

A Traveling Man's Experience With Diarrhea.

I am a traveling man and have been afflicted with what is called chronic diarrhoea for some ten years. Last fall I was in Western Pennsylvania, and accidentally was introduced to Chamberlain's Colic, Cholera and Diarrhoea Remedy. I ventured to make a trial and was wonderfully relieved. I would like now to introduce it among my friends. H. M. Lewis, 24 Freeman street, Cleveland, Ohio. For sale by Blakeley & Houghton, druggists.

Saved His Child's Life.

A. N. Dillenburg, York, Neb., says: "The other day I came home and found my little boy down with cholera morbus, my wife scared, not knowing what to do. I went straightway and got a 25-cent bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and gave it according to directions. You never saw such a change in a child. His limbs and body were cold. I rubbed his limbs and body with my hands, and after I had given him the second dose he went to sleep, and, as my wife says, 'from a death-bed he was up playing in three hours.' It saved me a doctor bill of about three dollars, and what is better, it saved my child. I can recommend it with a clear conscience." For sale by Blakeley & Houghton, druggists.
