A CORDIAL INVITATION.

At the meeting of the Oregon Press Association last night, an invitation was received from Messrs. Dwyer and Burke to hold the next meeting at the new town of Flavel, ten miles below Astoria, at the mouth of the Columbia river. Flavel is one of the most convenient and beautiful spots on the Columbia, containing fine parks and groves, and easily accessible by steamer and rail. It is on the line of the Astoria and Portland railroad, and from it all points on Clatsop and Long beaches, in Oregon and Washington, can be reached in a few minutes ride. When the Souverign Grand Lodge of Odd Fellows met in Portland this year, a delegation of 1,800 went to Flavel and were entertained at a gigantic clambake, which has never been equalled on the coast. During the fishing and bathing season no better place can be selected for business and pleasure. Messrs. Dwyer and Burke, who send the invitation, are royal entertainers. They are men of business, have ample means, and will take an unusual pleasure in providing everything that will contribute to the success and comfort of the association. They can be relied upon to give the Oregon Press association such a reception as has never been vouchsafed them in Oregon.

Jackson Richards, Master Mechanic of the New York division of the Reading, and a resident of Philadelphia, has received notice from his attorney that the Patent office has decided to grant him a patent for his improved steam locomotive. Mr. Richards says that a complete model of his improved engine working under full steam will be placed on public exhibition within two weeks. He claims for the engine a speed of 80 miles an hour and a saving of at least 25 per cent. on the wear and tear of the road-bed. Its driving wheels will have no weights or balances such as the engines have in use at present. There will be four cylinders, and a desirable feature will be its exceeding simplicity of construction and arrangement. The single rail locomotive on exhibition at the Portland exposition, the invention of Dr. Mahana, makes 91 miles by a similar test, at a saving of 45 per cent. Oregon is ahead of Reading in this particular.

The democratic and populist party of Idaho, by the filing of lists of electoral candidates in the office of the secretary of state have completed a fusion of those two parties. How democrats and silver republicans of Idaho can vote for Weaver is not plain. The populist party both by platform and interpretation of orators; See Penoyer; is free trade. If silver republicans in Idaho support free trade and that policy prevails, lead ores will be admitted free and the tunnels of the Idaho mines will be corked. On the other hand, can democrats support a free silver coinage policy? Or do our neighbors intend to "give up principle," for the sake of present success? It looks that way.

A gentleman just from Kansas says the crops have been very good and the farmers are selling freely. The corn crop, which it was thought was going to be very inferior, will be very fair, and in some sections the best they have ever had. The farmers have been getting big prices, thirty to thirty-five cents per bushel, for their corn. He says Oregon and Oregon weather never seemed so pleasant to him as since his stay in Kansas.

The Telegram says the Astoria and Portland railway has collapsed. This is the biggest mistake the Telegram could possibly make. The report that the S. P. Ry. and Collis P. H. are at the back of it, is a still greater error; unless one counts them a very long way "back of it."

The tandem compound cylinder locomotive, which the Brooks locomotive works have constructed for the Great Northern, after various tests at the works, was taken to Buffalo, September 30th, and will be placed in regular service on the lake shore to demonstrate the merits of the tandem compound.

A specimen of float tin has been brought into Pendleton from the John Day country. The Tribune says it is supposed that the mother ledge is in close proximity, although it has not yet been discovered. A thorough search is to be made for it at once.

At the head of all blood-purifiers is Dr. Pierce's Golden Medical Discovery. But it's different from all of them. Whatever is claimed for this, it's *guaranteed* to do. The money is refunded in every case where it fails to benefit or cure. It's because it is different that it can be sold so. All diseases originating from a torpid liver or impure blood yield to it. It cleanses and purifies the system, freeing it from all manner of blood-poisons, no matter from what cause they have arisen. For Dyspepsia, Biliousness, Scrofula, Salt-rheum, Tetter, Erysipelas, or any blood-taint or disorder, it is an unequaled remedy. Nothing else can take its place.

"Golden Medical Discovery" contains no alcohol to inebriate, and no syrup or sugar to derange digestion.

It's a concentrated vegetable extract; put up in large bottles; pleasant to the taste, and equally good for adults or children; works equally well *all* the year round.
