**Rainmaking by Faith.**  
 Some forty years ago, on a cloudless Sabbath morning, the president of Oberlin college, Professor Phinney, walked briskly to the chapel—there had been a distressing drought—and began the service with an extremely fervent prayer for rain. The prayer was long, and before it was finished the skies began to darken, and almost before the congregation was dismissed a copious rain began to fall. The suggestive fact in this relation is that President Phinney had been observed during the morning to give very watchful attention to the barometer.—H. Chandler in Science.  
**Rain Without Clouds.**  
 We have it on the authority of Sir J. C. Ross that in the south Atlantic it rained on one occasion for over an hour when the sky was entirely free from clouds. In the Mauritius and other parts of the southern hemisphere this is not a rare occurrence, but in Europe it is, and the greatest known length of its duration was ten minutes at Constantinople.—All the Year Round.  
**Origin of Two Weller Stories.**  
 Many of Dickens' stories referred to events much spoken of at the time. The story of the marble was doubtless founded on a tale then current, and the tragedy of the man who killed himself after eating muffins was an elaboration of the account of the suicide of the Hon. Mr. Damer, who destroyed himself after a surfeit of crumpets.—Notes and Queries.

**OREGON'S SHOWING AT CHICAGO NEXT YEAR**

Remains in doubt, but there is no question about the PORTLAND INDUSTRIAL EXPOSITION—which opens September 21st and closes October 22d, being the best Exposition ever held on the Pacific Coast. So far as Oregon is concerned it will be the forerunner of the Exposition at Chicago in 1893. The principal attractions are the magnificent American Band of Providence, R. I. An art collection valued at \$350,000, and embracing some of the greatest pictures owned in the United States. Immense Horticultural and Agricultural exhibits, the result of the combined efforts of almost every county in the state. A mineral exhibit exceeding all former years. A Stock Department showing tremendous progress. To these are added a larger number of exhibits than ever before; including a magnificent electrical display under the combined Thomson-Houston and Edison Companies. All manufactures in full operation. Government models of Battle Ships. The wonderful Hall of Mystery. The marvelous "Little World," the product of a mechanical genius; all interspersed by novelties incident to the popular special days. Everything new and nothing dead. Greatly reduced rates on all transportation lines.
