**OREGON'S SHOWING AT CHICAGO NEXT YEAR**  
 Remains in doubt, but there is no question about the PORTLAND INDUSTRIAL EXPOSITION—which opens September 21st and closes October 22d, being the best Exposition ever held on the Pacific Coast. So far as Oregon is concerned it will be the forerunner of the Exposition at Chicago in 1893. The principal attractions are the magnificent American Band of Providence, R. I. An art collection valued at \$350,000, and embracing some of the greatest pictures owned in the United States. Immense Horticultural and Agricultural exhibits, the result of the combined efforts of almost every county in the state. A mineral exhibit exceeding all former years. A Stock Department showing tremendous progress. To these are added a larger number of exhibits than ever before; including a magnificent electrical display under the combined Thomson-Houston and Edison Companies. All manufactures in full operation. Government models of Battle Ships. The wonderful Hall of Mystery. The marvelous "Little World," the product of a mechanical genius; all interspersed by novelties incident to the popular special days. Everything new and nothing dead. Greatly reduced rates on all transportation lines.

**The Water in Utah's Great Lake.**  
 Salt Lake is by no means a saturated solution of salt, yet it is five or six times as rich in salts as the ocean, and nearly as strong as the Dead sea. In summer it contains between 20 and 22 per cent. of salt, the saturation point not being reached until the salt forms a little over a third of the liquid. There are all through the great basin numerous saline lakes and ponds, but none of the size and importance of this in Utah. Not infrequently they are shallow and entirely disappear during the dryness and heats of summer, leaving to mark their sites only a stretch of some acres—or it may be miles—of clay or mud, entirely covered with salt.—Goldthwaite's Geographical Magazine.  
 Weight of Paper Money.  
 In the treasury here one day the question came up as to the weight of a dollar bill. Scales of perfect accuracy were brought into requisition, and the surprising discovery was made that twenty-seven one dollar notes weighed exactly as much as a twenty dollar gold piece. The latter just balances 540 grains. However, the bills weighed were perfectly crisp and new. Trial made with soiled notes, such as come in every day for redemption, showed that twenty-seven of them weighed considerably more than a twenty dollar coin. Every paper dollar gets its way through the world covered with accumulated dirt, so that after a while it is perceptibly heavier.—Washington Letter.
