AND WASCO COUNTY.

of Indiana.

WHITELAW REID,  
of New York.

FOR PRESIDENTIAL ELECTORS,

## AN INCREASE OF RESPONSIBILITY.

It is asserted by many men of science that electricity will in time supersede the horse as a means of traction power. Not only will he disappear from the street cars, but it is quite possible he may also resign his monopoly of cart pulling and other plebian branches of employment. No scheme of electric application, however, dispenses with him altogether. On the contrary, the very fact of his field being closed in the directions mentioned only widens it in others. These include his pre-eminence as a racer, his use in equestrianism, in the circus and such adaptations as may be represented by the family carriage and the social drive. If the horse hereafter lives out his destiny on these lines it will be interesting to note the influence of these new conditions on the novel of the future. Readers of lighter literature cannot but have observed the part this animal has ever played in romance. From the wooden horse of Troy down to the latest successful story, his agency has always been prominent and in most cases all important. The number of instances in which the hero becomes acquainted with the heroine by valiantly stopping her runaway steed is countless as the sands of the sea, while the plots where the villains are conveniently disposed of by their horses dashing over precipices, rearing and falling upon them, etc., would give the multiplication table a time of it to calculate. Suffice it that he is one of the most useful tools of the story writer. Not without reason was Pegasus taken by the ancients as the finest type of imagery and invention.

Hence, as has been said, it will be interesting to study the horse in literature under the new state of affairs predicted by science. With the broadening of his activities as an agent of social pleasure, he must almost necessarily appear more frequently in the novel of the future in his various capacities as the friend of the hero and the Nemesis of villainy. With what degree of originality he will discharge his increase of responsibilities it rests with our authors perhaps to say, but it will be at least something to have got him out of the street car. And one must appreciate that, with every visit to Portland. Superannated Jo Holliday's bob-tail arrangement is the only existing relic of horse cars in Oregon, and it is pitiful in a whole city full, passengers he has none. It is a shame and disgrace to the consolidated city. But just wait till Tom Wood gets a hold on it.

It has developed that the Santa Fe road is hiring operators to take the places of the strikers on the Gulf, Colorado and Santa Fe. Forty operators passed through Kansas city yesterday on their way south, twenty-two from Chicago and eighteen from St. Louis. It is apprehended that this means a suspension of negotiations with the strikers, and it will result in a strike on the whole system.

Lucy Stone says the statement that Mrs. Martin, Victoria Woodhull, is the candidate for president of the National women suffrage association, is wholly without foundation. "The association has no presidential candidate," she says, "and we do not even know the person who is said to have nominated her."

In the Presbyterian synod yesterday, members of the judicial committee were appointed to pass on the complaint against Dr. Briggs, the alleged heretic. After it is considered by this committee, it will come before the synod. The committee is considering it this afternoon.

Official statistics of the barley crop of France show a yield of 17,626,433 hectolitres, against 26,523,978 last year. Of oats the yield is 35,558,580 hectolitres, against 106,627,396 in 1891.

The new commercial treaty between the United States and Spain has been concluded. Secretary Foster and the Spanish minister affixed their signatures Monday.

Gladstone, who is making political speeches in Wales, has ascended Mount Snowden, the highest Welsh peak.

**Stopped**  
—the progress of Consumption. The best authorities agree that it's a scrofulous affection of the lungs. If taken in time, and given a fair trial, Dr. Pierce's Golden Medical Discovery will effect a cure. Thousands have been saved by it—thousands more are putting it off till too late. For every form of Scrofula, Bronchial, Throat, and Lung Affections, Weak Lungs, Severe Coughs, and kindred ailments, it is a positive remedy. It's guaranteed to do all that's claimed for it. If it doesn't benefit or cure, in every case, your money is returned.

The "Discovery" is the only Liver, Blood and Lung Remedy that's sold so. Think what a medicine it must be! Especially has it manifested its potency in curing Tetters, Salt-rheum, Eczema, Erysipelas, Boils, Carbuncles, Sore Eyes, Goitre, or Thick Neck, and Enlarged Glands. World's Dispensary Medical Association, Makers, No. 663 Main Street, Buffalo, N. Y.

The Union Pacific system will extend to its patrons the usual reduced rates on round trip tickets which will include admission to the exposition, selling on Mondays, Tuesdays and Fridays of each week. Detailed information can be had by applying to E. E. LITTLE, agent.

**Too Much of a Risk.**  
It is not unusual for colds contracted in the fall to hang on all winter. In such cases croup or chronic bronchitis are almost sure to result. A fifty cent bottle of Chamberlain's Cough Remedy will cure any cold. Can you afford to risk so much for so small an amount? This remedy is intended especially for bad colds and croup and can always be depended upon. For sale by Blakeley & Houghton, druggists.
