 Fair. Cooler. Stiff frost tonight.
 PORTLAND, Oct. 25, 1892.

TUESDAY - OCTOBER 25, 1892

LOCAL BREVITIES.

Ed. Mack and J. M. Hansen of Grass Valley, are in the city.

Mrs. S. L. Brooks left this morning by the steamer Regulator for a visit to Portland.

The U. S. Engineers will again return to The Dalles before leaving the Inland Empire.

Miss Edith Smith of 8-Mile, who has been in Portland on a visit, returned at noon today.

New jackets illustrated today in Herbring's new ad. Take notice of his stock just now opening.

The Regulator had a first class cargo out this morning, including stock, wagons, grain, fruit, etc.

Hon. A. B. Lyle, ex-Representative of Crook county, is in the city delivering a band of beef cattle sold to the markets.

N. J. Sinnott has received an invitation from Chairman Griffin to address the Blaine club in Portland, Thursday evening.

Dufur is represented in the city today by Dr. W. L. Vanderpool, W. L. Hendricks, Mr. and Mrs. Horatio Fargher, and Miss Roth.

Mr. Jesse Eaton, once a pioneer of Yamhill county, but now one of the thrifty residents of Sherman county, is in The Dalles today.

Miss Lettie Johnston left this afternoon for Salem, called to the bedside of her sister, Mrs. Fritz, who is reported dangerously ill from typhoid fever.

A man on Union street who was making too free with his pistol, was arrested about noon today by Officer Maloney. He frightened several people, but didn't shoot.

The steam shovel was brought up from its bluff at Shell rock last night, and will be given a rest. It has done excellent service this season, and the work shows for itself.

Among the visitors in the city today from Antelope and vicinity, we notice, John Baxter, Malcolm and D. McLellan, C. V. Laur, and Mr. and Mrs. J. B. Ashley.

Strawberries, fine, fresh, and full flavored, are exposed in The Dalles markets for sale today. There is a sort of metallic taste to the fruit, when the bill is rendered only.

Dr. Vandenberg, writing under date of the 20th from Buffalo, says the shipment of silica from The Dalles, had not yet been heard of. A tracer will be put on to its course today.

What a graceful, swan-like bird it must have been; way back in the no-wheres; to carry such a bone as that shown on Second street from Alaska. It would be ducks to a bear to have such a bone as that to pick.

Twenty tons of clay for the Columbia river glass works, is en route from St. Louis. This clay is to be used for construction purposes. The European clay, for the cupola and retorts, will reach here tomorrow. It passed Pocatello yesterday.

Among all the explanations and theories that have been presented concerning the withdrawal of Col. Bob Miller from the Cleveland ticket in Oregon none fits the subject better than that of Master Willie Crossen, who says "Col. Bob wasn't tall enough."

Young Chapman, who was believed to be honest in his declarations of innocence respecting the charges brought against him for having a stolen horse in his possession, so deceived the officers that he must now take his chances in a criminal prosecution before Justice Schutz.

The Buffalo Express of the 20th notices the promotion of James G. Hubbard as master mechanic of the Erie system at East Buffalo. He is a relative of Mr. Linus Hubbard of this city, and has many friends in this city and Portland who will be pleased to hear of his well deserved promotion.

Mr. A. Keller, moved into his new store yesterday morning. A full line of bread, cakes, pies and confectionary, cigars, oysters, etc., will be opened. He invites all his old patrons around to the new place, next to the Dalles National bank, and as many new ones as can find time to come, and he promises to do his best to please them all.

Sheep dip is a terrible drain upon farmers of the Inland Empire which they can in a great measure overcome. Mr. Bonn of this city, has set the example of cultivating tobacco for dip purposes, and his eminent success shows what may be accomplished. Besides the prolific growth of tobacco here, we notice that tobacco with leaves thirty-three inches long and seventeen inches wide has been grown this year in Grant county along the John Day river. It was not intended for curing, but for manufacturing sheep dip. If the practice becomes general with sheep-owners, they will save themselves thousands of dollars.

Col. Bob Miller has put the estate to \$25,000 expense, through the various counties, by not finding out that he was not eligible as an elector on the Cleveland ticket, "until a Weaver man could be found for the place." A sort of slow combination. Nathan Pierce, a populist of Umatilla county, has been dug up to combine with the democrats; and Bob drops out, just because he is ineligible; and he is ineligible because he is ineligible. That is the only reason assigned. He is said to be suffering from a severe cold contracted during the recent snow storm in Eastern Oregon, perhaps while he was up here arranging his ineligibility with Pierce. No man is at liberty to state what the disability of Colonel Miller is, as the information was imparted to me under a pledge of secrecy," says Chairman Dan Murphy, of the democratic state central committee, "but it is a bigger thing that we have discovered than the discovery of America by Columbus. It may be that some of the electors on the republican ticket in the different states are ineligible for the position of presidential elector for the same reasons, and were I to say of what the disability consists, it is not improbable that the republicans would withdraw certain of their candidates for electors." Republicans make no mistakes, to rectify which the people's money must be squandered at this late day for new ballots all over the state.

A whip stock eighty feet long, eleven inches through at the butt end, and three inches at the top, was left in front of the United States land office this afternoon, corner of Washington and First streets, where it will be planted in the ground and be used by Uncle Sam's agents in The Dalles from which to float the stars and stripes in gentle breezes.

Dr. Goucher, of Amity, who recently made a queer discovery as to how worms get into apples, has just had a peculiar personal experience: He grew ill one day last week and began spitting blood and matter substance from his lungs, and among that ejected was a strange looking beast about an inch long, of an oval shape, with three legs on either side about half an inch in length, and on the whole a very queer-looking specimen of animal creation. The doctor says he feels an absence now in his left lung, where the thing was probably located, and is much easier now because of its removal. Doc is sorely troubled with worms this year.

Piano Thumpers.

Lovers of music will be highly edified by the perusal of a New York dispatch today giving an account of the contest between a pair of thumpers yesterday. The account says: Prof. (?) W. J. Waterbury is still champion long-endurance piano-player of the world. His record, is now seventeen hours' continuous playing. Professor Waterbury and Miss Ada Melville began playing in a museum at 9 a. m. His record was fourteen hours; hers was ten hours and thirty minutes. Both were confident of winning. To appreciate the severity of this test of endurance it must be remembered that there is no stop of any sort in the performance for any purpose whatever. From 9 a. m. until 1:52 a. m., a stretch of sixteen hours and fifty-two minutes, Miss Melville never left her seat, and never once stopped playing. At 1:52 yesterday morning she collapsed. Her hands fell from the keys to her lap, and she was too exhausted to raise them. She was utterly prostrated. The professor himself, after the collapse of Miss Melville, played on for eight minutes, establishing the record of seventeen hours. Miss Melville's right wrist is swelled and stiff, and the middle finger of the right hand is swollen and sore. The finger tips of both hands are numb and blistered. The professor's thumbs are nearly twice their regular size.

Miss Harrison is Dead.

Mrs. Harrison died at 1:40 a. m. today. It could hardly be said that the patient was unconscious during the evening hours, for she revealed some signs of understanding when attempts were made to relieve her last moments by partially opening her parched lips to receive the stimulating fluid which was applied to them from time to time, but not a drop could she swallow, and the power of speech had left her frame forever. The funeral arrangements are as follows: Religious services will be held at the White House Wednesday morning, after which the remains will be taken to Indianapolis, where the interment will be made at Crown Hill cemetery Thursday.

Married.

In this city, Oct. 24th 1892, by Elder G. H. Barnett, Herbert Powell, and Miss Nancy McCoy, all of Wasco county.

Rooms to Let.

Two pleasant bed rooms in a neat cottage on the hill, to let. Inquire at this office. 10.1d1f

GRANITE CREEK MINES.

Revival of Work Long Since Abandoned --Hydraulics and Flumes the Style Now.

Long Creek Eagle. Placer mining has been very profitable at Granite creek this season. J. J. Worcester has ceased his season's labor on his mines, on which he has been laboring since the early part of the year, opening up an old tunnel run by gold seekers in 1862, and long since filled up with rock. The tunnel leads through a fall in the creek about forty feet high, and is being converted into an open cut, for the purpose of putting in a flume. They have excavated some 200 feet and there is yet eighty feet to open. They expect to complete the work and put in a flume in time to take advantage of the water supply in the spring. These were rich diggings in the long ago. From eighty to one hundred thousand dollars were taken out above the falls, and the work paid \$80 to \$100 a day to the man. With the fall obtained by cutting away the tunnel the preent miners expect profitable returns, as they can mine to great advantage. The reason the old tunnel has not been opened before is no one cared to tackle the accumulation of rock, but the work has proven easier than anticipated. Mat Kerwin, a practical miner, who is in the employ of Sloan & Haskell, of the Elk creek mines, called to see us Monday. From Mr. Kerwin it is learned that Sloan & Haskell is running a force of four hands night and day, drifting out that which would be impossible to work with the hydraulic, owing to the height of the bank. They have driven one tunnel in about 200 feet and another about 150 feet, and are at present realizing handsomely from the claim formerly worked by O. P. Cresap, during the 60's. In the meantime the derrick, etc., used in working the placer mine, is being moved to a point farther up Elk creek, and put in readiness for operations in the spring.

FREE.

Friends and customers of A. M. Williams & Co., and John Booth, are cordially invited to call at their grocery store Tuesday and Wednesday, Oct. 25th and 26th to test the merits of the St. Charles Evaporated Unsweetened cream. Coffee will be served in which this brand of delicious cream will be used.

This sterilized cream is not only superior to any other on the market, but is better than dairy milk or cream, which has not been relieved of the animal and atmospheric impurities. Come one and all.

T. B. St. Charles Unsweetened cream is a peerless food for infants, and the sick, as well as all culinary uses.

The Fence of the Future.

There are a number of strong points in favor of the Tuna Hedge as the fence of the future, the advantage of this kind of a fence may be briefly enumerated as follows: It becomes a perfect barrier against all kinds of domestic animals after three years growth; does not sap or impoverish the ground, being a strictly atmospheric plant, and will not grow from the seed or by cutting the roots. Hence will not spread, it grows only to a certain uniform height and therefore does not require trimming, it has been thoroughly and successfully tested in northern climates and does not kill out in the winter time, it serves the double purpose of usefulness and ornamentation, as it is an evergreen and blooms during three months of the year, an invitation is extended to thoroughly test its merits, and every one will be convinced that it possesses all the advantages claimed for it. Messrs. Johnson & Payne are now taking orders for the Tuna Hedge and have met with uniform success. Any one wishing a living growing fence something that will not spread and will be a fence for all time to come should give their orders now and get their fence started this fall.

Card of Thanks.

To the kind friends who were so sympathetic and helpful in our late bereavement at the loss of our babe, we extend our sincere thanks, and may God bless them, is the prayer of
 MR. AND MRS. W. T. KAME.

Oh, this ringing in the ears!
 Oh, this humming in the head!
 Hawking, blowing, snuffing, gashing,
 Watring eyes and throat-rashing,
 Health impaired and comfort fled,
 Till I would that I were dead!

What folly to suffer so with catarrhal troubles, when the worst cases of chronic catarrh in the head are relieved and cured by the mild, cleansing and healing properties of Dr. Sage's Catarrh Remedy. It purifies the foul breath, by removing the cause of offence, heals the sore and inflamed passages, and perfects a lasting cure.

ICE! ICE! ICE!

Having on hand a large supply of ice we are prepared to furnish our customers with ice in any quantity at a reasonable rate. We guarantee we will supply the demand without advancing prices throughout the season. Leave orders at C. F. Lauer's store, Second street. 5-2tf CATES & ALLISON.

For Sale.

Two choice lots and a cottage, on 9th street, one block west of Union. Very desirable. Price reasonable, come quick, apply to N. Whealdon.

Children Cry for Pitcher's Castoria.

When Baby was sick, we gave her Castoria.
 When she was a Child, she cried for Castoria.
 When she became Miss, she clung to Castoria.
 When she had Children, she gave them Castoria

A Cure for Cholera.

There is no use of any one suffering with the cholera when Chamberlain's Colic, Cholera and Diarrhoea Remedy can be procured. It will give relief in a few minutes and cure in a short time. I have tried it and know.—W. H. Clinton, Helmetta, N. J. The epidemic at Helmetta was at first believed to be cholera, but subsequent investigation proved it to be a violent form of dysentery, almost as dangerous as cholera. This remedy was used there with great success. For sale by Blakeley & Houghton.

County Treasurer's Notice.

All county warrants registered prior to March 13, 1892, will be paid if presented at my office, corner Third and Washington streets. Interest ceases on and after this date.

The Dalles, July 16, 1892.
 WILLIAM MICHELL,
 7.18tf Treasurer Wasco County, Or.

Notice.

By Order of the Common Council of Dalles City, made and entered on the 12th day of October, 1892, notice is hereby given that said city council is about to proceed to order and make improvements in streets in said city, as hereinafter stated, and the cost of such improvement will be levied upon the property adjacent thereto, and said improvement will be made, unless within fourteen days from the final publication of this notice, the owners of two-thirds of the property adjacent thereto, shall file their remonstrance against such improvements as by charter provided.

The improvement contemplated and about to be made is as follows, to wit:
 To improve Washington, Fulton and Laughlin streets in said city, by constructing a sewer of terra-cotta, from the Columbia river at the foot of said Washington street, and running thence south on said Washington street, to the junction of said street with Fulton street, and running thence easterly along said Fulton street, to the junction of said Fulton street with Laughlin street, and running thence southerly along said street, said sewer to be of twelve inch terra-cotta pipe from the point of beginning, above mentioned to the alley between Fourth and Fifth streets, and of ten inch terra-cotta pipe from said place, to the termination thereof, as above stated. Dated this 22d day of October, 1892.
 FRANK MENEFEE,
 Recorder of Dalles City.

A Cholera Scare.

A reported outbreak of cholera at Helmetta, N. J., created much excitement in that vicinity. Investigation showed that the disease was not cholera but a violent dysentery, which is almost as severe and dangerous as cholera. Mr. Walter Willard, a prominent merchant of Jamesburg, two miles from Helmetta, says Chamberlain's Colic, Cholera and Diarrhoea Remedy has given great satisfaction in the most severe cases of dysentery. It is certainly one of the best things ever made." For sale by Blakeley & Houghton, druggists.
