A man said to be connected with the Great Northern says that Hill will never build the Portland and Puget sound branch. The Union Pacific located and spent considerable money on this road, and the Great Northern would not accept the work done, or put in any money because the grades and location were unsatisfactory. He says the Great Northern is likely to get into Portland by the way of Ellensburg and La Canas, where some business can be gathered along the line. The local business between Portland and the sound would not be worth \$10 per mile per annum, while the Ellensburg branch will extend through a rich timber, mineral and agricultural country. When Hill goes to Portland he will do so for business, purely.

The official vote of Klickitat county shows that over there the peoples party has grown to be a powerful factor in politics. That party elect the sheriff, treasurer, assessor, coroner and three county commissioners. The republicans elect the representative, school superintendent, county auditor, judge and clerk. George F. McKinney for county clerk, has a majority of three votes. John H. McGraw and W. H. Doolittle have majorities of about 290 each. John L. Wilson receives a majority of over 350. Mr. Wilson is very popular in Klickitat county. The best part of the peoples party element was elected, while the anarchy element was snowed under.

Colonel R. W. Mitchell is an avowed candidate for collector of customs at Portland. The colonel's attitude has been neutral as between the warring factions of his party, and he is the one man who can consistently claim the solid backing of either or both. His exceptional popularity cannot be attributed to inactivity, however, as he was one of the hardest workers for Cleveland in Multnomah county. And he has been unanimously chosen to marshal the parade which the local democracy is arranging for next Thursday night.

That element of population no longer desired is still hastening to America. Saturday last Secretary Foster directed that the immigrant steamship Weimer, from Bremen, be detained at quarantine at Cape Charles, Md., for a period of 20 days. The baggage of the immigrants was disinfected and the vessel thoroughly cleaned. The Weimer has on board 1,900 immigrants. This is a test case and will be a precedent in all similar cases arising in the future. If they refuse to take the medicine they can turn back.

A leading democrat here in The Dalles, last Thursday, when asked, "if the democrats would repeal the tariff law and 10 per cent. on state banks?" replied "the platform is made to get in on, not to stand on;" we quote it showing the unanimity of the democracy. The same answer was given to Chauncey Depew by a democrat in New York, on the same day. Depew believes we will make them confess they did not dare to fulfill their promises.

The presidential electors chosen in the several states are to meet on Monday, January 9th to declare the result in each. It will be transmitted to Washington city by a special messenger in each case and announced by congress on the second Wednesday in February. The house of representatives canvass the electoral vote for the president, and the senate for that of vice president.

The steamship Premier has been successfully floated by Grant Bros.' system of collapsible cylinders. There has been much doubt among seafaring men as to the practicability of the system, as the canvas cylinders were expected to rip or explode when the pressure of a sunken ship was brought to bear on them. Such, however, proves not to be the case.

One of the problems with which the young American boy is now perplexed is the question as to why his mother will insist upon raking his own rebellious hair into order and immediately afterward go into ecstasy over a shock-headed, unkempt chrysanthemum.

This is a year of broken records. Thin men on bicycles have demolished several. Nancy Hanks kicked her four brisk hoofs through another and a transatlantic liner has steamed right through still another. Another broken record is credited to Cleveland.

The blue book is now again in active demand.

Kept up for years—the offer that's made by the proprietors of Dr. Sage's Catarrh Remedy. It's addressed to you, if you have Catarrh. It's a reward of \$500, if they can't cure you, no matter how bad your case, or of how long standing—an offer that's made in good faith by responsible men.

Think what it means! Absolute confidence in their Remedy, or they couldn't afford to take the risk. A long record of perfect and permanent cures of the worst cases—or they couldn't have faith in it. It means no more catarrh—or \$500. If you fail to be cured, you won't fail to be paid.

But perhaps you won't believe it. Then there's another reason for trying it. Show that you can't be cured, and you'll get \$500. It's a plain business offer. The makers of Dr. Sage's Catarrh Remedy will pay you that amount if they can't cure you. They know that they can—you think that they can't. If they're wrong, you get the cash. If you're wrong, you're rid of catarrh.

Please Report.

Subscribers will oblige THE CHRONICLE by promptly reporting if their papers are not delivered, or the delivery boys do not place them in a safe place. The distribution of the papers is one of the most perplexing questions to be solved by a newspaper. If you do not get your paper, kick. We are endeavoring to keep things straight.

Examination of Teachers.

Notice is hereby given that for the purpose of making an examination of all persons who may offer themselves as candidates for teachers of the schools of this county, the county school superintendent thereof will hold a public examination at his office in The Dalles, beginning Wednesday, November 9th, 1892, at one o'clock p. m. All teacher-eligible for state certificates, state diplomas and life diplomas must make application at the quarterly examinations. Dated this Oct. 31, 1892. TROY SHELLEY, County School Superintendent of Wasco County, Oregon. 10.31dwtd

The Fence of the Future.

There are a number of strong points in favor of the Tuna Hedge as the fence of the future, the advantage of this kind of a fence may be briefly enumerated as follows: It becomes a perfect barrier against all kinds of domestic animals after three years growth; does not sap or impoverish the ground, being a strictly atmospheric plant, and will not grow from the seed or by cutting the roots hence will not spread, it grows only to a certain uniform height and therefore does not require trimming, it has been thoroughly and successfully tested in northern climates and does not kill out in the winter time, it serves the double purpose of usefulness and ornamentation, as it is an evergreen and blooms during three months of the year, an invitation is extended to thoroughly test its merits, and every one will be convinced that it possesses all the advantages claimed for it. Messrs. Johnson & Payne are now taking orders for the Tuna Hedge and have met with uniform success. Any one wishing a living growing fence something that will not spread and will be a fence for all time to come should give their orders now and get their fence started this fall.

NOTICE.

All Dalles City warrants registered prior to January 6, 1891, will be paid if presented at my office. Interest ceases from and after this date. Dated October 13th, 1892. L. RORDEN, Treas. Dalles City.

Too Much of a Risk.

It is not unusual for colds contracted in the fall to hang on all winter. In such cases catarrh or chronic bronchitis are almost sure to result. A fifty cent bottle of Chamberlain's Cough Remedy will cure any cold. Can you afford to risk so much for so small an amount? This remedy is intended especially for bad colds and croup and can always be depended upon. For sale by Blakeley & Houghton, druggists.

S. L. YOUNG,

JEWELER

Watches and Jewelry repaired to order on short notice, and satisfaction guaranteed.

WINANS

THE NEW TOWN has been platted on the old camp ground, at the Forks and Falls of Hood river, with large sightly lots, broad streets and alleys, good soil, pure cold water and shade in profusion, perfect drainage, delightful mountain climate, the central attraction as a mountain summer resort and for all Oregon, being the nearest town to Mt. Hood. It is also unparalleled as a manufacturing center, being the natural center for 130 square miles of the best cedar and fir timber, possessing millions of horse power in its dashing streams and waterfalls, easily harnessed. Where cheap motive power exists, there the manufacturing will center, surrounded by soil and climate that cannot be excelled anywhere for fruit and agriculture, and with transportation already assured you will find this the place to make a perfect home or a paying investment.
