**JUDGE NELSON'S DECISION.**

Speaking of patent medicines, the Judge says: "I wish to deal fairly and honorably with all, and when I find an article that will do what it is recommended to do, I am not ashamed to say so. I am acquainted with Dr. Vanderpool (having been treated by him for cancer), and have used his blood medicine, known as the S. B. Headache and Liver Cure, and while I am 75 years old, and have used many pills and other remedies for the blood, liver and kidneys, I must say that for a kidney tonic in Bright's disease, and as an alternative for the stomach and bowels, it is a very superior remedy, and beats anything I ever tried."

HOPE OF ANOTHER CORMACK YEAR

Fifty Thousand People Expected to be Present—Town Full of College Men.

Special to THE CHRONICLE.]  
SPRINGFIELD, Mass. Nov. 19.—Once only in seventeen years Harvard has beaten Yale in the great annual contest at football. That single time, in 1880, is known as the Cormack year, for it was Cormack, Harvard's greatest player, to whose work victory was due. The town is filled with the usual thousands of college men graduates, professors and a great array of pretty women, who as a rule, take as deep an interest in these games as their brothers and sweethearts.  
Yale at the beginning of the season had but little hope of putting a strong eleven into the field. Heflinger, McClung, Morrison and Barban of last year's great team had graduated, and in fact McCormack, Bliss and Hinkley seemed to comprise the only good material on hand. But Camp, Heflinger, Wallace, Howard, Knapp, and a dozen others as famous have come to the rescue and have done some remarkable coaching. The result is that Yale has an eleven which to Yale critics and to many outside the pale of the influence of that college seems invincible. Among the players who will face Harvard this afternoon, the most prominent are McCormack, Cap. Hinkley, Wallis, Winter, and two Bliss boys, Butterworth, a son of Congressman Butterworth of Ohio, Norton, Sanford, Adee and Hickox.  
Capt. Berne Trafford, of Harvard, is not so confident today as earlier in the season. The game with Cornell, in which Harvard barely won, is one cause for the general lack of spirit, but many of the weak points have been strengthened and much is expected of Brewer, Lake and Lee, all splendid players. Corbett, Gage, Upter, Walters, Lewis, Blake, Collamore, Foster and Capt. Trafford himself are probably all certain to be in the field today. Many Princeton men are in town and will watch Yale's game with especial care, as it will contest for championship with the Blue at Manhattan field, on Thanksgiving day.  
Hampden park has been much improved since last year. Instead of the 4,500 additional seats ranged on each side, room has been made for 7,500 spectators at each end, in addition to the regular accommodations.

**MARKET REVIEW.**

**Summary of Trade and Business for the Current Week.**  
THE DALLES, Nov. 17.—There has been a slight falling off in business during the past week, on account of the late stormy weather, which has visited this section. The farming classes have improved the favorable time with the plow and seeder, and are rushing their work with a vengeance.  
In merchandise lines there have not been any changes in prices to note. Staple groceries are moving more rapidly, and former quotations are maintained.  
In produce, the market is steady, and in some things prices are firmer with an upward tendency. Eggs are scarce at 30 cents per dozen cash. Gilt-edge butter is in fair supply, as is packed. Prices are steady at former quotations.  
The poultry market is unsteady, prices range from \$2 to \$3.50 per dozen; extra fine sell at \$3 to \$3.50 per dozen; inferior from \$2 to \$3. There is no change in our last weeks quotations on turkeys, ducks or geese. The market is not as well supplied with these fowls this season as last, and unless there should be more brought into the city soon, prices will advance.  
Potatoes are more freely offered at the following quotations, ordinary qualities are quoted at \$1.25 per 100 lbs, while extra good find ready sale at \$1.35 to \$1.40 per 100 lbs, with a limited offering.  
The foreign wheat market is dull, weaker, and options lower, on Liverpool spot. Public cables report Walla Walla, prompt shipment, at 31s 5d, to 31s 6d. per qrs. on an easy market.  
The exports of wheat into the United

**FOR A ROAD DEPARTMENT.**

The Subject of Good Roads is now Properly Before the People.

On sending his blank petitions to THE CHRONICLE for signatures Albert A. Pope of Boston knew where they would meet with responsive action "and do the most good." When filled out with the names of American citizens the sheets are to be returned to him, he presses the button, and congress will do the rest. Copies of the petition may be signed at this office, the Unatilla house, and at the office of Linus Hubbard. They clearly represent that the times are ripe for the organization of a Road Department at Washington, similar to the Agricultural Department, "for the purpose of promoting knowledge in the art of constructing and maintaining roads;" and for teaching students so that they may become skilled road engineers. We feel that Wasco county has at least one skilled road builder in the person of T. J. Driver; but the time has come when "no one individual can educate the world," and we favor the plan of letting the next congress set up this road bureau, and by means of its efficiency do away with any future bad roads in these United States. In his letter to THE CHRONICLE Mr. Pope says:  
"Permit me to invite your attention to the enclosed copy of a petition which I have sent to college presidents, railroad presidents, postmasters, and others, with the request that they sign it, and also aid in getting others to sign. The time has now come when the people are thoroughly aroused to the importance of improving the highways. Let us all together endeavor to do something practical to secure better roads. The establishment of a road department, an institute of road engineering, and a permanent road exhibit in the city of Washington; and a comprehensive exhibit of road construction and maintenance at the Chicago exposition would accomplish much in the way of practical results. This is a subject of both local and national interest. Will you not earnestly request all to favorably consider this petition, advise people to sign it, and suggest that superintendents of factories, proprietors of hotels, merchants, and others place these petitions in their establishments so that they may be generally signed? Copies of this petition will be sent to any person interested in the subject. I wish to secure editorial comments to print in a memorial to congress that will be presented with the petition. If you publish anything, will you kindly send me a marked copy."

**Peaceful Revolutions.**  
This is a wonderful country, says Father Patrick Cronin, in the Buffalo Catholic Union and Times. In a single day all the offices and emoluments of government are transferred from one party to another and the leaders of both sides promptly accept the result as the inevitable decree of the people. How different in other lands. Hardly a day passes but we hear of bloody outbreaks and civil tumult in foreign governments, and every presidential election held in any of the South American republics is the signal for revolution or rebellion. Here the defeated candidate for president will escort his successful rival to the inauguration stand, and the whole people, irrespective of party, will greet with tokens of enthusiasm and respect the next Chief Magistrate of the American Republic.

**Announcement.**  
We beg to inform the public that we are about to open a night school of business and short hand here in the city, and respectfully solicit the patronage of all such young men and women as desire to secure a practical knowledge of business. For full and further particulars apply at room 4, over French's bank.
