### WHY WE ARE THANKFUL.

There is not a person in all the land of free America able to read President Harrison's proclamation, but whom will endorse its every word. Truly have we much for which to be thankful. Mr. Harrison says:

"The gifts of God to our people during the past year have been so abundant and so special that the spirit of devout thanksgiving awaits not the call but only the appointment of a day, when it may have common expression. He has stayed pestilence at our doors. He has given us more love for free civil institutions, in the creation of which his directing providence is so conspicuous. He has awakened a deeper reverence for the laws. He has widened our philanthropy by a call to succor distress in other lands.

He has blessed our schools, and is bringing forward a patriotic and God-fearing generation to execute his great and benevolent designs for our country. He has given us great increase in material wealth and wide diffusion and contentment and comfort in the homes of our people. He has given his grace to the sorrowing. Now, therefore I, Benjamin Harrison, president of the United States, do call upon all our people to observe, as has been their wont, Thursday the 24th day of this month, November, as a day of thanksgiving to God for his mercies and a supplication for his continued care and grace."

This proclamation is a timely reminder that, despite all political differences and our troublous campaigns, party against party, we are still one people, with one common country, and that a glorious one. On Thursday next we shall be prepared to observe after our usual fashion our national fast day, but not by fasting. We got over that long ago and substituted feasting.

A Chicago paper denies the story of the disappearance of Jim Wall, the Australian book-maker, and says he is still there. It is reported he has been sick and has lost several thousand dollars and retired from the ring.

William Anderson was arrested in Chicago while trying to sell for \$5 a set of 16 ivory billiard balls worth \$600, yesterday. This arrest brought out the story that the store of C. G. Akam was robbed of between 150 and 200 sets Saturday, worth in the aggregate \$15,000.

The general missionary committee of the Methodist church is in session in Baltimore. Appropriations for home and foreign missionary work aggregate \$1,310,000, besides \$600,000 for the women's home and foreign missionary societies. The work of the missions is progressing most satisfactorily.

The London Graphic says the admiralty has decided not to build any more guns weighing over 50 tons. It has also decided that every gun must be mounted in such a manner that it can be loaded, trained and run in and out by hand power. The guns will have a degree of elevation now unattainable, and the crews will be better protected.

According to the latest returns Cleaveland's majority in the electoral college is only 40. This will show that Harry's (Tammany) calculations were about as square as a calculation could be made. They had given up New York, 36 votes; and believed what they said when they telegraphed to Murphy that the issue must be fought out to cast the four votes of Oregon for "anybody to beat Harrison."

Every year brings its evidence that railway facilities are inadequate to the full transportation of the immense masses of freight which this country is capable of turning out. Every year repeats its lesson in the freight blockades and car famines, which show that the railways are unable to perform the full work they have undertaken. Yet the production of the country is but a fraction of what it would be if cheap and reliable water transportation were opened from the headwaters of the Columbia and the Mississippi to the oceans. Under such a development the transportation of the higher classes of freights to which the canals are unsuitable would yield the railways constant and profitable traffic, while the waterways would transport the large masses of cheap freights at prices which would relieve the railways of their burden. However the policy of improved waterways may be hampered by corporate greed and jealousy, it is bound to succeed. It will soon come to be recognized as a case of the public interest versus the railways. It would be wise on the part of the latter to acquiesce gracefully in the policy of improvement before the issue takes that unpleasant form.

### Can't be found

—the equal of Dr. Pierce's Golden Medical Discovery. If other medicines of its class were like it, they'd be guaranteed. This is. If it doesn't benefit or cure, in every case for which it's recommended, you get your money back. It isn't a "cure-all," but it does cure all diseases arising from a torpid or deranged liver, or from impure blood. For all Scrofulous, Skin and Scalp Diseases, it's a positive remedy. Even Consumption, or Lung-scrofula, is cured by it, if taken in time and given a fair trial. That's all that's asked for it—a fair trial. Then, if it doesn't help you, there's no pay.

We claim it to be an unequalled remedy to purify the blood and invigorate the liver. We claim it to be lasting in its effects, creating an appetite, purifying the blood, and preventing Bilious, Typhoid and Malarial fevers, if taken in time. The time to take it is when you first feel the signs of *weariness and weakness*. By druggists.

### A Cure for Cholera.

There is no use of any one suffering with the cholera when Chamberlain's Colic, Cholera and Diarrhoea Remedy can be procured. It will give relief in a few minutes and cure in a short time. I have tried it and know.—W. H. Clinton, Helmetta, N. J. The epidemic at Helmetta was at first believed to be cholera, but subsequent investigation proved it to be a violent form of dysentery, almost as dangerous as cholera. This remedy was used there with great success. For sale by Blakeley & Houghton.

### Please Report.

Subscribers will oblige THE CHRONICLE by promptly reporting if their papers are not delivered, or the delivery boys do not place them in a safe place. The distribution of the papers is one of the most perplexing questions to be solved by a newspaper. If you do not get your paper, kick. We are endeavoring to keep things straight.

### The Fence of the Future.

There are a number of strong points in favor of the Tuna Hedge as the fence of the future, the advantage of this kind of a fence may be briefly enumerated as follows: It becomes a perfect barrier against all kinds of domestic animals after three years growth; does not sap or impoverish the ground, being a strictly atmospheric plant, and will not grow from the seed or by cutting the roots hence will not spread, it grows only to a certain uniform height and therefore does not require trimming, it has been thoroughly and successfully tested in northern climates and does not kill out in the winter time, it serves the double purpose of usefulness and ornamentation, as it is an evergreen and blooms during three months of the year, an invitation is extended to thoroughly test its merits, and every one will be convinced that it possesses all the advantages claimed for it. Messrs. Johnson & Payne are now taking orders for the Tuna Hedge and have met with uniform success. Any one wishing a living growing fence something that will not spread and will be a fence for all time to come should give their orders now and get their fence started this fall.

### NOTICE.

All Dalles City warrants registered prior to January 6, 1891, will be paid if presented at my office. Interest ceases from and after this date.  
Dated October 13th, 1892.  
L. RORDEN,  
Treas. Dalles City.

### Too Much of a Risk.

It is not unusual for colds contracted in the fall to hang on all winter. In such cases catarrh or chronic bronchitis are almost sure to result. A fifty cent bottle of Chamberlain's Cough Remedy will cure any cold. Can you afford to risk so much for so small an amount? This remedy is intended especially for bad colds and croup and can always be depended upon. For sale by Blakeley & Houghton, druggists.

### S. L. YOUNG,

# WINANS

THE NEW TOWN has been platted on the old camp ground, at the Forks and Falls of Hood river, with large eighty lots, broad streets and alleys, good soil, pure cold water and shade in profusion, perfect drainage, delightful mountain climate, the central attraction as a mountain summer resort and for all Oregon, being the nearest town to Mt. Hood. It is also unparalleled as a manufacturing center, the natural center for 150 square miles of the best cedar and fir timber, possessing millions of horse power in its dashing streams and waterfalls, easily harnessed. Where cheap motive power exists, there the manufacturing will center, surrounded by soil and climate that cannot be excelled anywhere for fruit and agriculture, and with transportation already assured you will find this the place to make a perfect home or a paying investment
