**MAMMOTH AND FLOOD.**

On a recent trip to Malheur county Mr. C. E. Bayard visited the hydraulic mines now in operation at old El Dorado city, and while there secured the two well-preserved samples of mastodon teeth which are on exhibition in THE CHRONICLE window today. There is only one place outside the Inland Empire, where better preserved remains are found of the mammoth, and that is Siberia, according to Howorth's "Mammoth and Flood," in which a new theory is advanced with regard to the remains of mammoths and other large animals in the soil of Siberia. All over that great plain, wherever the ground is frozen hard, are found mammoths and other animals preserved very fresh, so that the wolves and bears can feed upon their remains.

These mammoths have been found from the eastern border clear to the Obi river. They have been found under conditions which make it certain that they could not have lived unless the surroundings and climate had, at the time they existed, been entirely different from the present conditions. The remains of the plants on which they fed are also found, and southern contemporary shells are discovered with the remains, pointing to climate conditions which no longer exist.

Mr. Howorth believes that the plateau is one of the most recent features in the known physical geography of the world, and that its rapid elevation caused the tremendous change of climate which has enabled the bodies of the great beasts to be preserved intact as we find them. He says that unless these animals had been frozen immediately after they died, and remained frozen to this day, they would certainly have decayed and disappeared. A single Siberian summer sun would have destroyed them completely. It is known that further east the bones of great animals have been found 17,000 feet above the sea under conditions which Falconer declared to be absolutely incompatible with their mode of life. The relics cause profound reflection, at all events, wherever found.

Another new party was organized in Memphis, Tenn., Saturday, styled the industrial legion of the United States, by prominent leaders of the people's party, who are also prominent in the farmers alliance. The object of the legion is to carry out politically the measures embodied in the principles of the Omaha platform of the people's party, together with free speech, a free ballot and a fair count. The industrial legion is composed of three classes. The first class is to consist of the male members over twenty-one years to be known as the senior class. The second will be the junior class, which will consist of the male members under twenty-one and over fourteen, who shall be educated and trained to become members of the people's party. The third class will be known as the woman's aid corps, which is intended as an auxiliary to the senior legion. The legion is modeled much after the Grand Army, and partakes of the secret organization character, while the meetings may be secret or open, at the option of the members. The founders of the legion are prominent leaders of the seven great industrial organizations composing the people's party, together with the foremost people's party members.

The Pendleton gentlemen who have taken hold of that Columbia river island enterprise deserves much credit. The East Oregonian believes they will make a success, and if they do their example will be worth thousands of dollars to the people. They propose to grow, figuratively speaking, two or more blades of grass where none have grown before. This is much better work, and deserving of more reward, than capturing land through deception and deceit, or hungering after office in order that a private snap may be secured, or soliciting victims to borrow money at ruinous rates of interest. It would be a blessing if others would embark in similar industrial enterprises instead of struggling to succeed by tearing down.

**Boreas in Spokane.**

Spokane, Nov. 21.—A Kansas cyclone could not have caused a more complete destruction of any building than that wrought by a playful chinook which razed the Northern Pacific freight sheds to the ground Saturday. Not a board was left standing. While a dozen or more men were in the building engaged in handling freight an unusually strong gust of wind struck the structure and caused it to collapse instantly and completely. Only two men were injured, but how any of those who were in the building at the time escaped is a matter of wonder.

**Making Glad the Waste (Waist) Places.**

"That's what I call making glad the waist places," said Smithson, as he put his arm around a lady's waist. But Lilly won't care much for this show of affection if Smithson doesn't get rid of that disagreeable catarrh of his. Won't somebody tell him that Dr. Sage's Catarrh Remedy will cure him.

By its mild, soothing, antiseptic, cleansing and healing properties, Dr. Sage's Catarrh Remedy cures the worst cases of Chronic Catarrh in the Head, as thousands can testify. "Cold in the Head" is cured with a few applications. Catarrhal Headache is relieved and cured as if by magic.

In perfect faith, the makers of Dr. Sage's Catarrh Remedy—the World's Dispensary Medical Association, of Buffalo, N. Y., offer to pay \$500 to any one suffering from Chronic Catarrh in the Head whom they cannot cure.

Now, if the conditions were reversed—if they asked you to pay \$500 for a positive cure you might hesitate. Here are reputable men, with years of honorable dealing; thousands of dollars and a great name back of them.

They believe in themselves. Isn't it worth a trial? Isn't any trial preferable to catarrh?

**A Cure for Cholera.**

There is no use of any one suffering with the cholera when Chamberlain's Colic, Cholera and Diarrhoea Remedy can be procured. It will give relief in a few minutes and cure in a short time. I have tried it and know.—W. H. Clinton, Helena, N. J. The epidemic at Helena was at first believed to be cholera, but subsequent investigation proved it to be a violent form of dysentery, almost as dangerous as cholera. This remedy was used there with great success. For sale by Blakeley & Houghton.

**Please Report.**

Subscribers will oblige THE CHRONICLE by promptly reporting if their papers are not delivered, or the delivery boys do not place them in a safe place. The distribution of the papers is one of the most perplexing questions to be solved by a newspaper. If you do not get your paper, kick. We are endeavoring to keep things straight.

**The Fence of the Future.**

There are a number of strong points in favor of the Tuna Hedge as the fence of the future, the advantage of this kind of a fence may be briefly enumerated as follows: It becomes a perfect barrier against all kinds of domestic animals after three years growth; does not sap or impoverish the ground, being a strictly atmospheric plant, and will not grow from the seed or by cutting the roots hence will not spread, it grows only to a certain uniform height and therefore does not require trimming, it has been thoroughly and successfully tested in northern climates and does not kill out in the winter time, it serves the double purpose of usefulness and ornamentation, as it is an evergreen and blooms during three months of the year, an invitation is extended to thoroughly test its merits, and every one will be convinced that it possesses all the advantages claimed for it. Messrs. Johnson & Payne are now taking orders for the Tuna Hedge and have met with uniform success. Any one wishing a living growing fence something that will not spread and will be a fence for all time to come should give their orders now and get their fence started this fall.

**NOTICE.**

All Dalles City warrants registered prior to January 6, 1891, will be paid if presented at my office. Interest ceases from and after this date.  
 Dated October 13th, 1892.  
 L. ROEDEN,  
 Treas. Dalles City.

**Too Much of a Risk.**

It is not unusual for colds contracted in the fall to hang on all winter. In such cases catarrh or chronic bronchitis are almost sure to result. A fifty cent bottle of Chamberlain's Cough Remedy will cure any cold. Can you afford to risk so much for so small an amount? This remedy is intended especially for bad colds and croup and can always be depended upon. For sale by Blakeley & Houghton, druggists.

**S. L. YOUNG,**

**JEWELER**

Watches and Jewelry repaired to order on short notice, and satisfaction guaranteed.

**WINANS**

THE NEW TOWN has been platted on the old camp ground, at the Forks and Falls of Hood river, with large slightly lots, broad streets and alleys, good soil, pure cold water and shade in profusion, perfect drainage, delightful mountain climate, the central attraction as a mountain summer resort and for all Oregon, being the nearest town to Mt. Hood. It is also unparalleled as a manufacturing center, being the natural center for 150 square miles of the best cedar and fir timber, possessing millions of horse power in its dashing streams and water falls, easily harnessed. Where cheap motive power exists, there the manufacturing will center, surrounded by soil and climate that cannot be excelled anywhere for fruit and agriculture, and with transportation already assured you will find this the place to make a perfect home or a paying investment.
