JUDGE NELSON'S DECISION.

Speaking of patent medicines, the Judge says: "I wish to deal fairly and honorably with all, and when I find an article that will do what it is recommended to do, I am not ashamed to say so. I am acquainted with Dr. Vanderpool (having been treated by him for cancer), and have used his blood medicine, known as the S. B. Headache and Liver Cure, and while I am 75 years old, and have used many pills and other remedies for the blood, liver and kidneys, I must say that for a kidney tonic in Bright's disease, and as an alternative for the blood, or to correct the action of the stomach and bowels, it is a very superior remedy, and beats anything I ever tried."

Bees Carry Toilet Cases.

The tongue of the hive bee is a most elaborate structure, admirably fitted for helping to pump up nectar. The wax producing organs of the bee are certain glands on the underside of the abdomen, which are surmounted by thin plates, on which the wax is deposited in flakes like miniature fish scales. It is taken from these plates by a pair of shears or cutters, admirably adapted for the purpose and formed between two joints of the hind legs.

It is passed to the mouth, where it is chewed and rendered plastic by the jaws. The hind legs have many beautiful structures and modifications fitted for gathering pollen and cleansing the bee, while on the front legs there is a regular comb and brush, admirably adapted for cleaning the antennae or feelers, which are very delicate and important sense organs.—Boston Transcript.

Too Late.

During my second year at the Jefferson Medical college, in Philadelphia, I had for a classmate a regular tunkhead. One of the professors was in the habit of taking the boys unawares and quizzing them. He said to this chap one day "How much is a dose of —?" giving the technical name of croton oil. "A teaspoonful," was the reply.

The professor made no comment, and the fellow soon realized that he had made a mistake. After a quarter of an hour he said, "Professor, I want to change my answer to that question." "It's too late, Mr. —," responded the professor, looking at his watch, "your patient's been dead fourteen minutes." —Cor. New York World.
