

CHRISTMAS PRESENTS

WE now have on exhibition in our center window articles of Fancy Work, suitable for Christmas presents. These were made by the ladies of the Congregational Church, and the proceeds from the sale of these will be used to help defray the expenses of furnishing the Church.

Pease & Mays.

The Dalles Daily Chronicle.

Entered at the Postoffice at The Dalles, Oregon, as second-class matter.

Local Advertising.
10 Cents per line for first insertion, and 5 Cents per line for each subsequent insertion.
Special rates for long time notices.
All local notices received later than 3 o'clock will appear the following day.

THURSDAY - - - DEC. 1, 1892

LOCAL BREVITIES.

Leave your order for cord wood at Maier & Benton's.

Hon. Pierre Mays of Portland, is in the city attending circuit court.

Messrs. Frank Taylor and Sam Horny brook of Centerville, are in the city.

Mr. A. J. Collins and wife, and Miss Dora Collins, of Goldendale, are at The Umattilla.

Dr. J. B. Walters, V. S., will be at The Dalles for one week from the 5th of December.

One solitary d. d. of the five dollar class, was all that graced the recorder's box this morning.

Parties having property to sell or rent are requested to list it with us.—Huntington and McKinstry.

The wind storm of last week swept over Union and Walla Walla, doing some damage at both places.

Con Howe is daily seen on the streets now. He looks rather peaked, and does not attempt to make any arrests.

Fresh oysters of all kinds, served in any style to order, by Campbell Bros., at the Columbia Candy Factory.

Rev. L. Nisson, of Astoria, will preach in the Scandinavian Lutheran church in The Dalles on Sunday next, morning and evening.

In the pending action of the Hood River Water Supply Co. v. W. Ross Winans, the court dismissed the case this forenoon.

The Dalles is anything but a good place at any season of the year for catching suckers. People here are pretty generally "up to snuff."

Yesterday was the last day, according to the ratification, to secure the Oregon-Britannica free gratis in The Dalles. Sales have not been very active here.

A mud scraper on Court and Third streets, left its trail today in the soft surface of that once beautiful thoroughfare, the name of which is mud, now, christened by the welcome showers.

Instead of the regular evening service next Sunday at the M. E. church, there will be a sacred concert and praise service, to which all are invited. The offering will be used to procure hymnals for the church.

Julius Weisick, of Sherman county, was assigned to quarters yesterday at Sheriff Ward's hospitable hotel de cross bar. He is held on three charges, selling liquor without a license, and assault with a deadly weapon.

The Dalles, Baker City, La Grande, Pendleton and Union, are the commercial centers of four counties, which possess a gross valuation of over \$22,000,000, and have a population of over 75,000. This is a good showing for a country that two weeks ago was described by a state official as a land chiefly devoted to sage brush and bunch grass.

Incendiary fires have destroyed forty tons of hay for Geo. A. and Fred Young at Bake Oven, and fifty tons for John Wolfinger in Fox valley. Such losses, with winter upon them and large bands of sheep to feed, are doubly damaging.

A third election in Harney and Grant counties this year has been ordered by Gov. Penoyer, for the 20th inst., for representative, because of a tie at the 2d election, Nov. 8th, between Byrd and Gowan. They are the standing candidates.

F. M. Thompson, stock inspector of Wasco county, has made the following appointments of deputies: Henry Darnielle, 8-Mile; Wallace Fargher, The Dalles; Jos. Sherar, Tygh valley; Thos. Condon, Antelope; Lem Burgess, Bake Oven; A. S. Roberts, Deschutes.

It seems that the murdered man found in a box car at Albina has a step-mother in Missouri who raised him. She says his true name was Robin Johnson, and that he was a good, industrious, hard-working man. She asks for particulars regarding the murder.

Jim Noland's horn, 18 feet long, that did service in Democratic blowouts last month at Eugene, Astoria, Portland, The Dalles and Dufur, has been donated to the Nausene observatory, and will be used as a telescope. It was originally the property of the sheriff of Lane county.

Tom Driver the Tygh hill road builder, says Tom and Jerry is called Tom and Dick and Harry out that way. Charles Stubling has got a corner on the market for eggs, and at his corner, the old Washington market, serves Tom and Jerry from now till New Year day at regular intervals.

Mayor Mays is in the city from his southern ranches, and expects to remain some time. He says the storm which has been so damaging in northern and central California, did not altogether miss Oregon. It swept over the Antelope country with a vengeance, and actually blew out some of the bottom rails of the fences.

The jam in the circuit court room during the Birgefeld trail, where every space available was taken up, proved one thing that should be attended to without delay. That is that the exit doors open the wrong way. They should be changed so as to swing out. In case of a stampede from a fire alarm, or some such event, on an occasion when there is a crowd present in that room, there would be no possible means of averting serious injury, if not death to many persons, beyond doubt. It is some surprise that this matter has so long escaped the observation of grand juries.

The long winter evenings have again returned and with them the advent of the whist club is announced. The first club of the season was organized last evening at Keller's hall, and is entirely composed of those who have departed the state of single blessedness. The club organized by electing Mr. H. M. Beall president, W. H. Wilson secretary and Dr. Rinehart treasurer. The evening was pleasantly passed at the tables; and as the company wended their way homeward it was with the pleasant anticipation of many similar meetings during the winter to come. Those present were Mr. and Mrs. H. M. Beall, Mr. and Mrs. J. B. Crossen, Mr. and Mrs. J. S. Fish, Mr. and Mrs. Hostetter, Dr. and Mrs. Rinehart, Mr. and Mrs. Geo. P. Morgan, Dr. and Mrs. Eshleman, Mr. and Mrs. F. Houghton, Mr. and Mrs. C. J. Crandall, and Mr. W. H. Lochhead.

The 40th wedding anniversary of our old-time friends, Mr. and Mrs. Edward Chambereau, will be here, December 14th, 1892, and the children and friends have made arrangements for suitably observing the event, at the family residence, in Portland. Verily long life and happiness have attended them since 1852.

Robert P. Hill is the name of the individual who has been sporting that mansard roof, and those rich, ebony fringed and claret lined eyes about The Dalles the past week or so. He hails from Evanston, Cook county, Ill., and is evidently on the ragged edges of a long continued jag. He is held in the city jail for an officer from Portland who is expected tonight. Just what Hill is wanted for is not currently reported. His kid gloves and other effects, including letters from his father refusing any more money except as stipulated twice yearly, and from his mourning mother brimful of love and compassion for her wayward son, show that he has seen better days.

There is nothing surprising in the fact, apparently just learned by some, in certain quarters; that "cranberries grow in Oregon much better than at Cape Cod." The surprise would be to find anything that may be planted that the soil and climate of Oregon did not improve. Cranberries are not an exception to this universal rule. Mr. E. Stearns, formerly of Portland, who has been residing at Alsea for several years, has sent to his brother in the city a sample of cranberries raised on his place, which for size and general excellence surpass any received from abroad. These are the first cranberries seen in Portland which were grown on Oregon soil, and Allen at once filed a request for a lot to be put up to go with the Oregon fruit exhibit to the Columbian exposition. They will be sent over by Mr. S. and will be in keeping with the rest of the exhibit.

we are informed not a dozen copies are taken daily. It shows a hardness of heart toward the Inland Empire which it is impossible to account for in any reasonable manner. The patronage of the Inland Empire bestowed upon the Oregonian, leaving out the part of principal entirely; should be sufficient to attract to us an occasional intimation of amiability. But not a word do we find of any kindness or good nature from that source. Its reference to the cascade canal is always of an ill natured, spiteful, rankling bitterness. No kind offices and good treatment from the people up this way ever seems to be worthy of a good turn. Even the tail organ of the Oregonian, its Telegram has to sneer at the prospect of an open Columbia river. It says:

There are no new developments in the matter of letting the contract for finishing the cascade locks. Major Handbury has forwarded recommendations, and if a contract is let the successful bidder must put up \$400,000 bonds.

The italic is ours. But who says the successful bidder does not have to put up? The drift of the Telegram is as clearly shown in that word placed where it is as need be shown to any intelligent mind.

Friends of an open river must not expect any favors from the Oregonian, its Telegram, if in fact from Portland, any more than from the Union Pacific railway.

A Contest in Wyoming.
CHEYENNE, Wyo., Nov. 30.—The final count of the Carbon county vote makes the legislature republican on joint ballot, which will insure the election of a republican to the senate, unless the democrats and populists, who will control the lower house, unseat a number of republicans. This is likely, as the democrats charge the republicans with having stolen five members in Carbon county by means of false returns.

The Dalles Markets.

THURSDAY, December 1.—The week past has been more quiet than any former one of the season, on account of the farmers improving the time in plowing and sowing fall grain. Prices remain steady on all staple goods and most kinds of produce. There is a fair stock of vegetables in the market and prices are unchanged. Eggs are more scarce than at any time this season. Our dealers have not advanced prices over last weeks quotation, but will be compelled to do so unless a shipment of eastern arrives soon.

Good fresh butter is in better demand and is shorter in supply with an advance in price in the near future. Potatoes are more plentiful at the quotation and have a downward tendency, that is to say, a slight decline is expected. Good clean green apples are dearer and are marked up 25c per box. Poultry is not coming into market as freely as it did before Thanksgiving, but prices remain as quoted.

The wheat market is stationary on former quotation, 62 for No. 1 and 57 to 60 cts. for other grades. The wool market is entirely bare and is off in quotations. Hides and pelts are weaker in tone although former quotations are the same. There is no change in the beef market. Mutton sheep are scarce and have turned a spot dearer. Fat pork is coming into market lively for slaughter at the quotation.

Abstracts of title and land papers prepared by Huntington & McKinstry, 139 Second street.

From the blossom of health,
To the paleness of death."

When sudden fainting spells come upon a lady, you may always suspect some uterine disturbances or trouble, or some great disorder in the circulation and nerve centers. A remedy that has always proved successful in warding off and removing the tendency to a recurrence of fainting spells—that removes the cause of them, corrects the circulation of blood, and gives to the system that even running nervous energy so essential, is Dr. Pierce's Favorite Prescription.

The "Prescription" is guaranteed to give satisfaction in every case, or money refunded. Nothing else does as much. You only pay for the good you get. Can you ask more?

As a regulator and promoter of functional action, at the critical period of change from girlhood to womanhood, "Favorite Prescription" is a perfectly safe remedial agent, and can produce only good results. It is equally efficacious and valuable in its effects when taken for those disorders and derangements incident to that later and most critical period, known as "The change of Life."
