#### Comments on the President's Message.

The democrats as a general thing, pronounce the message as a campaign document, while on the other side, the republicans agree that it is an able presentation of the affairs and condition of the government.

Mr. Dockery of Missouri, one of the leading democratic members of the house says: "I sincerely hope that the president is correct in saying that there will be no deficiency in the coming fiscal year."

Mr. McMillen of Tennessee, member of the ways and means committee, said: "I believe the only salient points made, were those regarding the tariff and force bill, and they will not change the opinion as expressed at the polls."

Mr. Pickler of South Dakota said: It is an able message and shows the country to be in a prosperous condition. It is a fitting document on the close of President Harrison's able administration."

Senator Mitchell of Oregon said: I consider it a remarkably strong document. Senator Cullon, of Illinois, republican, says: I regard it as an excellent message, an able paper, showing a faithful picture of the present condition of the country.

Senator Stewart, of Nevada, populist, says: I think it an overdrawn picture of the countries condition.

Senator Washburn, of Minnesota, republican, said: It is good; I endorse every word of it. He thinks it a little long for this time.

The English Press comments are of ridicule. The DAILY CHRONICLE, says: It reminds them of a school boys mixim. If you tell a lie, tell a big one and stick to it.

The Morning Post says: It is not wanting in an air of self confidence.

The Standard says: It is not meant to be gracious, neither is it impressive. The complaint of the unfriendliness of Canada is a trifle too absurd.

#### BUNCHGRASS NEWS.

#### Punch Boxes.

Corvallis has struck a pretty good scheme. She has put in "punch boxes" in different corners of her streets that require a visit from the police every fifteen minutes. In them there is no fooling the chief of police in the matter of duty; no going to sleep or taking a game of billiards in a warm room, they have got to get there, or "punch box" gives them away. Such a scheme might do well in the metropolis.

#### Salem's City Election.

The total vote of the city of Salem as polled the other day was only 1,196. The incorporation does not take in over one-third of its suburban territory. The republicans elected all the city officers and three aldermen out of five. Weaver wasn't in it.

#### FLOUR BY THE TRAINLOADS.

##### Cars of The Powdered Grain Arrive in Portland.

A special train loaded with the finest flour ever milled in the Northwest arrived in Portland Tuesday, after having been whirled with a speed almost equal to a passenger train along the rocky gorge of the Columbia river past the cascades and into the seaport from the rich grainfields of Eastern Oregon and Washington. It will be transferred here to one of the steamers connecting with the China-bound vessel.

The shipment consists of 2,000 barrels, and the combined weight of the consignment was 200 tons. It required 20 cars in which to store the flour, and was shipped from Spokane. This is not the first shipment that has been made to the Celestial empire of flour milled from the superb wheat grown in Eastern Oregon and Washington.

#### Objects of Charity.

The Kings daughters are doing a righteous thing for four motherless children, here in the city. Their mother died a couple of years ago, or so, and they were left almost friendless, as it was not known that such was the case until incidentally they were discovered by some friends. As soon as known the "Daughters" took the children under their charge and are preparing suitable wearing apparel for them. Judge Blakeley of the county court has given the ladies all the assistance necessary in providing material for clothing, shoes and stockings. When they are fitted out with these comforts they will be sent to the Boys and Girls Aid society in Portland, where they will be provided with homes.

#### Will Come West in a Few Days.

WASHINGTON, December 6.—Blaine is so much improved in health that he intimates the hope of leaving for California in a few days.

#### The Dalles Markets.

THURSDAY, Dec. 8th. — The Dalles markets are completely demoralized. Business has unexpectedly shut down and everything is seemingly lifeless. The roads are bad and the farmers are busy plowing and sowing winter grain, so that the streets look quite abandoned by them.

There is no material change in quotations on anything, unless it be in fat beef cattle. There has been a slight advance over former quotations, and it is expected that as the season advances there will be a better inquiry for prime beaves. There is no doubt but the holiday requirements are provided for with something very fine in fat meats, and the last of Jan. to the middle of Feb. or the first of March prices will have reached the maximum, at which time extremes may be realized. The large buyers have gone into Idaho and Washington for their supplies, purposely to save the reserves of near home stall-feds, for special demands or requirements, and those will be held as long as the market will stand it. Should a severe winter with deep snows be our lot, an emergency may exhaust the reserve and then fancy prices will be realized.

Mutton sheep, that is to say, extra good are scarce and former quotations are firm.

In the hog or pork market there is but little known, save that pork, bacon, hams and shoulders are dearer, and the impression prevails by our merchants that that staple will rule firm during the season, at an advance.

The wheat market is inactive. Prices are unchanged on all grades; 63 cts is still paid at the Regulator wharf for No. 1.

At the head of all blood-purifiers is Dr. Pierce's Golden Medical Discovery. But it's different from all of them. Whatever is claimed for this, it's guaranteed to do. The money is refunded in every case where it fails to benefit or cure. It's because it is different that it can be sold so. All diseases originating from a torpid liver or impure blood yield to it. It cleanses and purifies the system, freeing it from all manner of blood-poisons, no matter from what cause they have arisen. For Dyspepsia, Biliousness, Scrofula, Salt-rheum, Tetter, Erysipelas, or any blood-taint or disorder, it is an unequalled remedy. Nothing else can take its place.

"Golden Medical Discovery" contains no alcohol to inebriate, and no syrup or sugar to derange digestion. It's a concentrated vegetable extract; put up in large bottles; pleasant to the taste, and equally good for adults or children; works equally well all the year round.

#### A Warning.

Goldendale Sentinel. W. A. Henderson is under sentence of death at Oregon City. No earthly power can intervene to save the unfortunate young man. A fair and impartial trial resulted in a verdict of murder in the first degree, and the penalty thereof is death. In his sad case is another example of the evils that result from strong drink. The number of young men who are yearly going to wreck through the evils of intemperance are too many, and it is evident that something must be done to call a halt. It is quite likely that had Mr. Henderson never in any way been tainted with strong drink he would have been a useful man. It is hoped that his sad fate will turn some erring young man into the paths of honor.

#### The New Railway.

Pendleton Tribune. It is learned that new developments in railroad circles promise to be made public. They are of great importance to people of this section and will interest all who have the interests of Pendleton and surrounding country at heart. The project is in connection with a railroad to Camas prairie. Nothing more definite can be stated today, but will be later. The people of Camas are very anxious to have railroad facilities and all will appreciate the fact that much benefit would accrue from such a move.
