FEARFUL COLLISION.

One Serious Accident Causes a Worse one in New Jersey.

ONE MORE BRIDGE TO BE BUILT.

Railway Telegraphers Ordered out on a Strike by Chief Ramsey.

WILL NOT SERIOUSLY INTERFERE.

The Rock Island the Only Line Affected by the Strike so far—Other Mention.

GREENVILLE, N. J., Dec. 8.—At 11:30 this morning the Boundbrook express, en route for Jersey city, struck and killed a woman in front of the depot here. The train stopped immediately. Another train, outward bound, on an opposite track, whose engineer saw the killing, stopped his train. Behind him, on the same track, followed the third express. The stopping of the first was so sudden he could not stop in time, although he applied the air brakes. The engine plowed through the rear car for half its length, crushing timbers, glass, etc., with a report heard for blocks away. It injured about a dozen passengers. Miss Gilroy, of Elizabeth, was badly hurt, her injuries may prove fatal. One man had his collar-bone broken.

Ordered to Strike.

CHICAGO, Dec. 9.—Chief Ramsey, of the railway telegraphers, says the strike on the Rock Island road is now on and that all the telegraphers went out at ten a. m. yesterday. A Davenport special says the strike would not seriously interfere with the use of wires for train work in Iowa from the Mississippi river to Council Bluffs, not more than twelve operators having left their keys, and on the division from Davenport to Kansas City fifteen to twenty had gone out. Trains are moving regularly by the dispatchers' orders except where the snow storm had interfered. At El Reno the operators have the sympathy of the citizens, and it is believed that the company will have trouble putting non-union men in the strikers' places. Between Ft. Dodge and Des Moines only four men are at work. They are station agents not members of the order. Train service is considerably crippled there. As far as can be learned, none of the operators on the Burlington, Cedar Rapids and Northern road have obeyed the order to strike.

Southern Pacific Bridge.

WASHINGTON, Dec. 8.—The senate bill for a bridge across the Mississippi river above New Orleans for the use of the Southern Pacific was passed. It is very urgent that this measure become a law before the final adjournment of congress.

Of Interest to Fruit Men.

Pacific Farmer. President Cardwell, of the state board of horticulture, who has just returned from an extended trip through the fruit sections of California is very enthusiastic in his description of the interest taken in that industry by the prominent men in the state. He says that there is more brains and money engaged in the raising of California fruit than in any other business. Almost all of the prominent men have an interest of some kind. In one county they figure that they have enough wine grapes to supply the world. These grapes sold as low as six dollars per ton during the present season. And wine sold for eight to ten cents per gallon. The growers also figure that they will inside of five years according to the acreage now planted raise enough French prunes (400,000,000 pounds) to supply the country. Their prunes in size cannot compare with the Oregon product, but as it is left to ripen and then dried in the sun it is of excellent quality holding much sugar. It is a mistaken idea to think that fruits dried in sun are not of good quality. The large size and excellent quality of the Oregon prune will always place it at the head in the prune market if it is put up in an attractive manner, as it will always command the highest price and the best class of trade. The leading growers of California are of the opinion and so expressed it that on account of the superior quality of the Oregon apple in comparison with the California apple, that the growers of Oregon should devote more of their land to the production of apples, and the doctor says that a ship load of Winter Nellis pears could be sold in the San Francisco market.

Current Topics.

The Heppner Gazette says: News comes from Harney county that W. C. Byrd will not be one in the race to be decided on the 20th inst. It is reported that John Daly will run on the democratic ticket, but who will be the choice of the republican and populist parties is not known, though it is presumed that Gowan and Fenwick will try it again. If the later should not decide to make the race, the democrat will doubtless be elected.

The enrollment in the state normal school at Monmouth in this state is 355. The corresponding enrollment last year was 320.

The District of Columbia is left by a decision of the supreme court of the district without a law regulating the liquor traffic. An old statute of the legislature of the district relating to the licensing of various vocations has hitherto been treated by the commissioners as giving them power to grant or refuse the licenses to sell intoxicating liquors, and as subjecting those who sold without license to penalties. In May last the supreme court of the district, held against this view of the power of the commissioners. It is of urgent importance, therefore that congress should supply, either by direct enactment or by conferring discretionary powers upon the commissioners, proper limitations and restraint upon the liquor traffic in the district. The district has suffered in its reputation by many crimes of violence, a large per cent. of them resulting from drunkenness and the liquor traffic. The capital of the nation should be freed from this reproach by the enactment of stringent restrictions and limitations upon the traffic.

The Heppner Gazette says: J. C. Luce advocates a slice cut off from Grant county and be added to Morrow. Morrow county opposes slicing any more.

Portland's water system is getting to be a ponderous institution. They find that their revenue is insufficient to meet the requirements on their interest bearing bonds, and as soon as the pipe line is finished they will fall short \$75,000 or more than their receipts on income for water rent, and are compelled to advance rates before the new year.

The Dr. Briggs Trial.

The Dr. Briggs trial is getting to be tiresome. They have made the accusation that the Dr. teaches that Moses was not the author of the pentateuch, etc. Dr. Birch said the only authority of the authorship was the bible itself. He said: "If Moses did not write the pentateuch, no Jew can be blamed for rejecting Christ. If Moses did not write the pentateuch, Christ himself is dishonest." When Dr. Birch finished his speech, Col. McCook took up the club and made the discussion very warm in his effort to prove the heretical theories of Dr. Briggs.

To the common reader this discussion is not very savory and does not advance the cause of christianity with the majority of readers. The christian world wants less dogmatism in this nineteenth century, and more simple christianity. It doesn't make any difference to the most of mankind whether Moses wrote the pentateuch, or whether David did, as long as the spirit is there.

Millions Without Charity.

In all the lives of wealthy men who have been favored with millions of dollars; who have been prominent characters in the world; have had an underlying thought and spirit of benevolence, they have realized that the world had contributed to their pleasures, to their comforts and their successes. While they had absorbed a share of its wealth, they owed much for it, and as a remembrance, forgot not its benefits. There are but few instances where the hand of charity has not been felt, the weak made strong and talents returned for charity's sake. In Mr. Jay Gould's life there is an exception. He gathered from the world, and kept what the world gave him without thanksgiving. His hundred millions he bequeathed to his sons and daughters. Charity, for public good, was not his thanksgiving. The offering was forgotten. "As the worm dieth so he died."

A BATTLE EXPECTED

The Usual Results of a Mississippi Shooting Match.

LOSS BY A FIRE IN CINCINNATI

Breaks Forth From the City Armory and Spreads Quickly.

A GANG OF ROBBERS IN ST. LOUIS

Hailing from Chicago and Operate with the Utmost Boldness—John M. Cohn Suicides.

St. Louis, Dec. 9.—Excitement has settled down somewhat in consequence of the Elam mob, but a battle is probable. The mob was composed of several hundred men, friends of Edward E. Elam, who was shot and killed by George E. Money, son of Congressman-elect P. D. Money, in a fight on the streets of Carrollton last Saturday, now on its way to Woodstock landing to lynch young Money, who is stopping with his uncle, James P. Money. When Money's friends learned that a mob had started to Woodstock fifty men, armed with Winchester, started in pursuit. A telegram was also sent to Greenwood, which is about ten miles from Woodstock, apprising the citizens and authorities of the intentions of the mob, and the sheriff, with 400 men heavily armed, left for the scene at once.

Destructive Fire at Cincinnati.

CLEVELAND, Dec. 8.—Fire broke out this morning in the city armory on Long street and, fanned by a heavy wind, quickly spread to the police station, which is now burning. The prisoners have been removed to the county jail. There was an explosion in the armory, part of whose walls fell before it occurred. By hard work the firemen succeeded in saving the police station, but the armory was entirely destroyed. The light artillery lost four guns, and several companies occupying the armory lost all their belongings. The entire loss to building and contents is \$150,000.

A Gang of Robbers in St. Louis.

St. Louis, Dec. 8.—A gang of robbers from Chicago have been operating with the utmost boldness in this city, as they recently did in Chicago, but the police went to work with such good results that the band appears to be broken up. Over 40 arrests of crooks have taken place, and a Chicago detective has recognized about 30 of them as members of an organized gang which have been holding up and robbing people in Broad daylight in that city and suburbs. Requisitions will be secured for the whole gang.

Suicide of a Lawyer.

CHICAGO, Dec. 8.—John M. Cohen, a lawyer, well connected in Philadelphia, from which city he recently came to Chicago, committed suicide yesterday by shooting. He was temporarily insane because of insomnia.

Queer world! Queer people! Here are men and women by thousands suffering from all sorts of diseases, bearing all manners of pain, spending their all on physicians and "getting no better, but rather worse," when right at hand there's a remedy which says it can help them because it's helped thousands like them. "Another patent medicine advertisement," you say. Yes—but not of the ordinary sort. The medicine is Dr. Pierce's Golden Medical Discovery, and it's different from the ordinary nostrums in this:—

It does what it claims to do, or it costs you nothing!
The way is this: You pay your druggist \$1.00 for a bottle. You read the directions, and you follow them. You get better or you don't. If you do, you buy another bottle, and perhaps another. If you don't get better, you get your money back. And the queer thing is that so many people are willing to be sick when the remedy's so near at hand.
