In the state printing office at Salem yesterday work was started on the biennial report of the weather bureau, by B. S. Pague, assistant director. This report is very complete and reflects credit on the compiler, who has given it careful attention and research. The information it contains will prove of great benefit to the public, setting forth, as it will, complete data on the climatology of Oregon.

The bright little five-year-old Marie, daughter of Frank and Anna Brown of Grants, died at 9:30 p. m. last evening in this city, after an intense suffering of two weeks from bowel complaint. Mr. A. McKinley, jr., of Portland, brother-in-law of Mr. Brown, Mrs. Walter Frairie, sister of Mrs. Brown, and Miss Hattie Lovelace of Grants, were here assisting the parents in their efforts to relieve the patient little sufferer, for whom all was done that it were possible to do, but without success. The remains will be taken to Portland this afternoon for burial. We extend our sympathies to the bereaved ones.

The state militia meeting in Portland was largely attended from all parts of Oregon. The Third regiment is represented by Colonel J. P. Lucas, Condon; Lieutenant-Colonel G. T. Thompson, The Dalles. Regimental staff: First Lieutenant J. F. Haworth, adjutant, The Dalles; First Lieutenant J. S. Booth, signal officer, The Dalles; A company, The Dalles, Second Lieutenant J. H. Buschke; C company, The Dalles, Captain L. Chrisman, First Lieutenant Delbert Cheeseman; D company, Second Lieutenant J. H. Furgerson; E company, Fossil, Captain B. Gaffney; F company, Baker City, First Lieutenant A. S. Shockey; I company, Joseph, Captain F. M. McCully; K company, La Grande, Captain J. C. Henry, First Lieutenant W. F. Snodgrass. "Having the right to demand proper recognition," as suggested by Col. Beebe, the meeting thoroughly discussed and finally adopted resolutions instructing the legislative committee to draft and present a bill for the legislature, increasing the military fund of the state from one-fifth to two-fifths of a mill, and asking for an additional appropriation of \$20,000 to meet present deficiencies. The Telegram says it was one of the largest and most enthusiastic meetings of the Officers Association that has ever been held in the state. Capt. McCully, in a legislative action speech, showed how it was that the militia proposes to carry the ballot and the ballot in the same haversack, making it a political-citizen-soldierly. We quote from the report: "Captain McCully struck the keynote of the situation when he said that the militia in his and adjoining counties were the deciding element in the election of their legislators. The Oregon National Guard holds the balance of power in its hands. Too often has the militia been worked for political purposes, and too little has that power been recognized. Men went to the legislature on promises made the citizen-soldiers. It is time they were redeeming their pledges."

The green aphid has cost the fruit raisers of Eastern Washington many thousands of dollars this year. It is a recent importation from California, and should be exterminated by concerted warfare. Some farmers think this can be done by liberal use of the emulsion of kerosene and common soap, while others think kerosene is injurious to the trees. Surely a safe remedy can and will be found, for the interest involved is very great.

Eight men lately employed in the survey of a route for the government canal, portage or ship railway around the dalles, between this city and Celilo, were passengers for Portland by the steamer Regulator to-day. They took the entire outfit with them, and have practically completed the field portion of the surveys. Lines have been run on both sides of the river, and while the gentlemen connected with the work have had nothing to report for publication, enough is known to warrant the statement that a first-class route has been located.

Messrs. Isaac and George Joles returned last night from another run into Sherman county after wild geese, they were not so fortunate as the former trip, as they only succeeded in getting 37 for their days hunt. While they were in a secluded spot where they had decoys out, a large grey eagle swooped down and took one of them down in his talons and started off for a good breakfast, when a discharge from a breach-loader brought both eagle and decoy to the ground. The bird is a fine and very large one, he measured seven feet from tip to tip, and could carry off a wild goose with ease.

WANTED.

By a bachelor to correspond with a good-hearted lady, of medium age and possessed of some means, with a view to matrimony. Address O. B. The Dalles Oregon.

Always open - the offer made by the proprietors of Dr. Sage's Catarrh Remedy. It's a reward of \$500 cash for an incurable case of catarrh, no matter how bad, or of how long standing. They'll carry it out, too. It's one thing to make the offer. It's a very different thing to make it good. It couldn't be done, except with an extraordinary medicine. But that's what they have. By it's mild, soothing, cleansing and healing properties, Dr. Sage's Remedy cures the worst cases. It doesn't simply palliate for a time, or drive the disease to the lungs. It produces a perfect and permanent cure. Try it and see. If you can't be cured, you'll be paid. The only question is—are you willing to make the test, if the makers are willing to take the risk? If so, the rest is easy. You pay your druggist fifty cents and the trial begins. If you're wanting the \$500 you'll get something better—a cure!
