Snow plows will be found useful between The Dalles and Portland seemingly soon; if not sooner. We understand they have been considered useless appendages to the operation of this division, and were exported a long time ago.

W. Hampton Smith of Astoria, is in The Dalles, looking about with a view of placing some of his fire clay, brick and water pipe, manufactured on the historic camping ground of Lewis and Clarke, made famous by their winter sojourn in 1803-4.

Mr. C. A. Borders, formerly of The Dalles, but now a resident of La Grande, is in the city today. He informs us that the question of the removal of the county seat of Union county is again agitating the people, and they expect that a special election will be called for some time in June next to settle the matter.

R. G. Gathergood of Long Creek, recently drove a band of eighty-five head of hogs to Pendleton, eighty-nine of which he sold for five cents per pound on foot. The hogs averaged 200 lbs each. He was eight days on the road, and the weather was terribly stormy. The wind blew with great force, trees falling on every hand and making it dangerous to travel. The snow was four inches deep on a portion of the route.

We are pleased to learn that Capt. J. O'Brien, formerly of the Premier, whose license was revoked as a result of the stranding of the whaleback Wetmore at Coos bay, has passed an examination for a new license, and will probably be given the command of the Premier when repaired, as he has the full confidence of Capt. John Irving. The Chronicle believes with Capt. Geo. Pope, that the scurrilous press allusions to the misfortunes of Capt. O'Brien were unwarranted. He is worthy at any time to be called a true seaman. His ability is known to every resident of this coast the past 20 years. In saving the Umatilla his heroism was equal to the bravest. But we do not endorse Capt. Pope's ideas with reference to the whaleback class of vessels.

Capt. and Mrs. F. H. Sherman's residence was invaded last evening by a number of friends who came to be with them and celebrate their wooden wedding, 5th anniversary. The evening was most happily enjoyed. Among those present were: Hon. and Mrs. Chas. Hilton, Dr. and Mrs. Rinehart, Judge and Mrs. Blakeley, Mrs. Bradshaw, Mr. and Mrs. J. S. Fish, Col. and Mrs. J. B. Crossen.

Charles Denton was out today in a fine Goose-Neck, four-passenger sleigh, which style was all the go in fashionable circles on Brighton road back in the fifties. This same sleigh has done duty in The Dalles whenever there was snow since 1855, and it is still in good condition. It was brought from the east, around Cape Horn in the summer of that year, for Capt. Jordan, who was then an army officer, stationed at the garrison in this city.

Small pox was discovered on the steamship Umatilla at Port Townsend a few days since. On the way from Tacoma the butcher was taken violently sick while cutting up the meat for a day's consumption. An examination showed that he was afflicted with a most virulent attack of smallpox. The Umatilla had about 150 passengers on board, and the consternation among them was great when the steamer was ordered into quarantine at Port Townsend. The agents asserted that the steamer would arrive at San Francisco on time, and that the passengers, after being fumigated, would go on down overland, passing Portland.

Bryon Barnard, whose name was on the Sullivan "detective" warrant as one of the Roslyn bank robbers, writes to the Fossil Journal that he has not been arrested yet. When he learned that he was accused he telegraphed to the Portland chief of police that he could be found in Chinook, Mont., where he has charge of 100 saddle horses and 1,500 head of cattle, and if taken away some one will pay for it. It is said that Bryon is the only one of the four having nerve enough to carry out any such undertaking as the Roslyn bank robbery. He has plenty of courage, and made a good deputy sheriff while acting as such under Sheriff Wilcox, of Gilliam county.

Speaking of property available for taxes in Sherman county, the Observer says: "The increase in gross taxes of 1892 and over 1891, is \$166,958, and the increase in valuation of the taxable property in 1892 is \$133,927. It is a gross imposition upon the people of this county to cry and gloat over something that does not have a word of truth in it. We hope that our contemporary in The Dalles will correct his error. We went to the county clerk's office and examined the tax sheet and that is the way we found it." Admitted. But how does the levy compare? It is one thing to assess taxes, and quite another thing to pay taxes. Look up the receipts.

When Mr. and Mrs. E. L. Smith of Hood River were up here last week their pet dog Chub had been accidentally locked into Mr. Smith's office. On returning Mrs. Smith chanced to notice that a lot of plants that had been placed in the windows were gone, and proceeded to investigate. Chub was discovered the first thing, and then Chub's work came to light. The Glacier says he had knocked down every plant, gnawed the bottoms of the doors and mouldings nearly through, chewed up the carpet for a yard around each door, and the window sills gave evidence of the sharpness of his teeth. The dog was delighted to get out, as there was nothing left for him to do inside.

There is scarcely an inch of snow all together at any one point east of Celilo along the river route at 11 a. m. today. East winds prevailing. At The Dalles southwest winds prevail, west of The Dalles, west winds prevail, with heavy fall of snow. At Bonneville this forenoon snow was twenty inches deep. Conditions now depend upon whether east winds with clearing cold, or southwest wind with snow and warmer, conquers between this city and Celilo. It is thought that southwest winds will prevail, from barometer and thermometer readings here at 12 o'clock today which were: Barometer 29.53 and still falling; thermometer 29° above zero, stationary.

Mr. Alfred Rasche, one of the seven traveling salesmen on the road for the coffee and spice house of Clossett & Deavers, was in the city last evening winding up his last "outing" for 1892. This makes the 19th year he has been on the road, eleven years east and eight years in Oregon. This year he decided to embark in a little venture on his own account, and looking about for an investment, the best thing he could see, for certain and immediate returns, was the sheep and wool industry of the Inland Empire, and he placed \$5,000 in Klickitat sheep; letting them out on shares. He will continue with Messrs. Clossett & Deavers in his present capacity, and the company intend to put two more good men on the road next year. In about two weeks Mr. R. will again visit The Dalles, to be here and take orders for more goods when the Regulator and Dalles City are ready to resume trips, as he finds that The Dalles and interior patrons of the house he represents prefer to make their shipments by the peoples favorite line, The Dalles, Portland and Astoria Navigation Company.

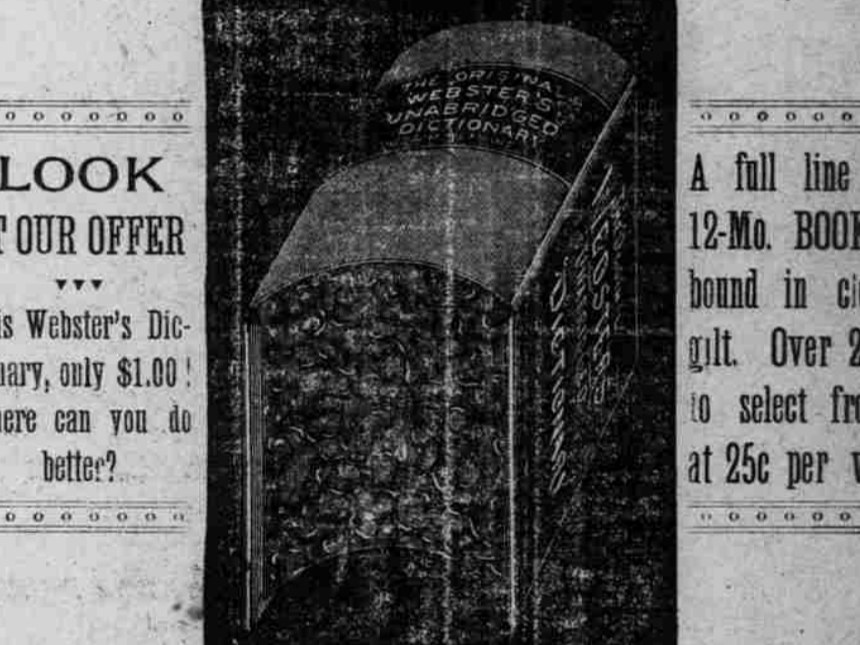

**NOTICE**  
All parties having any claims against the undersigned, is requested to present the same for payment to me in The Dalles, within five days from date.

As good as new—that's the condition of liver, stomach and bowels, when Dr. Pierce's Pleasant Pellets have done their work. It's a work that isn't finished when you've stopped taking them, either. It's lasting. They cure, as well as relieve. And it's all done so mildly and gently! There's none of the violence that went with the old-time pill. One tiny, sugar-coated Pellet's a gentle laxative—three to four act as a cathartic. Sick Headache, Bilious Headache, Constipation, Indigestion, Bilious Attacks, and all derangements of the stomach and bowels, are prevented, relieved and cured. As a Liver Pill, they're unequalled. They're purely vegetable, perfectly harmless—the smallest, cheapest, and easiest to take. They're the *cheapest* pill you can buy, because they're *guaranteed* to give satisfaction, or your money is returned. You only pay for the good you get. Can you ask more? That's the *peculiar* plan all Dr. Pierce's medicines are sold on.
