The New York World yesterday charges, in a three column article, that the Panama canal corruptionists and thieves have expended over \$2.500,000 in the bribery of American legislators. It claims to know that two million five hundred thousand dollars was sent to this country, and no explanation bas been given of what use was necessary or made of this vast sum. Bribery and corruption were practiced in the United States just as flagrantly, a though less in extent and in the amount of money used. It is said the matter will be fully exposed. The Huntingtons, and every one opposed to any canal being opened to interfere with their preserves, are supposed to be the instigators of these scandals.

It has been announced that Mr. Blaine is "dying of waxy degeneration of the at this office. kidneys and uraemic poisoning. With these allments go the attendant phenomena of faulty action of the heart, watery condition of the blood and brain, comotose spells and icy cold extremities.' Mr. Bleine's close associates and intimate friends understand the nature of Campbell Bros. Proprs his malady. They know that he has driven his own frame with an impetuosity and a pitilessness which he would not have applied to his horse or his servant. For half a century he has been sinking the spur of ambition into his own tortured flesh, and now both the goad and the victim are thoroughly worn out.

The Mobile Register boasts of having "in the south 300,000 Union soldiers' s many graves," and says "thmore in the north Tre." The Nashville American remarks: "Our republican friends die hard." Our steemed contemporary has made a miske in its diagnosis.
