A GREEN-GOODS CAPTURE.

A crushing blow has been struck against the "green-goods" business in New York. A printing establishment, engaged in the printing of circulars advertising green goods, was raided by Anthony Comstock and a vast amount of supplies captured. Men were taken in the act of printing the unlawful circulars. The green-goods business is not unfamiliar to western people. Of late years it has been developing rapidly, and like the gold-brick swindle, has caught many whose cupidity and stupidity were on a par. Utilizing various sources of information the addresses of many thousands of well-to-do persons are secured. To these a confidential communication is sent conveying the intimation that the sender has in his possession stolen government plates, and that, with government paper (also stolen,) he is enabled to furnish what are in fact genuine government notes. This he will do for about twenty per cent of their face value. The weak-minded bite at this tempting offer and enter into negotiations that finally result in their getting a box of old paper or sawdust. Having been a party to a proposed crime the victim cannot make complaint, and silently endures his loss. The extent to which the green-goods business has been carried on discloses the weakness and susceptibility of human nature. The desire to get something for nothing, even with the chance of criminality, animates a painfully large number of people. Many thousands of citizens of the west who have received the circulars of these New York rascals, and have chaffed at the implied doubt as to their intelligence and honesty, will rejoice in the present discomfiture of the gang.

Senators Jones and Cannon left Liverpool yesterday returning from the international money conference at Brussels. About the same hour Mr. Harter, of Ohio, offered in the house, as a substitute for the senate resolution of Mr. McPherson, a joint resolution providing that "all further purchases of silver bullion by the United States of America shall cease from and after the passage or adoption of this resolution, and said purchases shall be resumed only when an agreement is made that shall at least include Great Britain, Germany, France and the United States of America, and such agreement shall fix the valuation at which silver bullion will thereafter be received for coinage, without limit as to quantity, at the mints of all the nations parties to said international agreement." Harter thinks this resolution would accomplish the same result and not be open to the same objection as the McPherson resolution. "It would moreover," he says, "be a notice to the world that we are ready to join other civilized nations in the coinage of silver upon any agreed national ratio, and that, in the meantime, we declined going on raking their chestnuts in for them at the risk of commercial disaster and national disgrace." Harter says he believes the silver purchases have greatly contracted currency during the last 24 or 25 months, and that, after counting in the notes issued by the government in payment for pig silver, the actual volume of currency today is probably at least \$200,000,000 perhaps \$250,000,000 or \$275,000,000, smaller than if we had been out of silver speculation entirely.

Mary M. Anderson, who was a few years ago granted a separation from her husband, Louis C. Anderson, of Seattle, has sued him for \$25,000 damages on the ground of breach of promise. She avers that he courted her again a year ago, re-captured her heart and promised to re-marry her, but has since married some one else.

A cherry-haired musician of wide reputation, is having London ladies throw themselves at his feet—not metaphorically, but literally. Such are the honors of those that play the piano, have unpronounceable names and don't comb their hair.

The first view of the new Columbian souvenir coin inevitably leads to expression of regret that Columbus wasn't a better looking man. The souvenir doesn't strike the eye of all as being an artistic success. Our own idea, however, is that it will pass.

It is a new fad to build pianos into the wall in modern residences. If they can be built so far in that they can be walled up with the combination time-lock safe the plan will find enthusiastic supporters.

Thomas Settle of North Carolina, only twenty-eight years of age, is the youngest member-elect of the new congress. Coming.

Shut the door against disease. Danger comes oftenest through impure blood. Keep your blood in order, and you keep in health. For this, nothing equals Dr. Pierce's Golden Medical Discovery. It invigorates the liver, purifies and enriches the blood, and rouses every organ into healthy action. By this means it cures. Every part of the system feels its saving influence. Dyspepsia, Indigestion, Biliousness, Scrofulous, Skin and Scalp Diseases—even Consumption (or Lung-acrofula) in its earlier stages, all yield to it. It's the only Liver, Blood and Lung Remedy that's guaranteed to benefit or cure, or the money is refunded. Trying terms to sell on—but it's a medicine that can carry them out.

"Golden Medical Discovery" contains no alcohol to inebriate, and no syrup or sugar to derange digestion. It's a concentrated vegetable extract; put up in large bottles; pleasant to the taste, and equally good for adults or children.

WINANS

THE NEW TOWN has been platted on the old ramp ground, at the Forks and Falls of Hood River, with large sightly lots, broad streets and alleys, good soil, pure cold water and shade in profusion, perfect drainage, delightful mountain climate, the central attraction as a mountain summer resort and for all Oregon, being the nearest town to Mt. Hood. It is also unparalleled as a manufacturing center, being the natural center for 150 square miles of the best cedar and fir timber, possessing millions of horse power in its dashing streams and waterfalls, easily harnessed. Where cheap motive power exists, there the manufacturing will center, surrounded by soil and climate that cannot be excelled anywhere for fruit and agriculture, and with transportation already assured you will find this the place to make a perfect home or a paying investment.
