The Portland Press club will have a meeting this evening. The election of officers will take place for the ensuing year. A set of by-laws will be adopted. The club will discuss some things that the next legislature ought to do and some they ought not to do.

The wheat product of the Inland Empire is annually 25,000,000 bushels, while its possible output is estimated at 260,000,000 bushels per annum, and the most conservative estimate that in five years, when the river is opened and the Nicaragua canal completed, the wheat product for one year will amount to sufficient to build the Nicaragua canal and pay every dollar of cost for an open river.

Mr. Kennedy's little steamer, the Inland Star looks "lonesome like" now, the only steam craft in the water at The Dalles. The ferry boat was hauled below the Regulator for repairs yesterday.

Mr. J. L. Fuller, adjuster of the Norwich Union fire insurance company, who has been adjusting the amount of the loss occasioned by the burning of the house on Mr. J. H. Sherar's 8-Mile ranch, left for Heppner on the noon train.

Little Annie Chrisman, blindfolded in the presence of a throng at Jacobson & Co's. Wednesday afternoon, distributed the following prizes: To Miss Clara Sampson the prize doll; Mrs. H. Thompson, Mrs. W. E. Laughmiller and Mrs. J. C. Miens each a dictionary and Arthur Stubling a scrap book. Several others were awarded.

Among the social events of the season none has been more enjoyable than was the Cobweb party given last evening by Mrs. W. S. Myers, assisted by Mrs. Dr. Eshelman and Miss Lown, in honor of the college boys now at home for the holidays. The principal features of the evening were the cobweb and the music by the Mandolin and Guitar club. The guests were somewhat surprised on arriving to find the home of Mrs. Myers so completely filled with "cobwebs" that it was necessary to at once commence work to remove them; and each one finding one end of a thread of the web labored diligently to clear it from a large cobweb which ingeniously devised and constructed under the supervision of Miss Lown, was a gigantic representation of a spider's home, composed of long strings wound about the rooms, furniture, electroliers, and tangled together in almost inextricable confusion. Many hands made light work and an hour of earnest effort completely demolished the huge entanglement and each one had secured the prize fastened to the end of their string. Then a delicious collation was served on small tables distributed throughout the rooms. After the lunch singing and music by the Mandolin and Guitar club occupied the remainder of the evening. Those present were: Rose, Annette and Myrtle Michell, Clara Story, Iva Brooks, Grace Marden, Ursula, Louise and Nona Ruch, Maybel Mack, Miss Lown, Miss Schulthis, Grace Campbell, Caddie Booth, Miss Rowland, Dr. and Mrs. Eshelman, Mr. and Mrs. W. S. Myers, Mrs. J. P. Stewart, Messrs. Ed Mays, Frank French, John Booth, Robt. Mays, Edw. French, Harry Esping, M. Jameson, Vivian French, F. Garretson, F. W. Wilson, Winterton Curtis, Martin Donnell, Edw. Patterson, H. H. Riddell, Truman Butler.

Stunningly Impudent.

"You can get no appropriation from the legislature for a portage road at the dalles," said a gentleman from Portland to a gentleman of The Dalles, in The Umatilla dining room yesterday. Astonished at the expression our Dalles city man inquired, "Why not?" "Because, I will tell you, confidentially," said the Portland gentleman, "We don't want such useless expenditures of money by the people. In Portland we have borrowed something like \$20,000,000 for Portland commissions the past few years, and are putting in water works, bridges, improving rivers, and building public buildings for future generations to pay for. We expect to ask for the privilege of further indebtedness, to build another bridge for Albina, and possibly a further privilege for completion of our city hall and water works,

and such little things as the dalles portage should take care of themselves in the same way."

This is a Portland view of the matter. How can Portland ignore the justice of a measure to open up to them a region such as the Inland Empire is to them; and has been for the past thirty years? If the measure is defeated by Portland influence this time, it is barely possible that Portland may never again be asked for any favor, or reciprocity in business from the Inland Empire.

#### The Burlington Coming.

It is currently rumored in Portland railway circles that within two years trains will be running over the Chicago, Burlington & Quincy road into Portland. The road is graded from Merino, Wyo., to the Idaho line, and will be extended to Boise next year. From Boise the road will run west to the Snake river, where a spur will be run up to connect with the Hunt system in Washington, while the main line will run west and connect with the Oregon Pacific. The Burlington's coming to the coast does not depend, however, upon its purchase of the Oregon Pacific. If the Burlington does not purchase the Hunt system it will be built through Washington, connecting with the Tacoma, Lake Park and Columbia river surveys for the extension of which are now being made in the Cascade mountains. This line is considered a Burlington interest and will give that road an outlet to Peget Sound. In Goldendale, they have high hopes, according to the Sentinel, which says: "Herman Beal, the locator for the defunct Hunt system, is in the employ of the Burlington and will surely remember this county, and the famous Klickitat pass which was on his favorite route from Wallula to Vancouver. This is the best chance Klickitat now has for a road. If the Burlington pushes its way through to the sound Klickitat will quite likely secure a road. Everything looks favorable now for a road through the country in the near future." The Buffalo Courier of the 31st says: "It is predicted that in 1894 the Burlington will be running trains into Portland, Oregon. The road is now graded from Marion, Wyoming, to the Idaho line, and will be extended to Boise. From Boise the road will run west to Snake river, where a spur will be run up to connect with the Hunt system in Washington, while the main line will run west and connect with the Oregon Pacific."

The state board of equalization have increased the assessed valuation of the thirty-one counties in the state from \$195,604,770 to \$228,398,677, a clean raise of \$32,793,907. Wasco county comes in for her share of the income to the amount of \$521,879, and Sherman county to the amount of \$82,085. These are less the deductions for indebtedness and exemptions. Multnomah county has been subject to the greatest raise, which is \$20,847,737, over her assessment made by Mr. Sears, the county assessor. This equalization will be the source of a great deal of kicking and censure of the equalization board, especially so on the assessment at face value of mortgages.

The A. F. O. T. B. O. U., club will this evening complete the round of New Year's calls which they were unable to accomplish Monday. All are glad to see the boys, for with the melody which accompanies them, they entertain and gladden where ever they go.

Mr. H. C. Baleham, who is the city to day en route to Hood River.

#### DEATH OF W. S. LADD.

The Celebrated Pioneer Banker of Oregon at Rest.

Special to THE CHRONICLE. PORTLAND, Jan. 6.—Mr. William S. Ladd, the pioneer banker of Oregon, died at his residence in this city at 9:10 a. m., today after a very brief illness. Mr. Ladd has been one of the most popular men on the whole Pacific coast, and it is rare indeed to find a man of such wide influence in the financial world so highly esteemed as he has been by all his acquaintances, rich and poor alike, for all of whom he had good counsel and cheering words. He never oppressed anybody, is the common expression today; on the other hand his action has liberally sustained many a weak and faltering enterprise.

Mr. Ladd was born in Holland, Vt. Oct. 10th, 1826. His ancestors came to America in 1628. He came to Oregon via the Isthmus in 1851. In 1854 he married Miss Caroline A. Elliott of New Hampshire. In 1859, in company with C. E. Tilton he established the bank of Ladd & Tilton in Portland. The partnership was dissolved in 1880 with bills receivable amounting to \$2,500,000. He had large interests in the Oregon Iron and Steel Co., O. R. and N. Co., and other enterprises of which Oregon is proud. His family is W. M. Ladd, a member of the bank firm; Chas. Elliott Ladd, Mrs. Henry J. Corbett, and Mrs. Charles Pratt of Brooklyn, N. Y. Mr. Ladd endowed the chair of practical theology in the Presbyterian Theological seminary in San Francisco with \$50,000. The Library Association of Portland, was also founded and fostered by his benevolent hand.

#### Her Views.

Charlie B— is a board of trade man. His wife has ideas of her own.

A few days ago she told Charlie at dinner:

"Reciprocity is a great thing."

"When did you find that out?" asked Charlie.

"A lady stepped on my dress today and never offered a word of apology."

"Of course not," chuckled Charlie.

"But she smiled."

"Oh!"

"Then I smiled. You see that smile produced a smile in return."

"A man would have smiled, too, under the circumstances," remarked Charlie.

"That was reciprocity," said Mrs. Charlie, ignoring the remark.

"Almost as satisfactory as if you had slapped each other."

And she answered in a dreamy voice: "Almost."—Detroit Free Press.

Measures the Profile of a River Bed. An instrument has been invented in Germany by which the profile of a river bed may be taken automatically with sufficient accuracy. A curved arm rests on the bottom of the river, and by means of a recording mechanism the depth is automatically and precisely registered on a revolving drum.—New York Sun.

Farmers coming into the city report the roads as very bad. The melting snow, together with thawing and freezing, does not better them any.

Mr. John Cook of San Francisco, formerly of the Baldwin hotel barber shop, arrived in the city last evening, and will occupy a chair in Mr. Fraser's Elite tonsorial parlors.

#### Deserving Praise.

We desire to say to our citizens, that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, as we stand ready to refund the purchase price, if satisfactory results do not follow their use. There remedies have won their great popularity purely on their merits. Snipes & Kinersly's druggists.

#### Walt Whitman Reunions.

CAMDEN, Jan 5.—A large number of the friends of the late Walt Whitman, including several literary lights, met today at the residence of Lawyer Thomas B. Harned, and decided to form a Walt Whitman Reunion Association. It was announced that over \$500 had been contributed for the purchase, endowment and preservation of the famous two-story house on Mickle street, where most of the literary work of the poet-philosopher was done. Two thousand dollars more is to be raised.

#### A Million Friends.

A friend in need is a friend indeed, and not less than one million people have found just such a friend in Dr. King's New Discovery for Consumption, Coughs, and Colds.—If you have never used this Great Cough Medicine, one trial will convince you that it has wonderful curative powers in all diseases of Throat, Chest and Lungs. Each bottle is guaranteed to do all that is claimed or money will be refunded. Trial bottles free at Snipes & Kinersly's drug store. Large bottles 50c and \$1.00.

#### Lost.

A gold watch charm with a small piece of chain attached, between J. P. McInerney and Leslie Butlers. A reasonable reward will be paid for return of same to Maier & Bentons.

We're not waiting for the bats and moles, but for men and women who have eyes and use them, who have brains and reason! There's a new world for them—suffering and sickly as they are—a new world created from the brain of a skillful physician—a discovery—the "Golden Medical Discovery."

Years ago Dr. Pierce found out that the secret of scrofula, bronchial, throat and lung trouble lay—in the beginning at least in impure blood and the weak tone of the system; that the way to cure these effects was to remove the cause, that human nature being the same, the same results might be looked for in nearly all cases. So confident was he that the exceptions were uncommon that he took the risk of giving the medicine to those it didn't benefit for nothing, and the results have proved that he was right.

And "Golden Medical Discovery" is the remedy for the million! The only guaranteed Liver, Blood and Lung remedy. Your money back if it doesn't help you.
