The Quickest Way to Cure a Cold. Do you wish to know the quickest way to cure a cold? We will tell you. To cure a cold quickly, it must be treated before the cold has become settled in the before the cold has become settled in the system. The first symptoms of a cold is a dry, loud cough and sneezing! The cough is soon followed by watery expectoration and the sneezing by a profuse watery discharge from the nose. In severe cases there is a thin white coating on the tongue. What to do? It is only necessary to take Chamberlain's Cough Remedy in double does every hour. Remedy in double does every hour.
That will greatly lessen the severity of
the cold and in many cases will effectually counteract it, and cure what would
have been a severe cold within one or two days time. Try it and be convinced 25 and 50 cent bottles for sale by Blakeley & Houghton, druggists.

Wants a Companion This Year

The "Hermit of the Sonnblick." Peter echner, who last year passed the winter months in the observatory on the summit of that lonely peak, now de-clares that he will not stay there another winter unless he has a companion with him. He would, he says, prefer a wife, if he could find one. Otherwise he will be content with a male companion, who could take turns with him in his constant task of reading the scientific instruments. This decision on the part of the "Hermit of the Sonnblick" really threatens the further existence of the highest observatory in Europe. For the Austrian Meteorological institute lacks the funds to support a companion for Lechner, and the small sum, about £100 a year, that is wanted for the purpose is not forthcoming from private

It is believed that the real explanation of the discontent of Herr Lechner is that he is annoyed at being forgotten by the public, who have neither sent him Christmas presents nor published lauda-tory paragraphs about him in the news-papers of late. Three years back he said he wanted a wife, and hundreds of offers at once poured in from all quarters, including several rich and many good looking women, but he then laughed at the idea, and continued to prefer the state of single blessedness. It would be a distinct loss to meteorological and physical science if the Sounblick observatory were to be closed, but some means will probably be found of reconciling Herr Peter to his lonely but lofty labors for another winter. - Vienna Cor. London Standard.

Tithes and the Price of Grain.

The difference between the method of paying the clergy of the Church of England, who receive the tithe as their liv-ing, and the clergy of the Church of Scotland, who enjoy what are known in the north as tiends, will be very apparent in this year. On both sides of the Tweed grain prices are higher for the year, but in England the clergy will receive little immediate benefit from the rise, because by the seven years' average it is spread over so long a time that the most that can be hoped for from the good prices of 1891 is to stop the fall which has been going on every year without a break since 1878, a longer period of successive annual declines in the value of the tithe than has ever before occurred.

But in Scotland the tiend is calculated on the grain prices of each year, so that the parish ministers who have endured the discomforts which low prices brought hard earned money. with them when grain was cheap will now have directly the advantages of higher prices when grain has risen. In England both the rise and the fall are retarded by the seven years' average. In Scotland the full effects of either the one or the other are directly experienced in every year. -London Graphic.

A Tree Climbing Pig. A curiosity has lately been shot by Mr. Le Mortemore, who has a selection on Tinana creek, Queensland. He says it is a sort of tree climbing pig. For a number of years the wild pigs have been numerous in this locality, and his theory is that the original or common pig must have amalgamated to a certain extent with some aboriginal animal, or that the necessities of climate, etc., have caused the variety. The captured animal weighs about 100 pounds, and is pretty fat, with bristly brown fur, small black spots, out and ears like a pig, but the jaw is

The fore feet are furnished with hooklike claws; the hind ones have two hook claws on each hoof. The tail is thick, about a foot long, and highly prehensile, and in a state of rest is usually carried in what is known as a Flemish coil. The animal is also furnished with a pouch, which it only appears to use for carrying a supply of food in while it is traveling to fresh pastures. The skin is saved and will be sent to the Maryborough exhibition. Mr. Le Mortemore says the flesh is excellent, and that it tastes just like veal and ham pie. He is sure there are plenty more about by the marks on the trees. In drought the animal climbs trees and hangs by its tail while it gathers its food by the hook claws. He intends capturing some live specimens and breeding from them.—Pall Mall Budget.

Wasco County,

their products.

Oregon, The Gate City of the Inland Empire is situated at the head

of navigation on the Middle Columbia, and is a thriving, prosperous city. ITS TERRITORY. It is the supply city for an extensive and rich agricultural

and grazing country, its trade reaching as far south as Summer Lake, a distance of over two hundred miles.

The Largest Wool Market. The rich grazing country along the eastern slope of the Cascades furnishes pasture for thousands of sheep, the wool from

which finds market here. The Dalles is the largest original wool shipping point in America, about 5,000,000 pounds being shipped last year.

ITS PRODUCTS.

The salmon fisheries are the finest on the Columbia, yielding this year a revenue of thousands of dollars, which will be more than doubled in the near future. The products of the beautiful Klickitat valley find market here, and the country south and east has this year filled the warehouses, and all available storage places to overflowing with

ITS WEALTH. It is the richest city of its size on the coast and its money is scattered over and is being used to develop more farming country than is tributary to any other city in Eastern Oregon.

Its situation is unsurpassed. Its climate delightful. Its pos-

sibilities incalculable. Its resources unlimited. And on these corner stones she stands.

SITUATED AT THE HEAD OF NAVIGATION.
