STATE BOARD OF HORTICULTURE

A gentleman of this city, who by the way, is one of our foremost citizens and a consistent democrat, calls attention to that part of Governor Penney's message where the executive says the board of horticulture should be abolished, as it is doing the same work as the experiment station at the state agricultural college, and that the latter body is doing better and more scientific work. We certainly agree that in this the governor does not display intelligence nor a desire to encourage the fruit industry in this state by his remarks in this particular. The experiment station is doing work in the matter of education regarding insect pests of all kinds, but it does not have the power or desire to carry out the work required of a state board of horticulture. It is the business of the latter body to exert supervision over the fruit industry of the state and act as a protective body in the way of preventing the introduction of pests and destroying those already located. No man with the importance of the fruit industry at heart could recommend the abolishment of the board of horticulture. What we need is a good board, one that will do good work and protect orchardists from the pests now getting a foothold. Instead of abolishing the board let it be empowered to designate and employ a competent man to give his entire time to the fruit pest and eradicate it.

Unless we are greatly mistaken a large majority of the members of the assembly will be found concurring with the Oregonian in the following sentiment: Oregon has reached that stage in her development where a new county cannot be created for every ambitious town, and where it is not policy to shift the seat of government every time a rival town obtains a small preponderance of votes. There are now several counties in the state too poor as to property, and too thinly populated to support a county government properly and build a suitable courthouse and jail. There are others, richer and better able to build proper county edifices, where such improvements do not exist, because of a rivalry between towns for the possession of the county seat. It is not desirable to create any more crippled counties for mere town-booming purposes, nor to pass any measure calculated to keep county seats on wheels, to be rolled about the country at every election or session of the legislature. It is for the interest of the state generally, and the local taxpayers in particular, to have counties of sufficient population and wealth to build good court houses and ample and proper jails, and care for their unfortunate poor, without a high rate of taxation. This can only be done by pursuing a conservative policy in the creation of new counties, and providing for the location of county seats so nearly permanently that nothing but a radical change in conditions, rendering the selection of a new one necessary for the welfare of the county, could lead to a change. The committees on counties would do the state a service and save valuable time for the session by leaving all such bills in pigeon-holes."

A dispatch from Buenos Ayres says that since the disarmament of the rebels in Corrientes there has been a great deal of robbing and sacking of houses, and many private encounters have occurred. Dr. Alem has publicly announced that the radicals sympathize with the rebels, and a note from Corrientes, to which many signatures are appended, advises many citizens of Buenos Ayres to join the insurgents. The Argentine cabinet crisis continues, and the gold premium is rising.

Senator Denny has introduced a bill authorizing all county judges to examine persons of all ages addicted to the uncontrollable use of cocaine, morphine, etc., as to their condition. In the event they, in connection with one or more physicians, find them unable to take the necessary care of themselves, they be further empowered to commit them to the insane asylum for a period not exceeding one year. County judges have heretofore assumed this right, but have not been legalized to do so.

The city council of Salt Lake city is taking a swing around the circle, and will be in Tacoma Wednesday. They will be entertained by the chamber of commerce and council. They will arrive over the Northern Pacific and will extend their visit to Portland and other coast cities.

Crandall & Burget are now settled in their new store in the Michelbach brick on Union street, next door to Floyd & Showen's. Call around.

WINANS

THE NEW TOWN has been platted on the old camp ground, at the Forks and Falls of Hood river, with large eighty lot, broad streets and alleys, good soil, pure cold water and shade in profusion, perfect drainage, delightful mountain climate, the central attraction as a mountain summer resort and for all Oregon, being the nearest town to Mt. Hood. It is also unparalleled as a manufacturing center, being the natural center for 150 square miles of the best cedar and fir timber, possessing millions of horse power in its dashing streams and waterfalls, easily harnessed. Where cheap motive power exists, there the manufacturing factories will center, surrounded by soil and climate that cannot be excelled anywhere for fruit and agriculture, and with transportation already assured you will find this the place to make a perfect home or a paying investment.
