

To Our Friends and Patrons.

WE HAVE rather neglected our Advertising of late, not because we had nothing to sell; but we had nothing especially new to offer, and preferred to wait until we could say something of interest. We are, and have been for some time, busily engaged in placing our orders for Spring and Summer Goods and feel justified in announcing that we shall have the **FINEST ASSORTMENT** and the **BEST GOODS** in all our lines that has ever been seen in The Dalles. We have secured some genuine novelties in the Dry Goods Department, and the ladies will certainly consult their best interests by deferring their purchases until after their arrival, of which we shall give you due notice. Keep both eyes on this space and we will certainly surprise you, not only with the goods, but the prices at which we shall sell them. We mean business and propose to have your patronage, if **LOW PRICES** and the **BEST GOODS** will accomplish it. Yours Respectfully,

PEASE & MAYS.

Entered a the Postoffice at The Dalles, Oregon, as second-class matter.

Weather Forecast.
Official forecast for twenty-four hours ending at 9 p. m. tomorrow:
Monday and Tuesday fair, temperature warmer. PAGES.

MONDAY - - - - - JAN. 23, 1893

LOCAL BREVITIES.

A fine lot of furniture going very low at Crandall & Burget's new store.

Gov. Penoyer has appointed Mr. Linus Hubbard of this city notary public. Bro. H., continues in business at the old stand.

The heavy snowfall is greatly appreciated by residents of Umatilla county, who think that it will insure immunity from drouth during the coming summer.

The residence of Geo. Nowack in the south-western portion of the city was wholly destroyed by fire Saturday evening last about 9 o'clock. The family were absent at the time, but some of the neighbors succeeded in saving a stove and a pair of blankets. Everything else was destroyed. Loss \$1,000; Insurance \$800.

When Mr. Nowack's house was burning Saturday evening a man at The Umatilla whose appearance would indicate him to be a gentleman, but whose expressions indicated the lowest species of the hobo, "wished to see the fire burn the d--- town." His actions and a description of the man (so-called) were reported to the police.

The San Juan mines have proven to be a fraud of the first water. A returned prospector, Mr. D. H. McLellan, of Denver, says he has talked with a great many prospectors from the new camp, old-timers from California, Nevada, Montana and Salmon river, and they all had evidently had their fill of the San Juan.

Feeding stock has become general in the region of Fossil, and the plow has been taken in out of the cold to rest. These are slight drawbacks, but the pleasures of such a winter as we are having are manifold. The young folks are having a glorious time coasting on the hill and skating on the pond west of town, and, better than all, the old folks see in the increased snowfall bountiful crops now almost assured.

The Arlington Record is sound on the open river question. Bro. Johns says: "The world is moving too fast now for us to be satisfied with the slow plodding of our forefathers. We are willing and anxious to see the government begin this work, but in the meantime this country is filling up with sturdy farmers, who want to realize on their investments rather than leave all to future generations. We feel that our own state ought to do something for us in the meantime."

Mr. and Mrs. G. F. Stephens entertained a few of their friends on Saturday evening, the occasion being the birthday of the hostess. The first part of the evening was given to drive whist, which resulted in the first prize being won by Mrs. F. J. Clark, and the booby by Mrs. S. L. Young. After whist, supper was served, followed by music and a general good time. Those present besides the host and hostess were: Mr. and Mrs. F. J. Clark, Mr. and Mrs. S. L. Young, Mr. and Mrs. J. C. Hostetler, Misses Rowland, Errhart, Messrs. E. Hostetler and L. Ainsworth.

One who has been to Chicago, and looked the ground over pretty thoroughly says there is every reason why our fruits should find a ready and paying market during the exposition, provided they are properly packed and do not have to pass through so many hands as to eat up the profits. Cherries, plums, pears and prunes are always in demand there and Oregon can compete with any state in the union in their production.

Mr. J. T. Day, who was in Washington City recently, says he found every one there, in any way connected with the Cascade Locks completion, anxious to have the work done as soon as possible and willing to do all possible to help the matter along. The civil sundry bill now before congress contains an appropriation for this work of over a million dollars, which, with the balance of the appropriation now in hand, will amount to \$1,419,000, for which the contract was let. It is expected that this appropriation will be passed, in which case Mr. Day hopes to have the canal and locks completed in about a year and a half.

"Astoria and Flavel, the chief seaport of the Columbia river watershed" is the title of a neat pamphlet at hand today containing thirty pages of well digested facts, with explanatory maps, from the versatile and ready pen of Col. Sidney Dell. The name of the author is quite sufficient endorsement as to the facts set forth wherever he is known. But one thing puzzles us worse than the missing word "creatures," why was it necessary for Dell to knock out the optics of a notorious stinking-fish canneryman, to enable the rest of mankind to see the virtues in his book? Astoria and Flavel have ever been one and indivisible, since the days of Kindred "where rolls the Oregon."

The excessive cold weather prevailing throughout the eastern states and Europe is in striking contrast to the weather here. It seems almost incredulous to native Oregonians to read or hear of the sufferings of the many in the middle and eastern states from severe winter weather, when they compare the statements received with the climate we enjoy here. For the past six weeks, with the exception of the snow storm of December 23d, which lasted a few days, the weather has been all that could be desired, with cool and occasional foggy mornings and sunny afternoons. New York, Pennsylvania and Virginia, are having unusually cold spells; rivers frozen over and business generally suspended. Here stock range in the pastures and plowing and seeding has been engaged in every month since September.

The legislative committee of the Oregon assembly, who visited Walla Walla last week to visit the jute bag factory in the Washington penitentiary were shown through the jute mill where they made a thorough investigation of the workings of that institution. The mill was in operation and the gentlemen were given an opportunity to witness the manufacture of sacks. The committee also secured a great amount of valuable figures and facts in connection with the institution to enable them to make a complete and exhaustive report favoring the establishment of a like institution in connection with the Oregon penitentiary, but upon a great deal larger scale. The gentlemen speak in glowing words of praise of the manner in which the Walla Walla penitentiary is conducted, and greatly appreciate the many courtesies extended them by Commissioner Paine, Warden McClees and the other officers of the institution.

The residence of A. J. Webb, of Block House, was entirely destroyed by fire, Jan. 12th. The family were all away at the time, and Mr. Webb was in The Dalles. By the timely assistance of the neighbors nearly all the household goods were saved. Loss, about \$1,500; Insurance, \$900.

There are more Oregon apples in the Portland market now than there were last November. They come from Southern Oregon principally, and some from Eastern Oregon. Growers who had good crops evidently held them back waiting for higher prices, and it appears that they have not been disappointed, for \$2.50 per box is asked for very choice varieties, but common are considerably cheaper. The supply is quite equal to the demand at present.

The Scout thinks that addition and multiplication would be of greater benefit than division in Eastern Oregon counties, especially where they have not one-fourth as much population to the square mile as have the least productive counties in the east. There are counties in Oregon that could be added to the adjoining county with profit to the taxpayers.

The Glacier is right on to one of Gov. Penoyer's cramps. The recommendation to abolish wheels and traps catching salmon, and allowing them only to be caught with seines or gill nets. The reason he gives is that the wheel fishermen, by getting certain favored locations, catch fish plentifully and cheaply and are monopolies. It is quite true that all of us cannot have a favorable point for locating a fish wheel; it is also true that all of us are not able to buy a gill net and boats, nor strong enough to manage them. It would be proper, then, under the circumstances, to make the law more stringent yet, and prohibit catching the toothsome salmon except by the common method of hook and line.

A Tacoma dispatch says the litigation over the Grant Brothers' collapsible cylinder wrecking process was compromised and the right to use the invention sold to Gen. Thomas H. Cavanaugh, representing eastern capitalists, for \$500,000, \$50,000 payable as soon as a successful test is made, \$100,000 in sixty days, \$100,000 in six months, and the balance in one year. They will probably test the process on Vanderbilt's yacht, sunk in Log Island sound. Gen. Cavanaugh and the Grant brothers will go east at once and conduct the test.

Hon. Lark Bilyen, a member of the last board of equalization, is of the opinion that the present state board of equalization, made a mistake in assuming to have power to make horizontal and sweeping raises of valuation. He says if the state board, to make the tax levy, would levy on the valuation of lands from the rolls as returned by the counties no one would raise an objection.

The Union meat company are having cars constructed so that they can ship the whole side of a beef from the cooler in Troutdale to their cold storage at Portland. They are to have their own locomotive to haul their meat to Portland. The sausage manufactory is to be removed to Portland also, and the ice plant from Clatsop.

W. H. Clark went out the other afternoon and located a quartz ledge about two miles above Canyon city that assays well in free milling gold. Chinese miners on the creek a few years ago found it, but covered it up because they were not allowed to hold quartz claims here.

Gave Us a Good Law.

In a note to the Farmer, Mr. E. D. Calkins, of Hood River, says: "I regret my inability to be present at the horticultural meeting held in Portland. We are having a hard time to keep up the interest here. The moth and scale are very bad in some orchards, so that it is only by utmost vigilance that we can hope to succeed. I hope to see an appeal from every county to our legislature which will help us to exterminate our fruit pests and advance fruit industry." Commenting upon the conditions the editor of the Farmer says: "We are sorry to hear that there is any lack of interest or vigilance among the fruit growers of Hood River, as the whole northwest have heard of the excellent fruit producing qualities of the climate and soil of that section, and it would be a burning shame to let a few pests destroy or hinder the reputation so gained, through inertia of a few of the growers. Mr. Calkins ideas of an appeal from every county in the state to the legislature is a suggestion that should be quickly acted upon." Further comment is unnecessary.

Chronicle Snap Shots.

Friendship is a tender bond, especially when you go on a man's bond and are called upon to settle.

It being more blessed to give than to receive, people generally unselfishly accept the minor blessing.

There are plenty of champions of woman's rights in this country, but very few defenders of woman's wrongs.

Those who believe that the world owes them a living don't know how many bad debts the world has to shoulder.

Happiness is a quality of the mind which is very hard to define correctly. What is happiness to one man is the reverse to another.

Spokane is suffering because of the scarcity of eggs at the present time and the Review reports that wholesale dealers are cleaned out entirely. Retail dealers are selling ranch eggs at 40 cents a dozen and eastern at 35 cents. Taken in connection with the present pronounced scarcity and high price of pork products, it makes terribly hard lines for the devotees of ham and eggs.

The sheriffs and clerks fight is now on. Russell's bill repealing the act allowing such officers in Eastern Oregon an additional fee of 33 1/2 per cent has been referred to the judiciary committee. Other bills of a similar nature are also presented and it begins to look as though the cut in fees would be made. Another proposition will be to place all sheriffs and clerks on a stated salary, and there is a wide divergence of opinion as to what sum would be proper to give such officials. Some of the members favor paying salaries that are ridiculously small, considering the services to be performed, and unless there is a disposition to give officials a fair recompense it is likely the bill will fail and the future sheriffs and clerks of Eastern Oregon be the only sufferers through legislation of the present session. Present incumbents are not included in any of the bills looking to a reduction of fees or putting them on a salary.

Lost Package.

A package containing a pair of No. 3 1/2 ladies shoes was lost on Saturday, between the town of Brewery Hill, and Mr. Roberts place in Dry Hollow. The finder will be handsomely rewarded on carrying the same to this office.

Specimen Cases.

S. H. Clifford, New Cassel, Wis., was troubled with neuralgia and rheumatism, his stomach was disordered, his liver was affected to an alarming degree, appetite fell away, and he was terribly reduced in flesh and strength. Three bottles of Electric Bitters cured him. Edwd Shepherd, Harrisburg, Ill., had a running sore on his leg of eight years' standing. Used three bottles of Electric Bitters and seven boxes of Bucklen's Arnica Salve, and his leg is sound and well. John Speaker, Catawba, O., had five large fever sores on his leg, doctors said he was incurable. One bottle Electric Bitters and one box Bucklen's Arnica Salve cured him entirely. Sold at Snipes & Kinerly's drug store.

The city marshal took a band of braves to the city jail last evening, from the west end rookeries, where they were having a glorious time of hilarity over a few bottles of smuggled alcohol.

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by Snipes & Kinerly.

Dr. Willis Morse of Salem, is in the city.

Now Try This.

It will cost you nothing and will surely do you good, if you have a cough, cold, or any trouble with throat, chest or lungs. Dr. King's New Discovery for consumption, coughs and colds is guaranteed to give relief, or money will be paid back. Sufferers from a gripe found it just the thing and under its use had a speedy and thorough recovery. Try a sample bottle at our expense, and learn for yourself just how good a thing it is. Trial bottles free at Snipes & Kinerly's drug store. Large size 50c and \$1.

Let every enfeebled woman know it!

There's a medicine that'll cure her, and the proof's positive! Here's the proof—if it doesn't do you good within reasonable time, report the fact to its makers and get your money back without a word—but you won't do it! The remedy is Dr. Pierce's Favorite Prescription—and it has proved itself the right remedy in nearly every case of female weakness. It is not a miracle. It won't cure everything—but it has done more to build-up tired, enfeebled and broken-down women than any other medicine known. Where's the woman who's not ready for it? All that we've to do is to get the news to her. The medicine will do the rest. Wanted—women. First to know it. Second to use it. Third to be cured by it. The one comes of the other.

The seat of the sick headache is not in the brain. Regulate the stomach and you cure it. Dr. Pierce's Pellets are the little regulators. Only 25 cents a vial.

Hot clam broth today, after 4 p. m., at J. O. Macks.

Leave your order for cord wood at Maier & Benton's.

Old papers, suitable for carpets or shelves, will be exchanged for clean rags at this office.

Lost.

A gold watch charm with a small piece of chain attached, between J. P. McInerney and Leslie Butlers. A reasonable reward will be paid for return of same to Maier & Bentsons.

For Rent.

The only 3-story, fire-proof brick building in the city. For further particulars inquire of Tom Kelly, at The Umatilla house.

PHOTOGRAPHER.
