Considerable anxiety is felt about Judge Caples of Portland, the messenger bearing Oregon's electoral vote to Washington, as he has not yet arrived at the national capital. When "fifty-four-forty or fight" was agitating the country, a United States senator said in a speech before the senate that the country was not worth fighting for; that no state would ever be erected out here, and if there should it would be impossible for a member of congress elected at the fall elections to get to Washington before the session had adjourned. That speech has since been subjected to a great deal of ridicule; but the unaccountable delay at this time would seem to indicate that the pessimistic senator was not altogether wrong. It is a good job to carry the electoral vote from Oregon to Washington, and amounts to more than it does in the east. Though only two weeks are required, the messenger will get about \$1,400 mileage, and his hotel expenses, or about \$1,000 in all. His entire expenses will not be over \$400, so a clean \$1,200 is his profit, if he gets there.

Senator Vandenberg, it seems, was the author of the "obligatory referendum" resolution in the senate, which attracted some attention early this week. After a sonorous preamble, says the account, it resolved that "the initiative and obligatory referendum be made a part of the law of Oregon." By the "initiative referendum" the legislature must, on a petition of two-thirds of the votes, submit any proposed measure to a vote of the people. By the "obligatory referendum" any act or appropriation originating in the legislature must be submitted to the people for final adoption, the same principle to be applied to all county courts and lawmaking bodies of municipalities. It is further resolved that the governor be and is directed to cause to be submitted to the voters at the next general election the "referendum" question itself. Would it not be a good idea to apply the "obligatory referendum" to the mover of the resolution?

The Wallowa Chieftain has dug up an "old inhabitant" who asseverates that the worst winter he ever saw in that valley was several years ago when the snow fell after the 20th of January, and he thinks "what has happened may occur again." Possible; but in politics the same reasoning will not hold good. That coterie of "senators" who think they snowed this Inland Empire under by their votes on the Raley bill on the 25th of January, will learn to their regret that what happened on that day will never occur again. They are deadlier than Col. Forney's duck of 1860.

According to Hon. Jeff Meyer's bill a tramp is "whoever goes about from town to town, or from place to place in any town asking food or shelter, or begging or subsisting on charity." And yet, Jeff would admit of the possibility of reducing 175,000 industrious people to tramps in this Inland Empire, by placing the heel of corporate power upon their necks in his refusal of just and deserving legislation.

The youngest senator in the present legislature is Col. Jeff Myers, of Linn, says a Eugene paper, and the oldest lies between Senators Alley of Lane, and a gentleman from Multnomah. Jeff has got a whole lot to learn, and it is well that he is young, perhaps. As to Alley, "the older he gets, the"—but then what is the use of expecting fairness from men who "know it all."

A contemporary who claims to give the "occupation" of each senator at Salem puts Cogswell down as a "lawyer," Dodson as a "physician," Gates as an "attorney," ha, ha, ha; Veatch as a "manufacturer?" It matters little what they did at home; it is their present occupation that we want to find out about.

Chicken thieves were out again last night and stole several chickens from coops back of Rhinehart's grocery, says a Eugene paper. Comparison of dates show that the assembly was not in session and members were supposed to be at home consulting their constituents about the justice of unbottling or further throttling the Inland Empire.

Cogswell, Dodson, Gates and Veatch. Don't forget them. Four to eleven would be fifteen. Four from seventeen would be thirteen—a clean majority of two for the Raley bill in the senate on the 25th, had justice been recognized.

There is, after all, about as much sham in reform as there is out of it, and a study of surroundings will generally prove it. Take a look at the vote on the

"What's that? A new invention which works all the year round? Surprisin'—these days are not like the old times. Bleedin' was the only remedy them days. But now, as you say, Dr. Pierce's Golden Medical Discovery is a true remedy for the blood."

It's not like the sarsaparillas, that are said to be good for the blood in March, April and May. The "Golden Medical Discovery" works equally well at all times, in all seasons and in all cases of blood-taints, or humors, no matter what their name or nature.

"Golden Medical Discovery" is the only Blood and Liver medicine, sold by druggists, guaranteed to benefit or cure in every case, on fair trial, or money paid for it will be promptly refunded. World's Dispensary Medical Association, Proprietors, No. 603 Main Street, Buffalo, N. Y.

WINANS

THE NEW TOWN has been platted on the old camp ground, at the Forks and Falls of Hood river, with large slightly lots, broad streets and alleys, good soil, pure cold water and shade in profusion, perfect drainage, delightful mountain climate, the central attraction as a mountain summer resort and for all Oregon, being the nearest town to Mt. Hood. It is also unparalleled as a manufacturing center, being the natural center for 150 square miles of the best cedar and fir timber, possessing millions of horse power in its dashing streams and waterfalls, easily harnessed. Where cheap motive power exists, there the manufacturing will center, surrounded by soil and climate that cannot be excelled anywhere for fruit and agriculture, and with transportation already assured you will find this the place to make a perfect home or a paying investment.
