It is said there is another prospect of a fight between Argentine and Chile. Anything to warm things up.

In the Texas house of representatives on the 25th, Mr. Hamburger introduced a concurrent resolution requesting Texas congressmen to oppose the Nicaragua canal scheme and to formulate a bill for a canal from the Gulf of Mexico to the Pacific, to be constructed by the United States government. Governor Hogg recommends such a canal in his message.

The orchards of Oregon are worth looking after. The state has thirty-six nurseries covering about 1,576 acres and containing about 9,000,000 young trees, and orchardists have upward of 100,000 acres of growing trees. One-half of this acreage is in prunes, one-fourth in apples, one-tenth in pears and the remainder in various kinds of fruits.

Col. Pope's road-improvement plans take shape in the proposal for a paved roadway from New York to Chicago. No doubt Chicagoans will subscribe liberally, feeling it to be missionary work to help easterners on wheels to get there. When an asphalt road thirty feet wide has been built from New York to Chicago for the benefit of cyclists and couriers, railroad tracks will be at a discount as promenades, and perhaps farmers will realize that it is a far better investment to sink money in roads than wagons in mud.

There has recently been on the part of the anti-silver democrats in congress a strong effort to prepare the way for legislation at this session involving the repeal of the silver-purchase clause of the Sherman law of 1890. It does not appear, that the effort will be successful, and the question of currency legislation in its entirety will probably go over to the new congress. The only important legislation, aside from the passage of the appropriation bills, likely to be enacted at this session are measures dealing with immigration and the quarantine laws.

The trial of the Roslyn bank robbers began yesterday in Ellensburg. Cal Hale was the first one put on trial. F. A. Abernethy, the cashier, positively identified Hale as the man who took the money from the vault. Dr. Lyons and Prof. Jenkins also positively identified him as the robber who handled the money. The defense failed to tangle them up or shake their testimony in the least. About fifty witnesses have arrived from Oregon to testify for the defense, and it is understood a strong effort will be made to prove an alibi. Hale has local attorneys conducting his case, assisted by one attorney from Oregon. Prosecuting Attorney Wager is being assisted by H. J. Snively. The indications are the trial will last several days, possibly all the week. Great interest is being shown in the case, and some heavy legal fighting is expected as the trial progresses.

Since writing an article which appears elsewhere the bug bill measure has been defeated in the house. This was Coon's bill appropriating \$6,000 to the state board of horticulture and enlarging its discretionary powers in the way of destroying diseased trees and shrubs. Upton, wanted his own bill to pass. Coon's, he said, would cause three-fourths of the orchards in the state to be dug up and burned. Ormsby said: "The eastern trees sent in here are all diseased, and it is the best thing for the orchardists if their diseased trees are dug up. Whenever there is any measure introduced here that will be of some benefit to the state, it has to be jumped on by these would-be reformers and killed." Ford declared the bill gives one man discretionary power to destroy any orchard, charge \$5 a day while doing it, be paid out of the county treasury, and the amount to be a lien upon the land. "We ought," he said, "to pass a bill to protect our farmers from these horticultural fellows." He moved to indefinitely postpone, but the motion was lost. Gear, the taller, then took the floor, saying: "Oregon has always been famed for her fair women and red apples. The first we still have with us, and I hope always shall have, but the red apples, or at least, sound apples, are no longer with us. The best thing for our orchards today would be for 90 per cent. of them to be grubbed up. California has made her fruit the wonder of the world by appropriating liberally for destroying fruit pests. The difference between them and us is that when we find anything good, if it costs a dollar and six bits, we vote it down." McKean briefly opposed the bill, as he preferred Upton's. So the bill went to vote. The roll-call showed 30 ayes and 22 noes, thus defeating the measure by 1 vote.

PADDLE YOUR OWN CANOE.
"Voyagers on life's sea,
To yourself be true,
And while your lot may be,
Paddle your own canoe."

"To yourself be true," "and thou canst not then be false to any man." "Self-love is not so vile a sin as self-neglecting." Then "be wise to-day, 'tis madness to defer." Get Dr. Pierce's Golden Medical Discovery, for all affections of the lungs and throat. It is likewise a wonderful liver tonic, and invigorant.
All the year round, you may rely upon Dr. Pierce's Golden Medical Discovery. It's not like the sarsaparilla, that are said to be good for the blood in March, April and May. The "Discovery" works equally well at all times, and in all cases of blood-taints, or humors, no matter what their name or nature. It cures all Skin, Scalp and Scrofulous affections, as Eczema, Tetter, Salt-rheum, Fever-sores, White Swellings, Hip-joint disease and kindred ailments.
It's the *cheapest* blood-purifier, sold through druggists, because you only pay for the good you get.
Your money is returned if it doesn't benefit or cure you.
Can you ask more?

TITLE PERFECT

THE NEW TOWN has been platted on the old camp ground, at the Forks and Falls of Hood river, with large slightly lots, broad streets and alleys, good soil, pure cold water and shade in profusion, perfect drainage, delightful mountain climate, the central attraction as a mountain summer resort and for all Oregon, being the nearest town to Mt. Hood. It is also unsurpassed as a manufacturing center, being the natural center for 150 square miles of the best cedar and fir timber, possessing millions of horse power in its dashing streams and waterfalls, easily harnessed. Where cheap motive power exists, there the manufacturing will center, surrounded by soil and climate that cannot be excelled anywhere for fruit and agriculture, and with transportation already assured you will find this the place to make a perfect home or a paying investment.
