

To Our Friends and Patrons.

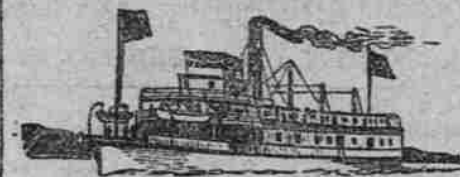

WE HAVE rather neglected our Advertising of late, not because we had nothing to sell; but we had nothing especially new to offer, and preferred to wait until we could say something of interest. We are, and have been for some time, busily engaged in placing our orders for Spring and Summer Goods and feel justified in announcing that we shall have the **FINEST ASSORTMENT** and the **BEST GOODS** in all our lines that has ever been seen in The Dalles. We have secured some genuine novelties in the Dry Goods Department, and the ladies will certainly consult their best interests by deferring their purchases until after their arrival, of which we shall give you due notice. Keep both eyes on this space and we will certainly surprise you, not only with the goods, but the prices at which we shall sell them. We mean business and propose to have your patronage, if **LOW PRICES** and the **BEST GOODS** will accomplish it. Yours Respectfully,

PEASE & MAYS.

LOCAL BREVITIES.

The 1.05 p. m. train from Portland did not arrive today until 4 p. m., in consequence of the inclemency of the weather.

Mrs. William C. Avery, who fell sixty feet down the elevator shaft of the Marquam at Portland Monday afternoon, died at St. Vincent's hospital at 5 o'clock yesterday morning.

You can carpet your rooms at about your own price by calling on Crandall & Burget, at the new store on Union street.

Crandall & Burget are now settled in their new store in the Michelbach brick on Union street, next door to Floyd & Shown's. Call around.

German services will be held at the Ninth Street Chapel on Sunday, at the usual hour 10:30 a. m. Rev. A. Horn having recovered from his illness, will officiate. Sunday school at 2:30 p. m.

The Dalles "400" met their photos, taken at Herrin's gallery, after the post-office, because they say they are not ashamed to send them east to friends when Herrin's name is on the photo.

The tax rate in Baker county for the year 1892 is thirty mills—only three per cent, says the E. Oregonian. With one or two more criminal cases, conducted regardless of expenses in Umatilla county, the tax rate there will be as high as in Baker county.

Dr. Eshelman informs us that Mr. L. Booth is improving, though somewhat weakened by his long illness. He will gain strength as the days go by. We hope to see him on the street as soon as the weather gets warmer.

The Y. B. C.'s had a lively time of it on Union street last night coasting. The sport was never more enjoyable. The boys shot down through the cut with railroad speed and the compelling force drove them down as far as the Columbia hotel in fine shape.

Capt. John J. Holland, whose death in Seattle has been announced, was well known in The Dalles. He was a prominent builder and adept in marine architecture. Among the steamers he built were the Wide West, R. K. Thompson, Idaho and Emma Hayward. He was a brother of Phil Holland, so well known in this city, who received fatal injuries some years ago in a collision between the Southern Pacific railroad ferry and the steam launch Mikado.

"Kill the bug bill," exclaims the otherwise sensible Salem Journal. Better kill the orchardists whose indolent ways permit the pests to destroy Oregon orchards, and make the bug law a necessity in this state. We hope for the good of Oregon, to see house bills fifty-seven and fifty-eight pass into the statutes. One is to give the state board of horticulture power to declare any section of the state an infectious district where peach yellows or fungus are found, and power to order all nursery stock from such a district destroyed. This might be substituted, with wisdom, for the act to pay a state chemist who puts Eastern Oregon soils down as value-

less, "except for sage brush and bunch grass." The other bill is to give the state board power to create and appoint a state official, to be called state fruit pest inspector. He is given powers over the rights and property of negligent citizens to the care of rights and property of other citizens, and without such official authority, through negligence, for want of such laws, Oregon is liable to be advertised to the world as the worst infested state in the union. Look at the worm eaten fruit and pest ridden orchards of the valley for proof of the necessity of enacting the bug bills.

Mr. Chas. Vanduyne of Tygh Valley, came in to the city last evening, having experienced the most uncomfortable day in his life. Snow d fits and high winds were encountered the entire distance. In places the snow was piled up four and five feet high in the road.

Mutilated notes are now coming to the United States treasury for redemption in greater amounts than ever before, being undoubtedly the after effects of an active business during the holiday season. The clerks in the treasurer's office are kept busy after office hours every day until dark handling this money, but cannot keep up with the demands made upon them. Often in one day \$2,000,000 and \$3,000,000 in delapidated and uncurrent funds are received from the sub-treasuries and National banks. At the close of some business days there are about \$5,000,000 in dilapidated notes of small denominations awaiting redemption with crisp new notes. The assistant treasurer at New York reports that he never knew of such an influx of uncurrent notes; and has asked that clerical assistance be sent him from Washington.

The John Ena Safe.

SAN FRANCISCO, Jan. 31.—The Hawaiian ship John Ena arrived here today from Cardiff. There has been some doubt as to the safety of the Ena, as a wreck had been seen off Cape Horn, and it was thought it might be the John Ena.

Services will be held in the Ninth street Lutheran chapel on the 2nd, in the Scandinavian language.
Good bye January.

For Annexation.

Review: By all means annex the Sandwich Islands. Then we shall have Hawaii for a winter resort, Alaska for a summer stamping ground for tourists, and with national parks in Montana, Washington and Oregon there will be no excuse for American globe-trotters who swarm over Europe winter and summer and give the old world pretty much the same impression of the people of this country that we get of the Chinese from the pauper coolies who come here.

Poisoned His Wife.

LOS ANGELES, Cal., Jan. 31.—Henry Bentley, a gardener, who is accused of having poisoned his wife, a wealthy Mexican woman, was arrested here today. Analysis of the woman's stomach showed evidence of arsenical poisoning by strychnine.

Many years ago a boy found a beautiful snake, so an Indian legend runs. He kept it in a bowl of water and took notice that small feathers dropped into the receptacle became living beings. He experimented and discovered that whatever he put into the water became alive. He rubbed some of this snake water on his eyes and found that he could see things that were actually hidden in the ground. Concluding that he would make the liquid more powerful by putting more snakes into it, he hung up a number of serpents so that their oil dropped into the water. By putting some of the solution thus obtained into his mouth he could breathe fire, and by placing some of it in his eyes he could see in the dark.

At will he could transform himself into a serpent, could become invisible and could travel at an incredible rate of speed. An arrow dipped into the liquid and shot at any living being, even if it did not hit its object, would nevertheless kill it. A feather dipped into this snake water and pointed at any game would immediately start for the latter and slay it. This boy became in this manner a great wizard.

There is hope that Michigan will be un-Michiganized. The senate of the state has passed a bill repealing the law permitting the election of presidential electors by districts. It is thought the house will concur without delay.

It Should be in Every House.

J. B. Wilson, 371 Clay St. Sharpsburg, Pa., says he will not be without Dr. King's New Discovery for consumption, coughs and colds, that it cured his wife who was threatened with pneumonia after an attack of "la grippe," when various other remedies and several physicians had done her no good. Robert Barber, of Cooksport, Pa., claims Dr. King's New Discovery has done him more good than anything he ever used for lung troubles. Nothing like it. Try it. Free trial bottle at Snipes & Kinnersly's. Large bottles, 50c. and \$1.

LAND OFFICE PUBLICATIONS.

When Not Required by Law They Should Not Be Expected.

We find the following excerpt from the Condon Globe in the Grant dispatch:

It does seem very strange indeed that the U. S. Land office in Washington and every other place except The Dalles, understand that the law requires the publication of notice of intention to purchase railroad land, and are doing so right along although The Dalles office stubbornly refuses to do so. Just what object it has in view in not complying with the law remains a mystery at present. The matter needs investigation badly.

For the information of our contemporaries we may be permitted to state that the law does not require "publication of notice of intention to make proof" under the third section of the act of September 29, 1890, and as the law does not require it the register here refuses to order it, and speaking for THE CHRONICLE, it was not expected. The settlers have "hard times" enough, as matters stand, to be exempt from all unnecessary expense in the matter, and as a friend of the farmers THE CHRONICLE wishes to avoid all possible trouble to them.

As the instructions from the general land office were silent on this point it was left for the local officers to decide, and this office decided as we have stated, and have thereby already saved to the purchasers under this act about \$10,000, which will be increased to \$15,000 or \$10,000 by the time the purchase right is exhausted. Publishers who understand the situation are entirely satisfied that the register's course is the correct one, and that it would not have been just nor right to force each purchaser to stand an expense of \$7.50 which the law did not require.

Resolutions of Condolence on the Death of J. R. Love.

The following resolutions were adopted by Temple lodge No. 3, A. O. U. W., of this city, at a special meeting called for the purpose yesterday:

Last Lear:
Her eyes were rheumy, and weak and red,
Her breath—she could smell it afar,
She had ringing and dizziness oft in her head,
And the cause of it all was catarrh.

This year—
Her breath is as sweet as the new meadow hay,
Her eyes are as bright as a star,
And the cause of the change, she is ready to say,
Was the Dr. Sage Cure for Catarrh.

Dr. Sage's Catarrh Remedy will positively cure catarrh in the head, no matter how bad or how long standing. Fifty cents, by all druggists.

Good Looks.

Good looks are more than skin deep, depending upon a healthy condition of all the vital organs. If the liver be inactive, you have a bilious look, if your stomach be disordered you have a dyspeptic look, and if your kidneys be affected you have a pinched look. Secure your health and you will have good looks. Electric Bitters is the great alterative and tonic acts directly on these vital organs. Cures pimples, blotches, boils and gives a good complexion. Sold at Snipes & Kinnersly's drugstore, 50c per bottle.

Examination of Teachers.

Notice is hereby given that for the purpose of making an examination of all persons who may offer themselves as candidates for teachers of the schools of this county, the county school superintendent thereof will hold a public examination at his office in The Dalles beginning Thursday, January 30th, and ending Feb. 8th 1892, at 1 o'clock, p. m. All teachers eligible for the state certificate, state diplomas and life diplomas must make application at the quarterly examinations. Dated this January 27th, 1892.
