

### To Our Friends and Patrons.

WE HAVE rather neglected our Advertising of late, not because we had nothing to sell; but we had nothing especially new to offer, and preferred to wait until we could say something of interest. We are, and have been for some time, busily engaged in placing our orders for Spring and Summer Goods and feel justified in announcing that we shall have the **FINEST ASSORTMENT** and the **BEST GOODS** in all our lines that has ever been seen in The Dalles. We have secured some genuine novelties in the Dry Goods Department, and the ladies will certainly consult their best interests by deferring their purchases until after their arrival of which we shall give you due notice. Keep both eyes on this space and we will certainly surprise you, not only with the goods, but the prices at which we shall sell them. We mean business and propose to have your patronage, if **LOW PRICES** and the **BEST GOODS** will accomplish it. Yours Respectfully,

"Nuggett," a tale of the Pacific coast mines in "the days of old, the days of gold, the days of '49," appears in the Notre Dame Scholastic for December 20th, from the pen of Roger B. Sinnott. Mrs. Dunlavy will have to look to her laurels as a descriptive writer of scenes in those early days since Roger has taken on the pencil for similar sketches. He has the advantage of the truthful stories told so often by his father, Col. Sinnott, to point out a tale of fiction and adorn the imaginative character.

"The level-headed Senator Veatch" tells the Roseburg Review that if freight rates would be reduced 10 per cent twice and a third time as much grain would be produced in this country. If the senator's "head" is really "level" he had a poor way of showing it in his vote on the Raley bill which would have reduced freight rates from 50 to 75 per cent. on half a million tons of freight in and out the Inland Empire next year.

#### A Brave Conductor.

The conductor of a passenger train near Saline City, Ind., a few days ago by his presence of mind averted a horrible accident. The train was standing at the station, when by some mistake a freight train was backed upon the main track. The engineer on the passenger train, to avert a collision, reversed his train and with the fireman jumped. The collision was slight, but the passenger engine soon was running at a frightful speed. The conductor, noting the desertion of the engineer and fireman, at the risk of his life clambered over the tender and closed the wide opened throttle, stopping the train just in time to prevent a collision with an incoming train.—Philadelphia Ledger.

#### Eight Remarkable Marriages.

Eight of the most remarkable marriages on record took place within a few weeks in the parish of St. Marie, Quebec. Two neighbors named Morin and Rhaume have each eight children, four sons and four daughters. Rhaume's four sons have married Morin's four daughters, and Morin's four sons have married the daughters of Rhaume.—Yankee Blade.

#### THE BLOCKADE ON.

But the Chinook Will Pretty Soon Whisper "Come Off."

Conductor Fowler came in from the east this forenoon with a train bringing mail, express and passengers, the first we have had in The Dalles from that direction since 3 a. m. Friday. As no trains have reached The Dalles from the west since 11:40 p. m. of the 2d, Conductor Fowler's train turned back this afternoon, and those of his passengers west-bound were left here to await future developments. The blockade may now be said to be on again, waiting for the Chinook breezes to open the outside world to the Inland Empire.

"I am here to stay," exclaimed the snow. "All complaints I scoff!" But the Chinook breezes sighed soft and low, "Come off!"

#### Great Excitement in Russia.

Yesterday morning members of the Imperial Rjstidts could be seen on all the principal streets hurrying with pallid faces and bated breath in the direction of the palace of Slijabstad. In a few minutes the palace was filled to overflowing with the anxious populace. It was apparent to the most indifferent that some vital question was to be sprung upon the house. The audience were so quiet you could have heard a pin drop. Prince Rjstiditskyxysty arose, and as the first sentence passed his lips a mighty shout went up. It was Paris Panels they wanted. Herrin makes them. Gallery over the post-office.

The Wilbur paper learns that range stock in the Grand cutlee are in a bad fix just now. There is a crust on the snow which cuts the horses' legs when they paw for grass and as soon as the wounds become severe enough they are unable to hunt feed. It is probable that quite a loss will be experienced from this cause unless spring opens quickly.

#### It Should be in Every House.

J. B. Wilson, 371 Clay St. Sharpshurg, Pa., says he will not be without Dr. King's New Discovery for consumption, coughs and colds, that it cured his wife who was threatened with pneumonia after an attack of "la grippe," when various other remedies and several physicians had done her no good. Robert Barber, of Cooksport, Pa., claims Dr. King's New Discovery has done him more good than anything he ever used for lung troubles. Nothing like it. Try it. Free trial bottle at Snipes & Kinnesly's. Large bottles, 50c. and \$1.

Last Wednesday Irvin Bird rode to Pendleton from Bear creek after medical attendance for a very sick child in the family of Wes Smith. Mr. Bird had a cold ride, it being twenty degrees below zero when he started, at one o'clock in the morning.

The people at the World's Dispensary of Buffalo, N. Y., have a stock-taking time once a year and what do you think they do? Count the number of bottles that've been returned by the men and women who say that Dr. Pierce's Golden Medical Discovery or Dr. Pierce's Favorite Prescription didn't do what they said it would do. And how many do you think they have to count. One in ten? Not one in five hundred? Here are two remedies, one the "Golden Medical Discovery," for regulating and invigorating the liver and purifying the blood; the other, the hope of weakly womanhood; they've been sold for years, sold by the million bottles; sold under a positive guarantee, and not one in five hundred can say: "It was not the medicine for me!" And, in these any reason why you should be the one? And, supposing you are, what do you lose? Absolutely nothing.
