L. RORDEN Treas. Dalles City.

The Quickest Way to Cure a Celd-Do you wish to know the quickest way to cure a cold? We will tell you. To cure a cold quickly, it must be treated before the cold has become settled in the system. The first symptoms of a cold is a dry, loud cough and sneezing. The cough is soon followed by watery expectoration and the sneezing by a profuse watery discharge from the nose. In severe cases there is a thin white coating on the tongue. severe cases there is a thin white coating on the tongue. What to do? It is only necessary to take Chamberlain's Cough Remedy in double does every hour. That will greatly lessen the severity of the cold and in many cases will effectually counteract it, and cure what would have been a severe cold within one or two days time. Try it and be convinced 25 and 50 cent bottles for sale by Blakeley & Houghton, druggists.

New York Banks Obliged to Come to the Relief of the Government.

VERY SERIOUS SITUATION.

Drain of American Gold to Europe Exhansted the Resources.

for the Shipment of Gold Next Saturday --- Minor Mention.

NEW YORK, Feb. 8 .- A local paper in the morning will say that the United States treasury is practically empty of gold and the New York banks are obliged to come to the relief of the government. It is a serious situation that confronts the secretary of the treasury and the financiers of the country. The drain of American gold coin to Europe has at last exhausted the resources of the government, and private stores in the vaults of the banks are drawn upon to tide over the emergency. The secret has been well kept, but of the \$3,500,000 in Amercan gold that was shipped to Europe last Saturday \$2,000,000 was loaned to the subtreasury by the banks of this city. The entire supply of gold in the vaults of the United States treasury today is reduced to \$108,176,938. Of this only \$9,176,938 is free gold; the remainder, \$100,000,000, must be by law held in the treasury for the redemption of a like amount of legal tender notes which have been issued against it. Nor has the drain of gold stopped. There were agreements by foreign bankers today for the shipment of \$3,000,000 in gold next Saturday. Other shipments will probably be heard from tomorrow and it is the impression in Wall street today that this weeks exports will reach about \$5 .-000.000. This would leave only a little over \$3,000,000 of free gold in the treasury, probably hardly sufficient for a single week's supply. Since Monday the actual short-sterling rates of exchange have been up from \$4.871/4 to \$4.88, less commission. George G. Williams, president of the New York Clearing-house association, and also president of the Chemical National bank, spent a great deal of time yesterday arranging for a further loan of gold to the treasury department. He went to several banks the troops and by the cannon of the ings of their followers with a view to and appealed that for the public good. they should join in contributing of their gold reserves enough to keep up the supply of free gold in the treasury to meet all demands until steps can be taken to otherwise meet the emergency. It is understood that the appeals were successful in all instances. Four banks
