The Quickest Way to Cure a Cold.
Do you wish to know the quickest way to cure a cold? We will tell you. To cure a cold quickly, it must be treated before the cold has become settled in the system. The first symptoms of a cold is a dry, loud cough and sneezing. The cough is soon followed by watery expectoration and the sneezing by a profuse watery discharge from the nose. In severe cases there is a thin white coating on the tongue. What to do? It is only necessary to take Chamberlain's Cough Remedy in double dose every hour. That will greatly lessen the severity of the cold and in many cases will effectually counteract it, and cure what would have been a severe cold within one or two days time. Try it and be convinced. 25 and 50 cent bottles for sale by Blakeley & Houghton, druggists.

ENGLAND IS OBJECTING

The Presence of Our Troops Makes John Bull Kick.

LETTER FROM BRITISH MINISTER

Asking Why the Naval Force is Still Present on Shore.

CHARGES OF TREATY VIOLATIONS

Panacefote Protests and Says They Will Not Sit Idly by and See This Government Assume Control.

HONOLULU, Feb. 1.—The mere presence of sailors from the Boston, now that peace is restored and business is going on smoothly, is a thorn in the flesh of the native, likewise the members of the diplomatic corps. There is a clause in the treaty entered into by the United States, Great Britain and France relative to the landing of armed forces by either of these powers. Twice the British minister resident has called upon President Dole in relation to the matter, and both times he was assured that the force would soon go aboard the cruiser. This was more than a week ago. The troops are still here, and the following letter on the subject has been received by President Dole:

BRITISH LEGATION,
HONOLULU, Jan. 30, 1893.
SIR: On two occasions, when I had an interview with your excellency, I called your attention to the continued presence on shore of a naval force from the United States ship Boston, and I understood your excellency to say that it would shortly return to that vessel. It has not, however, yet done so. I see in the newspapers that the Hawaiian provisional government has a regular force of 103 men and officers, beside three volunteer companies and a large body of police force. I should think this force more than sufficient to maintain law and order and to protect life and property, and I am, therefore, constrained to again ask your excellency why this foreign force is not recalled. Your obedient servant,
JAMES HAY WOODHOUSE,
H. B. M. Minister Resident.
To Honorable S. B. Dole, President Hawaiian Provisional Government.
The relations between President Dole and the British minister resident are the most cordial.

Panacefote Protests Against It.
CHICAGO, Feb. 10.—The Herald's Washington correspondent sends the following: Within a few hours after the arrival in this city of the news that Minister Stevens had established an American protectorate over the Hawaiian islands, Sir Julian Pauncefote, the British minister, made his appearance at the state department. He was for half an hour in consultation with Secretary Foster, and after the minister's departure Secretary Foster went over to the White House and saw the president.

Secretary Foster, is of course, diplomatically reticent as to what was said to him by the representative of her majesty's government, but the correspondent of the Herald is in possession of facts which justify the statement that Mr. Pauncefote called to protest against the action of Minister Stevens and to serve notice that the government of Great Britain is not likely to sit idly by and see this government assume full control of affairs in Hawaii.
It is known that Sir Julian was informed of the new turn of affairs in Hawaii as quickly as was our state department. The presumption is that the British minister at Honolulu forwarded the dispatches by the steamer Australia, which arrived at San Francisco yesterday morning, and the tenor of these dispatches must have been in the nature of a full explanation of the scheme which the American residents of these islands, tools of Clause Spreckels and the sugar conspirators, have been working.

CORVALLIS, Feb. 10.—[Special.]—This part of Webfoot has been dressed in white for almost two full weeks. We have been favored with a fresh fall of snow nearly every day since the 25th of January. A very few people have enjoyed themselves sleigh-riding. Many young people have tried coasting where they could find a suitable hill. FINANCIAL CRISIS IN NICARAGUA.

The Bank of Nicaragua Closed Its Agencies and Will Go Into Liquidation—Minor Mention.

SALEM, Feb. 10.—The house was opened with prayer by Rev. Mr. Brown, of Portland.
Cooper's bill No. 100, to elect road supervisors, was taken up; an amendment excepting Klamath, Lake and Union counties from its provisions was lost, and the bill passed.
Northrup—Bill to fix 12 o'clock noon as the hour for the meeting of the legislature on the first day of the biennial sessions; passed.
Senate bill 21, the world's fair bill, with the veto message, was made the special order for next Monday at 1:30 p. m.

The speaker rose to a question of privilege in regard to certain charges on his course in the passage of house bill No. 1, for a jury factory.
THIRD READING OF HOUSE BILLS.
Faxon—To amend the code as to trials in equity; passed.
Nickell—Relating to killing game out of season; passed.
The house concurred in senate amendments to the house pilotage bill, providing that a majority of the commissioners shall reside at Astoria.
Myers—To enable port of Portland to levy a special tax; passed.
Maloney—Relating to sheriff's fees for collecting taxes in certain counties; passed.
Adjourned.
The Senate.
Cross—Fixing salaries of county officers; passed.
Campbell—Columbia river pilotage; passed.
Myers—For the protection of game; passed.
Woodard introduced a resolution recommending the employment of convicts on public roads, etc., laid on the table.

It is estimated that visitors from abroad to the world's fair will bring \$300,000,000 to this country during the present year, and at least \$100,000,000 will be kept at home by Americans not going abroad. The profits of the exposition to the people of the United States will therefore be \$400,000,000, or about \$5 per capita directly added to the circulating medium. The effect of this addition to the cash assets of the nation cannot fail to make itself felt on the business of the country, and the effect will be beneficial.

Secretary Foster is of course, diplomatically reticent as to what was said to him by the representative of her majesty's government, but the correspondent of the Herald is in possession of facts which justify the statement that Mr. Pauncefote called to protest against the action of Minister Stevens and to serve notice that the government of Great Britain is not likely to sit idly by and see this government assume full control of affairs in Hawaii.

FINANCIAL CRISIS IN NICARAGUA.

The Bank of Nicaragua Closed Its Agencies and Will Go Into Liquidation—Minor Mention.

NEW YORK, Feb. 10.—A Washington special says: Secretary Foster is now issuing bonds in order to replenish the gold stock in the treasury. The issue is upon the authority contained in section 5 of the resumption act, and over \$50,000,000 is to be issued.
It is the purpose of the department to have the bonds issued and the gold in their possession before the public announcement of the issue is made, therefore Secretary Foster will not give out the facts.
Starting with \$50,000,000 the plan contemplates the issue of as much more as the circumstances demand, even up to the limit of the entire amounts of outstanding greenbacks.

LATER—Secretary Foster now denies the necessity of issuing \$50,000,000 bonds, as heretofore stated.
A Financial Panic Threatens the Isthmus.
MANAGUA, Feb. 10.—A financial crisis is imminent in this republic. In reference to this trouble the newspaper El Comercio, of Leon, says: "For reasons yet unknown the bank of Nicaragua closed its agencies at Rivas, Masay and Chinendiga, and will also shortly close the branches at Greytown and Matagalpa and go into liquidation, refunding to the shareholders their capital." The same paper is also responsible for the statement that as soon as the agencies were closed the exchange of notes ceased, occasioning serious loss to holders, who were compelled to dispose of them at a discount to brokers.
Famine Lingering in Russia.
The Philadelphia Ledger says: "A terrible picture is drawn of the condition of affairs in Tula, a province in Russia. Famine has succeeded famine, and the miserable inhabitants are almost wholly dependent on outside assistance, of which there is not enough. Typhus fever is raging in the province and adding its terrors to the miseries of hunger and starvation, while hope itself has fled. The world, in spite of the publicity given to the facts in newspapers, can scarcely realize the dangerous condition of affairs in Russia, with famine preparing the ground for a fresh outbreak of Asiatic cholera, and no prospect of an improvement in the condition of the people for some years to come."
