## STRANGE INDEED.

The Salem correspondent of the Portland Telegram voices the sentiment of the people of this section in the following excerpt: Up till now there has been nothing to call out the especial antagonism or interest of the railroad companies, but they showed yesterday that they are watching the proceedings closely, and are prepared to resist all attempts to benefit the people at their expense. This was developed when Smith's bill, providing for the carriage of freight between The Dalles and Celilo and fixing the rate therefor, came up. Bancroft and Denny led the opposition to the bill and were aided by Hayes, Alley and Cogswell. The latter explained that he did not want to vote blindly for rates that the courts might declare unreasonable. Smith ably defended his bill, and charged that railroad lobbyists were here to influence legislators. It is strange that Portland, which is so deeply interested in an open river, should forever be obliged to obey the behests of the Union Pacific Railroad company. An open river would benefit Portland a thousand dollars where the benefits it obtains from the railroad in consequence amount to as many cents; yet it has always seemed to be the case that the railroad is the chief care of Portland's representatives.

How perfectly absurd for women to discuss Emancipation with a big E, and Women's Rights, begging for the privilege of voting, and then lay right down in the dust before her dressmaker, bowing before the slightest decree of that insolent autocrat. "Wear a pull-back," says the modiste and straightway every woman, knock-kneed or bow-legged, ties herself up in a skin-tight skirt and restricts her exercise to short steps and car rides. "High sleeves are worn," is fashion's mandate, and short neck or long every feminine sinks her head between mountainous puffs. "Crinoline" is the latest utterance of the oracle, who appears to be seconded by the Examiner. Can it be that the monarch, not satisfied with its real-estate, help-wanted and pension attachments, is now about to spring a hoop manufactory upon us? If this be so, urge, Town Talk, with one accord, let the female San Franciscan gird on her armor of combativeness, in-trench herself in her native grace, and resist to the utmost the monstrous innovation.

The water supply of Ellensburg has been heavily drawn upon during the present cold spell, as also has the imagination of some of the newspaper paragraphs of that city. The Ellensburg Register is responsible for the following tall story: "Nearly 2,000,000 gallons of water was supplied to the city within 12 hours Thursday night. Both reservoirs were exhausted and it was found necessary to turn in water from Wilson creek to supply the mains. This perhaps accounts for there being fish in the mains. Yesterday morning our motor was completely choked off by a salmon trout that measured fully nine inches in length."

Assemblyman Taylor, of Marin, has introduced a bill into the California assembly making it a felony to conduct premium note concerns, or any other lottery schemes, to possess lottery tickets, or to publish lottery drawings or lottery advertisements of any nature. The penalty for the violation of the law is from two to five years' imprisonment. It is a good measure and should be duplicated in Oregon.

## Will Have a Steam Pump.

East Oregonian.

A force of men are at work with a "boom derrick" near the Union Pacific round house upon a well that is being excavated to furnish additional water supply for the company. Power enough is not furnished by the city waterworks for boiler-washing purposes, and a steam pump will be put in. This plan is in the nature of an experiment, and if the supply is found sufficient for other needs than boiler-washing, the use of city water, which is a source of considerable expense to the company, will be discontinued.

What is lacking is truth and confidence. If there were absolute truth on the one hand and absolute confidence on the other, it wouldn't be necessary for the makers of Dr. Sage's Catarrh Remedy to back up a plain statement of fact by a \$500 guarantee. They say—"If we can't cure you (make it personal please,) of catarrh in the head, in any form or stage, we'll pay you \$500 for your trouble in making the trial." "An advertising fake" you say. Funny isn't it, how some people prefer sickness to health when the remedy is positive and the guarantee absolute. Wise men don't put money back of "fakes." And "faking" doesn't pay.

Joseph V. Dory, of Warsaw, Ill., was troubled with rheumatism and tried a number of different remedies, but says none of them seemed to do him any good; but finally he got hold of one that speedily cured him. He was much pleased with it, and felt sure that others similarly afflicted would like to know what the remedy was that cured him. He states for the benefit of the public that it is called Chamberlain's Pain Balm. For sale by Blakeley & Houghton, Druggists.

At the head of all blood-purifiers is Dr. Pierce's Golden Medical Discovery. But it's different from all of them. Whatever is claimed for this, it's guaranteed to do. The money is refunded in every case where it fails to benefit or cure. It's because it is different that it can be sold so. All diseases originating from a torpid liver or impure blood yield to it. It cleanses and purifies the system, freeing it from all manner of blood-poisons, no matter from what cause they have arisen. For Dyspepsia, Biliousness, Scrofula, Salt-rheum, Tetters, Erysipelas, or any blood-taint or disorder, it is an unequalled remedy. Nothing else can take its place.

"Golden Medical Discovery" contains no alcohol to inebriate, and no syrup or sugar to derange digestion. It's a concentrated vegetable extract; put up in large bottles; pleasant to the taste, and equally good for adults or children; works equally well all the year round.

**WINANS**

THE NEW TOWN has been platted on the old camp ground, at the Forks and Falls of Hood river, with large slightly lots, broad streets and alleys, good soil, pure cold water and shade in profusion, perfect drainage, delightful mountain climate, the central attraction as a mountain summer resort and for all Oregon, being the nearest town to Mt. Hood. It is also unparalleled as a manufacturing center, being the natural center for 150 square miles of the best cedar and fir timber, possessing millions of horse power in its dashing streams and waterfalls, easily harnessed. Where cheap motive power exists, there the manufacturing will center, surrounded by soil and climate that cannot be excelled anywhere for fruit and agriculture, and with transportation already assured you will find this the place to make a perfect home or a paying investment.
