OREGON'S SENATORS.

A dispatch from Washington is to the effect that the appropriation for the canal at the cascades of the Columbia river was raised to \$1,289,050 instead of \$869,000, as before. This was on motion of Mitchell.

This action, though in line with the government's policy in giving the job to contractors and hastening the completion of the locks, makes assurance doubly sure, and will quicken the pulse of Eastern Oregon as a whole. The work at the locks has progressed at a snail's pace for nearly a quarter of a century, and the end has seemed like the Canaan never to be reached, an unatainable phantom, a will-o'-the wisp, now within grasp, now in the distance, ever promising, ever elusive, until hope deferred hath made the heart sick, and here and there a stately head has bowed beneath the dust in the long years vainly waiting for the consummation devoutly to be wished, but apparently never to be realized.

Men have grown suspicious of their representatives, through ignorance of the fact that they were impotent before the vexing circumlocution at Washington. The senators have had to endure open aspersions and secret distrust; like Hawthorn's spy, have battled loyally and with stout hearts in the people's interests, but ever presenting themselves in the guise of the enemy, as a target continually. At intervals they have come back and put to rest these doubts, satisfactorily explaining their conduct and the reason of the delays, but in the minds of many suspicion lurked, ready to again leap into active life at the first provocation. We do not say all have doubted, for many have been ataunch, knowing the character of these great men of Oregon. Bravely have they worked, and now they should reap their reward. All honor to Senator Mitchell, Senator Dolph and Senator Hermann, who have erected a monument to themselves more lasting than marble, that of patriotic regard to honest statesmen for all time, from all people of Oregon.

If we take Hawaii we shall own a volcano. That is something. It is said to have the largest continuously active wrater in the world. We should also into possession of some 40,000 active craters in the persons of Chinese to whom we couldn't well deny an elective, and that is something too .- Ex.

Armour, it is said, has a hundred dollars placed on his desk every morning, which he distributes in charity during the course of the day. Excluding Sundays and holidays, this makes \$31,200 a year, which, for a monopolist, is not bad, especially as it is in addition to the million or two which he occasionally drops into a free training school or something of that sort.

Irish National League in this country now, but there has not been such an organization for years past. The League was destroyed at the convention held in Chicago some half dozen years ago when it fell into the hands of the Triangle gang of professional Irishmen led by DOLPH Alexander Sullivan, John Finnerty, Pat Egan, and the rest, who traded upon it in the presidential campaign of 1888 and sought to make it a tender to the republican machine, with the expectation that Sullivan would be called into Harrison's cabinet, Egan go abroad, and the others receive relative reward. Except that Egan was given the mission to Chili they were all cheated. The league, however, went to its death all the same, and was buried beyond reach of resurrection

The Utica Herald says that "the taking of the Sandwich islands wouldn't afford the United States its first insular possession. The purchase of Alaska brought us a group of islands extending into the Pacific 20 degrees of longitude further east than the Sandwich group and 10 degrees further than Samoa. Honolulu is nearer Washington than is Sitka." But the Alaskan or Aleutian islands are not our only island possessions. Few people know that there is a United States colony on the island of Navassa on the coast of Hayti. First seized by Yankee squatters in 1872, that seizure has apparently been ratified and confirmed by the action of the United States courts in trying persons accused of committing crime on the island. It is a speck of an islet, on which a gang of men is employed in excavating phos-phate rock which is brought to this country for use as a fertilizer.

Mr. C. F. Davis, editor of the Bloom field, Iowa, Farmer, says: "I can recommend Chamberlain's Gough Remedy to all sufferers with colds and croup. I have used it in my family for the past two vears and have found it the best I ever used for the purposes for which it was intended. 50 cent bottles for sale by Blakeley & Houghton, Druggists.

painful disorders and -all the chronic weaknesses peculiar to the female sex. They go, with the use of Dr. Pierce's Favorite Prescription. Periodical pains, weak back, bearing down sensations, nervous prostration, all "female complaints" are cured by it. It is purely vege-table and perfectly harmless—a powerful general, as well as uterine, tonic and nervine, imparting vigor and strength to the whole system. It costs you nothing if it fails to give satisfaction. It's guaranteed to do so, in every case, or the money is refunded. It can be guaranteed -for it does it. No other medicine for women is sold on such terms.

That's the way its makers prove their faith in it. Contains no alcohol to inebriate; no syrup or sugar to derange digestion; a legitimate medicine, not a beverage. Purely vegetable and perfectly harmless in any condition of the system.

MINANS

HE NEW TOWN has been platted on the old camp ground, at the Forks and
Falls of Hood river, with large sightly lots, broad streets and alleys, good soil,
pure cold water and shade in profusion, perfect drainage, delightful mountain
elimate, the central attraction as a mountain summer resort and for all Oregon,
being the nearest town to Mt. Hood. It is also unparalled as a manufacturing
center, being the natural center for 160 square miles of the best cedar and fir
timber, possessing millions of horse power in its dashing streams and water
falls, easily harnessed. Where cheap motive power exists, there the manufactories will center, surrounded by soil and climate that cannot be excelled
anywhere for fruit and agriculture, and with transportation already assure
you will find this the place to make a perfect home of a paying investme
