The true site of the Garden of Eden has been the subject of almost endless controversy and conjecture. The three continents of the old world have been gone over by the theologians and antiquarians in a vain search for its most probable location. From China to the Canary islands and from the Mountains of the Moon to the coast of the Baltic, each country has been the subject of careful search. Every spot in Europe, Asia and Africa that could possibly be the place designated in the first chapter of Genesis has been examined, and yet, says the Philadelphia press, no place has been found that corresponds even in the slightest degree with the scriptural account of the first abode of the progenitors of the human race. One of the most ancient opinions, that given by Josephus, is that it was the country which lies between the Ganges and the Nile. This view imagines Eden as being a very widely extended country, embracing all that vast territory which is bounded on the east by the Indus, and on the west by Egypt's great water-course. As the "Garden" is said to have been "to the eastward in Eden," Josephus places it definitely in the valley of the Euphrates. Von Hammer, the famous oriental scholar, places it in Bactria; others locate it in Babylonia, at the confluence of the Euphrates and the Tigris. Captain Wilford, a profound student of eastern antiquaries, has labored for years to locate Eden in Bamian, south of the Koosh mountains. Butman puts in down as being in India; Heider, in his "History of Mankind," identifies it with the present vale of Cashmere. Many oriental sects believe it was on the island of Ceylon, while the Greeks place it at Beth Eden, on Lebanon. Lastly, many eminent scholars regard the whole story as being a gigantic myth.

Persons desiring to visit the Chicago fair in their own yacht or small craft can go there via the St. Lawrence river if their vessels do not exceed 183 feet in length, 28 feet beam and 8 feet draught. They can sail to Quebec, tow up to Montreal, pass through the Lachine canal, nine miles long, and be piloted thence to Chicago. This is the best way for large yachts to go. Smaller craft, especially if steam propelled, may go by the Erie canal, 352 miles from Albany to Buffalo, but they must not exceed 100 feet in length, or 6 feet draught, nor must they exceed 10 feet 6 inches above the water line, in order to pass under the bridges. There are 72 locks on the canal and 4 miles an hour is the speed limit.

The new postal money orders which have been ordered by the government will soon be issued. In the new system there is little or no complication. Sheets will be issued calling for amounts from one cent to three dollars, which will be torn off to suit the purchasers. The postmaster will have no writing to do on it, the sender simply endorsing it the same as a check or draft. One cent will pay the charges on any amount up to three dollars, instead of five cents as at present.

Judson of Pierce county, Wash., has introduced a bill to make primaries respectable and decent, regulate them and punish frauds. One section requires that only legally registered voters shall cast a ballot, and everything in future must be done decently and in order. There is a world of room for reform in this direction and we hope the bill will become a law.

Rule or ruin is the policy at Olympia. Allen or nobody is the motto at Washington's capitol. If the state wants more than one U. S. Senator to represent them. Allen should be in Washington, D. C., or the supreme courts should declare his chair abolished on the ground that it is an unnecessary incumbency.

The grave announcement is made by a spiritualistic periodical that it has secured the "exclusive" collaboration of William Shakespeare in the spirit world, and that any alleged communications from the dramatist appearing elsewhere are spurious.

President Harrison has signed the Pacific reserve proclamation, and definitely settled the Rainier-Tacoma controversy for the present.

**Death in a Big City.**  
The shadows of metropolitan life could scarcely have a more ghastly illustration than in the case of the corpse of the old man at a Greenwich street window starting into the windows of the elevated cars for two days, the butt of the trainmen's Christmas time humor. A little while before was the killing and mauling of another man on the elevated almost immediately opposite a window where sat his wife and child looking innocently out and wondering who it was being carried away under the protecting blanket.

We are wont to look upon the extraordinary situations created by the novelist and playwright with satirical severity, but the pen of Sue, Dumas, Dickens and of a host of imitators never conjured up from imaginations vivid with research and practical observation a more pathetically impressive picture than is presented in the dead man at the Greenwich street window. Yet such things are so common in New York that they are swallowed up in the great maelstrom of metropolitan events—forgotten in a day.—New York Herald.

**Dividends in Philadelphia.**  
The January payments of interest and dividends in this city are the heaviest of the year. Upon Jan. 1 interest matures on a large portion of the national debt, and the government pays the quarterly interest on the 4 per cent, about \$5,596,000, and also \$1,388,705 semiannual interest on the Pacific railroad bonds known as the "currency sixes." The semiannual interest on the debt of the city, due Jan. 1, is now being paid. The city interest due is \$1,516,075, of which \$589,772 goes into the city sinking fund. The principal of the city debt upon which interest is disbursed is \$53,417,300. It is estimated that all the money paid in Philadelphia for January interest and dividends exceeds \$10,000,000.—Philadelphia Ledger.

Karl's Clover Root, the new blood purifier, gives freshness and clearness to the complexion and cures constipation. 25c, 50c. and \$1.00. Sold by Snipes & Kinersly, druggists.

Mr. Albert Favorite, of Arkansas City, Kan., wishes to give our readers the benefit of his experience with colds. He says: "I contracted a cold early last spring that settled on my lungs, and had hardly recovered from it when I caught another that hung on all summer and left me with a hacking cough which I thought I never would get rid of. I had used Chamberlain's Cough Remedy some fourteen years ago with much success, and concluded to try it again. When I got through with one bottle my cough had left me, and I have not suffered with a cough or cold since. I have recommended it to others, and all speak well of it." 50 cent bottles for sale by Blakeley & Houghton, Druggists.

Joseph V. Dory, of Warsaw, Ill., was troubled with rheumatism and tried a number of different remedies, but says none of them seemed to do him any good; but finally he got hold of one that speedily cured him. He was much pleased with it, and felt sure that others similarly afflicted would like to know what the remedy was that cured him. He states for the benefit of the public that it is called Chamberlain's Pain Balm. For sale by Blakeley & Houghton, Druggists.

**Checked**  
—the frightful inroads of Scrofula and all blood-taints. Dr. Pierce's Golden Medical Discovery purifies and enriches the blood, cleanses the system of all impurities, and restores health and strength. It cures all diseases arising from impure blood. Consumption is one of them. It's simply lung-scrofula. In all its earlier stages, the "Discovery" effects a cure. It's easy to see why. The medicine that masters scrofula in one part, is the best remedy for it in another. It is the best. It's warranted. It's the only blood and lung remedy that's guaranteed to benefit or cure, or the money will be refunded. No other medicine of its class does it. How many would be left if they did?

It's the *cheapest* blood-purifier, sold through druggists, (no matter how many doses are offered for a dollar,) because you only pay for the good you get.  
Your money is returned if it doesn't benefit or cure you.  
Can you ask more?

## WINANS

THE NEW TOWN has been platted on the old camp ground, at the Forks and Falls of Hood river, with large eighty lots, broad streets and alleys, good soil, pure cold water and shade in profusion, perfect drainage, delightful mountain climate, the central attraction as a mountain summer resort and for all Oregon, being the nearest town to Mt. Hood. It is also unparalleled as a manufacturing center, being the natural center for 150 square miles of the best cedar and fir timber, possessing millions of horse power in its dashing streams and waterfalls, easily harnessed. Where cheap motive power exists, there the manufacturing will center, surrounded by soil and climate that cannot be excelled anywhere for fruit and agriculture, and with transportation already assured you will find this the place to make a perfect home or a paying investment.
