The Wedding Flower.

The flowering of the "Wedding Flower," at Kew this year, is an event of more than ordinary interest...

It is found wild only in a small island off the east coast of Australia...

The flowers last only one day, but there are so many of them that the flowering season extends over a long period.

This Iris is known far and wide as the wedding flower.—London Garden.

A College President's Chase.

Harvard men who attended chapel one morning last week were very much surprised to see President Eliot pursuing one of the students as the men were leaving the building...

Captain John Richards, of the British ship Cambrian Monarch, reports having passed within half a mile of a pinnacle rock, showing about seven feet above the water, in latitude 29 degs. 2 secs. north, longitude 137 degs. 59 secs. west.

No soundings were taken and no discolored water was seen except close to the rock. The sea was smooth, and from the top-sail yard the rock appeared to be about nine feet in diameter at the water's edge, but much larger under the water.

Captain Richards says he is sure that it was not a floating object.—Philadelphia Record.

Played Cards During the Service. There is great excitement at Wingate, Ind., over the arrest of a young man and a young woman for playing "seven up" at a meeting in the Christian church on Sunday evening.

Adolphus Oolett and Miss Mary Prudy are lovers, and went to church together that evening. Not enjoying the prayers and songs, Adolphus tore the backs off a number of singing books and manufactured a deck of cards on the spot.

The young people then played "seven up." They were arrested and fined, both pleading guilty.—Cor. Chicago News.

A man at Quebec, who received a fearful and almost fatal shock by touching an electric light wire, and suffered very keenly afterward, says that he was at once relieved by taking off his shoes and stockings and walking barefoot over the damp earth.

The great railroads running from the northwestern part of our country to the Gulf of Mexico have determined to establish steamship lines to Central and South American ports from New Orleans.

Bronze Very Ancient. Bronze, spoken of in the Bible as brass, is of very ancient origin. We have little or no notion how the ancients got copper: but in all probability large quantities were formerly found in the metallic state, just as we find it now in the neighborhood of Lake Superior in America and Baikal lake in Siberia.

This would only have required melting to yield a tolerably pure metal. If, however, they smelted copper from its various ores, it is difficult to realize how they could overcome such a complicated process.

and we can only admit that in this respect, as in so many others, the ancient people of Europe were very much cleverer than we moderns are apt to believe.—Chambers' Journal
