BONDS TO BE ISSUED

Cleveland Said to Be in Treaty with a Foreign Firm.

IT WAS CRIMINAL NEGLECT
So Say the Jury in the Case of the Falling Wall at Chicago.

NEW YORK, March 4.—The Wall street news bureau today circulated to its customers this statement:
"We are informed upon excellent authority that the incoming executive is in treaty with a foreign firm of world-wide influence, through correspondents here, for the issue of bonds abroad. We are satisfied of the correctness of this statement. We are also in position to announce that an offer has been made to the treasury by an institution here for \$5,000,000 in 4 per cent. bonds, the price being fixed to the net buyer at 3 per cent., and the bonds to be paid in gold."
Henry C. Clews said to a reporter that the general opinion in the street was that the house referred to was that of August Belmont & Co. If the bonds are issued abroad they will, of course, be placed with the Rothschilds. The Belmonts are their correspondents, and Cleveland's well-known intimacy with Perry Belmont lends credence to the report. "I think there is sufficient in the report to assume that it is true."

Three Hundred Dead.
NEW YORK, March 3.—A Herald cable from Valparaiso says that the federals have 1,000 armed men outside the city of San Ueigo. They propose to make a dash into the city. There has been fighting outside of Santa Ana, which has been favorable to the federal troops. In the besieging army there were 3,000 armed men, while the defenders of the city numbered but 1,000. More defections from the government troops have been reported. The sixty cavalrymen stationed at Artigas went over to the federals in a body. Troops that were sent in pursuit of General Trevezas have returned to Bage. It is reported that the federals in Santa Ana are short of arms and are setting fire to the property of the Castilistas. News has been received confirming the dispatch announcing the fall of San Pedro. The federals, under General Trevezas, took the city. In the engagement 300 of the government troops were killed. Recruits are being hurried from all parts of the province to both armies. Atrocious cruelties are reported on the part of General Isidoro, one of the government officers, who kills women and children as a sort of pastime.

Washington, March 3.—The plan for raising the fund for the erection of a permanent apostolic delegation building in Washington is advancing favorably. Until a few days ago it lacked the approval of the pope, but as that has now been given, the clergy having the matter in charge hope to raise the sum of \$50,000 for the "delegation building" and \$150,000 to be invested so as to annually yield an income of \$6,000, the salary allowed to Monsignore Satolli by the pope. If this plan succeeds, the vatican will even then be compelled to pay out annually a large sum for the salaries of the auditor and secretary of the delegation, together with many expenses incident to the work of such a delegation. The site has not yet been selected. In this connection it is said that the Catholic church will soon have a code of laws for its government in this country, the most complete and perfect that any land has ever been favored with. For years the United States has been known as a canonical wilderness, but the time is near when it will be known as the model Catholic country of the globe.

Washington, March 3.—The Oregon Pacific case held the attention of the circuit court yesterday, and at about 11 o'clock last night Judge Fullerton decided to remove Receiver Hogg, and appointed E. W. Hadley instead. The motion of the Blair faction for a further extension of 90 days was denied, and the sheriff will again offer it to the highest bidder next Tuesday.

A Veteran and Pioneer Seriously Ill.
TACOMA, March 5.—General J. W. Sprague, a veteran of the rebellion and a pioneer of this city, is seriously ill. Physicians state that his recovery is doubtful.

Karl's Clover Root, the new blood purifier, gives freshness and clearness to the complexion and cures constipation. 25c., 50c. and \$1.00. Sold by Snipes & Kinerally, druggists.

He Worked in the Bank.

Mr. Duckleg was well educated and lived on a farm in the country but did not have the proper stay-ability to conduct a business of any kind, not even a farm. Mr. Duckleg moved to Portland, Or., and obtained work in the city as I found out one day when I met him and inquired of him what he was doing. After the usual greeting of how-do you do and so on, I asked, what are you doing now? Oh, I'm working in the bank. Yes, says I, that is pretty nice for one to leave a farm and go to such a place as Portland, and to get right into a position in a bank. Yes, he said one must have friends to do the like, and went on to say that he got good wages and that his old hayseed friends would not sneer at him if they were to meet him. I turned the corner there and soon again happened to pass near by the bank where he was at work just in time to catch him washing and cleaning a spittoon. Well, says I, Mr. Duckleg, you did not tell me what position you had in the bank. With a low muffled voice he said, I do the janitor work.

Cleveland's Reference to Finance.
WASHINGTON, March 5.—Cleveland believes he can remedy the financial difficulties now existing under the general welfare clause of the constitution. His allusion in his inaugural to the question is taken to mean that he will not allow anything to stand in his way of preventing financial difficulties. Just what the scheme is cannot be stated, but those who claim to know say that the president will act without the assistance of congress, if necessary, to preserve the credit of the country and the business and commercial relations of the people.

Cleveland's Power.
WASHINGTON, March 5.—An instance of Cleveland's power is in the agreement reached on the appropriation for the world's fair. The senate conferees had about given up when an emissary from Cleveland informed the house "kickers" that the credit of the country before the world in the Columbian exposition must be maintained, and the house yielded.

A Close Call.
Ed. Miller met with an accident Wednesday night that came near terminating fatally. He was working in the planer, on the night shift, and about 10 o'clock there being a temporary stoppage, Ed put on his overcoat. When the machinery started again, he went to work with his overcoat, a long canvas one, on. The tail of the coat caught on a set screw on the shaft of the driving wheel, and in about three seconds it gathered Ed. in, tearing his clothes off and throwing him on the main belt which carried him a short distance toward the engine room, throwing him head foremost to the floor. He received an ugly gash in the scalp which bled freely. Dr. Brosius was called and dressed the wound, and a few days will see all damage repaired, but it was a close call.

An Elopement.
Heppner Gazette.
Yesterdays train took away from Heppner B. F. Perkins and Winnie Lathrop. There had doubtless been some intimacy existing between the pair for some time, for recently Mrs. Perkins applied for a divorce which will be granted at the next term of court. Perkins leaves behind a wife and seven children, who made no effort to stop the eloping pair. Mrs. Perkins, so far as the Gazette knows, is an excellent woman and deserves the sympathy of all in her trouble. Her son has charge of a delivery business in Heppner and is an honest, hard-working boy.

A Winter Visitor.
Glacier.
Arthur Diebrow, while out hunting near Sandy Flat last week, followed a cougar's tracks in the snow until they led him to C. L. Morse's cabin. A broken window showed where the big cat had gone to, and a further examination located it on top of Mr. Morse's bed. A well directed shot settled the trespasser. Mr. Morse was not occupying the house at the time, in fact told us confidentially that had he been at home when the cougar came he would have gone out the way the cougar came in, if the door had not been more convenient.

THE NEW TOWN has been platted on the old camp ground, at the Forks and Falls of Hood river, with large slightly lots, broad streets and alleys, good soil, pure cold water and shade in profusion, perfect drainage, delightful mountain climate, the central attraction as a mountain summer resort and for the Oregon, being the nearest town to Mt. Hood. It is also unparalleled as a manufacturing center, being the natural center for 150 square miles of the best cedar and fir timber, possessing millions of horse power in its dashing streams and water falls, easily harnessed. Where cheap motive power exists, there the manufacturing will center, surrounded by soil and climate that cannot be excelled anywhere for fruit and agriculture, and with transportation already assured you will find this the place to make a perfect home or a paying investment.
