**Ivy on Walls.**  
 A friend recently called attention to a case which he thought subtended over a view that the ivy growing on walls tended to make them dry rather than damp. On looking at the case we find that the wall was covered with the Ampelopsis vitifolia, or, as it is called, Japan ivy, and that the vines had been suffered to grow over the shingle roof of the house some four or five feet from the gable end, and that the spouts and other water conduit were completely choked by this growth of vine and filling up with leaves.

It is no wonder that a house should be damp under such circumstances. It should not be forgotten that the vines on walls must never be allowed to reach the roof or clamber in the gutters, but must be confined entirely to the vertical surface of the walls on which they grow. The innumerable number of small rootlets absorbing moisture continually generally make walls so dry and hard that it has been found at times in the Old World, when necessary to take down a building, almost impossible to do so on account of the extreme hardness of the mortar, which has been kept dry for so many years through the agency of these roots. The case we have referred to shows how often a good idea may be spoiled by reason of the thoughtless manner in which the idea is carried out.—Mechan's Monthly.

Experiments in France on the velocity of propagation of electric waves give a mean velocity which is almost exactly that of light.

**Cholerae in Pennsylvania.**  
 Swickley, Penn: We had an epidemic of cholerae, as our physicians called it, in this place lately and I made a great hit with Chamberlain's Colic, Cholera and Diarrhoea Remedy. I sold four dozen bottles of it in one week and have since sold nearly a gross. This remedy did the work and was a big advertisement for me. Several persons who had been troubled with diarrhoea for two or three weeks were cured by a few doses of this medicine.

P. P. KRAPP, Ph. G.  
 25 and 50 cent bottles for sale by Blakeley & Houghton.

**Rheumatism Quickly Cured.**  
 Three days is a very short time in which to cure a bad case of rheumatism; but it can be done, if the proper treatment is adopted, as will be seen by the following from James Lambert, of New Brunswick, Ill: "I was badly afflicted with rheumatism in the hips and legs, when I bought a bottle of Chamberlain's Pain Balm. It cured me in three days. I am all right today; and would insist on every one who is afflicted with that terrible disease to use Chamberlain's Pain Balm and get well at once." 50 cent bottles for sale by Blakeley & Houghton.

**Proposals for Bids.**  
 Sealed bids will be received at the office of Crandall & Burget until noon March 20th, 1893, for the superstructure of a proposed dwelling to be built for W. L. Bradshaw on the northeast corner of Washington and Fourth streets, The Dalles, Or., according to the plans and specifications prepared by C. J. Crandall.  
 Bids will also be received at the same time and place for the mason work of the above mentioned building. Plans and specifications can be seen at the office of Crandall & Burget.  
 The right is reserved to reject any and all bids.

**Now Try This.**  
 It will cost you nothing and will surely do you good, if you have a cough, cold, or any trouble with throat, chest or lungs. Dr. King's New Discovery for consumption, coughs and colds is guaranteed to give relief, or money will be paid back. Sufferers from la grippe found it just the thing and under its use had a speedy and thorough recovery. Try a sample bottle at our expense, and learn for yourself just how good a thing it is. Trial bottles free at Snipes & Kinersly's drug store. Large size 50c and \$1.

**Mothers' Recommendation.**  
 We are acquainted with many mothers in Centerville who would not be without Chamberlain's Cough Remedy in the house for a good many times its cost, and are recommending it every day. From personal experience we can say that it has broken up bad colds for our children.—Centerville, South Dakota, citizen. 50 cent bottles for sale by Blakeley & Houghton.

**An Estray Bay Mare.**  
 Came to my place last fall a bay mare about five years old, with small white spot on right side, also white spot on left hip, star in the forehead, with some dim brand on left shoulder, weight about eight hundred pounds. Owner can have the same by proving property and paying costs. V. J. KELLY, 15-Mile creek.

 238 2d Street J. FOLCO At right side Mrs. O'harr's restaurant.

**The Gulf Stream.**

The question is often asked, To what extent does the Gulf Stream modify the climate of the United States? To its supposed erratic movements is laid the blame of every abnormal season. There is every evidence that the Gulf Stream is governed absolutely by law in all its changes. The course through the ocean is without doubt fixed. Its fluctuations are by days, by months, or seasons or by years, and they do not vary materially one from the other. Its temperature changes, depending upon the relative heat of the tropical and polar seasons, and upon the strength of the producing trade winds. The warm water may be driven toward the shore by the waves caused by a favorable wind, but the current remains in its proper place. The warm water gives off a certain amount of heat to the air above it, and if this air is moved to the land we feel the heat.

The presence of the warm water on the coast of Europe would in no way modify the climate if the prevailing winds were easterly instead of westerly. If the prevailing winds in New England in winter were southeast instead of northwest, the climate would be equal to that of the Azore islands, mild and balmy. For the cause of abnormal seasons we may look to meteorology. The current is in its place ready to give off the heat and moisture to the air whenever the demand is made upon it, but by the erratic movements of the air this heat and moisture may be delivered at unexpected times and seasons, and thus give rise to the erroneous belief that the Gulf Stream itself has gone astray.—John E. Pillsbury in Century.

The Postage Stamp Nearly 52 Years Old.  
 The postage stamp will be fifty-two years old in May. Its inventor was a printer, James Chalmers, of Dundee, Scotland, who died in 1833. England, fifty-two years ago, introduced the new system of prepaying letter postage, and according to a decree of Dec. 21, 1839, issued the first stamps, which were to be put before the public on May 6 of the following year. A year later they were introduced in the United States and Switzerland, and within three years had become common in Bavaria, Belgium and France.—Charleston News and Courier.

**The Oldest Voter.**  
 Nathaniel Laird cast his eighty-seventh vote at Oswego, N. Y., Tuesday, Nov. 2. He was born 109 years ago in Iceland and came to this country at the age of fifteen. His wife is still living at the age of seventy-nine, but they have no living children.—Exchange.
