The subject of good roads of late years has been much discussed, and we are glad that it received favorable attention at the hands of the recent legislature. There is no one thing of greater importance than good wagon roads, and any tively cures piles, or no pay required. sum is not too great to be wisely ex- It is guaranteed to give perfect satisfacpended. The road leading to Dufur and Antelope to the top of Tygh hill are probably the most important of any to be considered. At present travel that requires these roads is obliged to come around by Biggs, a great inconvenience amounting to a large loss. In the course of a year the actual loss resulting from bad roads will amount to more than the sum that would be required to make them good.

Hawaii, the present subject of so much discussion and interest, affords one of the most striking examples of the results of missionary effort. In 1819, when the first ministers of the gospel reached its shores they found a people without an alphabet and without natural affections. Three-fourths of the children born died by the hands of their own parents. Through vice and superstition a once vigorous race was fast decaying. Not even in Africa was there a field so hopeless. Today there is not a native, possessing ordinary intelligence, who cannot read and write. In its day schools are gathered a larger per afterward devour his food so voraciously its day schools are gathered a larger per cent. of the native population than the same schools in our own states can show. Sixty per cent. of the people can be found in church on the Lord's day, and many of the sons and daughters of Hawaiians have gone forth as missionaries. This mission, which from its inception to its close cost less than \$1,250,000, in a single year buys from American merchants and ports over \$6,000,000 worth of merchandise, and exports twice that much. Surely such a harvest, though in another field, may well be an inspiration to our own missionary labors, and incite to more generous giving for the carrying of the blessings of the gospel to those who "sit in darkness and the shadow of death."

The question of the suppression of indecent literature is one which should interest, and demand the active co-operation of every right-minded citizen in the land. The corporal and mental well-being of the generations yet to come, and those growing up, is imperilled by the noxious scourge, and the sconer prompt and effective measures are taken to utterly eradicate it, the sooner will the great nation to which we belong take its place in the front rank of sturdy, moral, progressive peoples. Chicago, not often the pioneer in works of this character, is at present waging a war of extermination against the publishers and venders of immoral works and prints. The crusade in the Lake city is not led by cranks or enthusiasts, but by the press and the thoughtful fathers and mothers of the city, by the mayor and most of the distinguished scholars of the western metropolis. Indecent literature is doing more to sap the character of the rising generation and fit it for vile tastes and vile practices, sensuality, grossness and corruption, than all other evil influences combined.

The secretary of state has estimates showing that the appropriations for the state institutions are lower, per capita, for the estimated number of inmates during the next two years than the lowest per capita expense ever reached in Oregon. That this is low enough is proved by the fact that Oregon's per capita expense, hitherto, has been lower than the average of the other states of the union, and lower than that of any other state of the Pacific slope. As to insane asylums, Oregon's per capita expense of subsistence was last year, out of eighty institutions recently reported, the lowest, save three, all of which are located in the southern states. The expenses there are less than in Oregon, as they require a small outlay for warm clothing and for fuel, which items form so large a part of the expenses in Oregon.

Good Looks.

Good looks are more than skin deep, depending upon a healthy condition of all the vital organs. If the liver be inactive, you have a billious look, if your stomach be disordered you have a dyspeptic look, and if your kidneys be affected you have a pinched look. Secure your health and you will have good looks. Electric Bitters is the great alterative and tonic acts directly on these vital organs. Cures pimples, blotches, boils and gives a good complexion. Sold at Snipes & Kinersly's drugstore, 50c per bottle.

proceedings were not technically legal. The razor-edge technicalities of law, we presume, again postponed. This suit against one of our oldest and best-known dry goods merchants creates considerable comment in commercial circles. It appears that Mr. and Mrs. A. S. Col-lins obtained under false pretenses and promises at the end of the year 1891, goods to the amount of \$50.90 from the defendant; but instead of paying the bill, as agreed, they shortly afterwards empanelled were E. From the Daily Times-Mountaineer of Feb. 24th. Razor-Edged Technicalities.

The case of A. S. Collins vs. H. Herbring was left the city by night and moved to California.

Last spring Mr. Herbring learned that all their household goods, etc., were in the hands of the sheriff of Wasco county, and consequently placed a second attachment upon the goods held by the sheriff. A portion of these goods were sold last December by the sheriff of Wasco county, as no

compromise could be obtained by defendant.

And now come the plaintiffs and sue through their attorney, Judge A. S. Bennett, the defendant attempts to set aside the sale and sues ant, for the sum of \$175.00. We will watch this will always remain, but it works great hard-ships on creditors, in many instances, to be de-barred from collecting their just claims from the commission of a clerical error or the misinterpretation of a dubious statutory provision.
