MARCH MELANGE.

Stray Bits of News Gathered From All Sources.

If I should die tonight
And you should come to my cold corpse and say,
Weeping and heartsick o'er my lifeless clay—
If I should die tonight
And you should come in deepest grief and woe
And say: "Here's that ten dollars that I owe,"
I might arise in my large white cravat
And say: "What's that."

If I should die tonight
And you should come to my corpse and kneel,
Clasping my bier to show the grief you fcel—
I say if I should die tonight
And you should come to me and there and then
Just even hint 'bout puyin' me that ten,
I might arise the while,
But I'd drop dead again.

Mosier is a flag station, sixteen miles from The Dalles on the U. P. system. the city. It has one inhabitant, and a transient, floating population of twenty-three, and is noted for its lack of thrift and enterprise. The town is beautifully (?) fenced in with a good, substantial rail fence, and, like Jerusalem, it has two principal gates, one on the east and one on the west. The United States postoffice is situated near the eastern entrance to the city, just outside the wall, and is slightly patronized by the elite, the bulk of the mail being handed in to the postal car as it passes.

It is as easy for a rich man to enter the kingdom of heaven as it is for a poor devil to get through these gates in the summer time, as the owner of the town seems fearful of having the gates left open, and thereby exposing the town to left.

The principal industry is carried on by the suburban inhabitants, and consists in cord wood cutting and seven-up. Euchre is too progressive. The "four hundred" have but one pastime, i. e. the fantastic. Uncle Billy Hayes, a veteran violinist of the homeopathic school, rasps the catgut for these occasions with seemingly but little sympathy for the unfortunate cat, as the graceful dancers alamand, do ce do, contra dance and swing, in harmony with the disturbed condition of the surrounding atmosphere, till broad daylight, when the boys "go home with the girls in the morning.'

But the gentle reader must not think that it is all folly and sin and vexation of spirit at this little fenced-up town.

Squire Davenport is busy in his young orchards these days, and gets the full benefit of the robin's song by being up early before the robin tires out. His Bargains place shows an air of thrift that is refreshing to the young blood; but it must send a thrill of rheumatism through the withered frame of the mossback, who must regard such a display of enterprise as a personal affront.

There are people of God here too. Last summer when I was hunting my cow I ran on to one of them.

I said to the holy man of God: "Have you seen my cow?"

He said: "Dear sinner, have you heard of these gospel meetings being held here, and of the mighty ontpouring of the Holy Spirit?"

I said: "She is a small cow, with a small bell on, and has a little calf running with her, but the calf is weaned."

He said: "Come out to these meeting and see what the Lord is doing for His people. Brother, it may do you good."
