The winter of 1893 has been unusually cold both in Europe and America. During the early part of February the Golden Horn of Constantinople was frozen over for the first time since 1854, a period of 37 years. At the same time the continent of North America, excepting a narrow strip along the Pacific coast, was frozen solid as far south as the gulf of Mexico, and the ice in the Potomac river at Washington was two feet thick .- Ex. Gold Mines on the Methow.

C. L. Richmond, whose home is in The Dalles, Oregon, arrived in Spokane last week from the Methow country, where in company with Theodore Cartright, David Graham and son, he has spent eight months. Starting from The Dalles last season they went up to the Methow country and began prospecting and before snow had fallen last fall they had located 16 gold bearing claims on Gold creek, a tributary of the Methow, which flows into that stream about 20 miles above its confluence with the Columbia. Considerable prospecting along the veins showed them to be continuous and a test of the ore showed a value of \$18.60 in gold and \$1.50 in silver.

bedrock, although they have gone down sluices very soon.

While prospecting on the north fork of Gold creek, Mr. Richmond found a few wastes in Oregon, none where flowers ore carries a large percentage of antimony and Mr. Richmond is now in corounty jail this morning. John Fitzger- rospondence with parties who are look-

ing for such property. Mr. Richmond thinks their Gold creek quartz claims are equal to any of the others and they do not care to sell, alsponded with alacrity, and when the though they have had letters from sevjailer's back was turned, just after let- eral parties asking them to name a door and succeeded in gaining his lib- will be devoted to the quartz and placer erty. This is the first escape from our properties and a portion will be devoted ter for the county for the reason that Mr. Richmond is confident they will find some valuable gold bearing lodes.

Ore, which Mr. Richmond left in our office, is from the Addaline mine and came from near the surface of an eight foot ledge. There are some 25 or 30 locations in the Methow basin, several placer properties and some valuable coal

The snow-fall was very heavy there his winter, being at one time five feet on a level, but it is rapidly disappearing. Mr. Richmond will go home to The Dalles and will return to the mines

It is hoped that the mail service will be extended from Bridgeport to some point on the Methow near the mouth of for besides several miners there are a large number of ranchers who have permanently located in the valley. Grass grows luxuriantly and pine timber abounds. The soil is very productive .-Mining Review.

### DIED.

This morning at 6 o'clock Mrs. Ida J. Mann, wife of D. W. Mann, aged 27.

The family came to The Dalles about five years ago from Canada. Mrs. Mann leaves a little boy four years old, besides the husband. The funeral will take place at 1:30 o'clock tomorrow after-

THE JUNE EXHIBIT.

Floral Department of the Oregon State
Horticultural Society.

One of the most important features of the work done by the Oregon State Horticultural Society at its annual meeting held in this city last January was the forming of a floral adjunct.

This part of their work was quite as essential as any other branch, and while pomology, etc., are practically indespensible, yet this society could do no more laudable work than that of promoting floriculture. True, we must rely upon the former to supply our temporal wants, yet there are elements in our nature that may be nourished by feasting our eyes on things of beauty, such as appeal to our better feelings, serving to elevate our lives to a higher moral standard. These beautiful gifts of nature come to us as messengers of love, peace, purity and rest.

Their commercial value also is of no small consideration. Neither should we the banks of the silent river, may they lose sight of the fact that they would become one of the leading factors in promoting the growth and prosperity of our country, as has been the case in California, by furnishing an incentive to immigration. So that any way we may view this subject it proves itself well worthy the prominence the horticultural society is giving it, an exhibition in June.

The executive committee appointed by President J. R. Cardwell to manage the affairs of the department set vigorously to work to put into execution plans for a floral exhibit to be given in this city the present season. In consideration of the fact that the Oregon Pioneers hold their reunion on the 15th of June, it has been arranged to make the time of this exhibit correspond with their dates, continuing three days, from the 14th to the 16th inclusive. They have prepared cur a very liberal list of premiums which is as follows:

The county making the best display of cultivated flowers (Multnomah accepted) -1st premium, \$50; 2nd \$25.

Professional florist making the best general display-1st, \$25; 2nd \$15. Choicest collection of roses by ama-

tures.-1st, \$10; 2nd \$5. Largest and finest assortment of pansies by amateurs .- 1st,\$10; 2nd \$5.

For the largest pansy,-\$5. Choicest sweet peas, (variety a con-

ideration,)-1st, \$10; 2nd, \$5. Finest display of potted plants-1st \$10; 2nd, \$5. Largest and handsomest Rex begonia,

Native flora pressed,-1st, \$15; 2nd \$10. Native flora fresh,-1st, \$15; 2nd, \$10.

Orchids,-1st, \$10; 2nd, \$5. The only consideration for entering an exhibit is an annual membership, requiring a fee of 50 cents for ladies and one dollar for gentlemen. The holder is entitled to the privileges of any exhibit in any part of the state during the year. This exhibition is given in the interest of every city, town hole. Abundant water and fine dump- and village in the state. The purpose is Skibbe-Edward Burke, Portland; W ing ground is afforded and a saw mill to reach all who love flowers. The state Rev. ### Our Wamie Letter.

WAMIC, Or., March 20th, 1893. Like the Athenians of old we have nothing to do but to "hear and tell some new thing." Still we have not been able to hear the new thing this week.

Our literary society adjourned last Friday evening to meet on the first Friday in September, next. The concluding entertainment last Friday, was a about April 1st with horses and sup-splendid play, entitled "The Egyptian Mummy," The characters were remarkably well sustained, especially the mummy. The troup received the most flattering congratulations from the enrapt-Gold creek during the coming season, ured audience, and of the dramatist and practical tragedians who did the training, we would say "well done" etc.

> Mr. William Mayfield is thinking of building a residence in our town, in order to give his children better school advantages.

A number of the pupils of the deestrick skule were absent last evening on account of the inclement weather. The master, Judge Bradshaw, will be ready to hear recitations this evening at 8 o'clock in the basement of the M. E. church, and all pupils had better be present, or they may suffer the conse-

## For Rent.

A nicely furnished room in good location with or without board. Apply at this office.

We have received a letter from Mr. H. announcing the death of their little girl, May, nearly four years old, mention of parents are heart-broken, they are resigned to the Divine will.

From the standpoint of poor humanmaterial, death seems to be a sad calamspringtime of life, standing just upon its threshold; a wee prattler, unconscious alike of the joys and sorrows of earthly existence, it seems unnatural. Nothing can be said to assuage the present grief of the parents; like Rachel, weeping for her children and would not be comforted because they were not, the image of their little one will recur to them throughout the years to come; but when finally, wearied with the sor rows of earth, they themselves approach be welcomed by a little bark from the other side, driven by their child, now the deathless spirit-little May.

#### WEATHER COMPARED. U. S. Department of Agriculture Wea-

ther Bureau

PORTLAND, March 20, 1893. The chief of the Weather Bureau directs the publication of the following data, compiled from the record of observations for the month of April, taken at this station for a period of 21 years. TEMPERATURE.

TEMPERATURE.

Mean or normal temperature, 53.2°.

The warmest April was that of 1886, with an average of 55.4°.

The coldest April was that of 1892, with an average of 49.0°.

The highest temperature during any April was 85 on the 28th, 1896.

The lowest temperature during any April was 28 on the 7th, 1875.

Average date on which last "killing"2 frost occurred (in spring), on the 11th.

FRECIPITATION (rain and melted snow).

Average for the month, 3.21 inches.

Average number of days with .01 of an inch or more, 15.

Average number of days with .01 of an inch or more, 15.

The greatest monthly precipitation was 7.85 inches in 1883.

The least monthly precipitation was 1.12 inches in 1885.

The greatest amount of precipitation recorded in any 24 consecutive hours was 1.34 inches on the 2d, 1883.

the 2d, 1883.

CLOUDS AND WEATHER.

Average number of cloudless days, 6.

Average number of partly cloudy days, 10.

Average number of cloudy days, 14.

WIND.

The prevailing winds have been from the south.

The highest velocity of the wind during any
April was from the southeast, 40 miles on the
2th, 1892.

B. S. Pague, Observor.

"The people of this vicinity insist on having Chamberlain's Cough Remedy and do not want any other," says John V. Bishop, of Portland Mills, Indiana. That is right. They know it to be superior to any other for colds, and as a preventive and cure for croup, and why should they not insist upon having it. 50 cent bottles for sale by Blakeley & Houghton, druggists.
