TERRIBLY MIXED.

The Dispatch says there can be no doubt but what the last legislature mixed up things generally. One of the most important acts passed is the assessment laws, and now the assessors are studying what their duties are under the new order of things. They have one opinion and in the case of this county, as well as others, the judges and county courts have another. It is feared that the assessment may be made so that it will become invalid and then there would be no money to run the state, county, school or any other branch of our government. The law does not contemplate double assessment, yet it says that no indebtedness shall be deducted. If a man has a farm and he borrows \$5,000 on the property, gives his note and a mortgage, the party holding the note must pay on it as well as the borrower, which makes double assessment, unless the assessor sees fit not to assess the note. The fact of the matter is, the law, if correctly interpreted, has made exemption of evidences of indebtedness and virtually brought the assessment to a single standard, on real and personal property, carefully shielding money. When the merits of the new tax law are better understood and compared with the old mortgage tax law, the farmers, small property-owners, who are borrowers, will find that they have made a very serious mistake in the changed condition of affairs, and instead of relieving them they will be called upon to pay all the taxes and money or other evidence of indebtedness will go scot free. The new order of things, with the very extrayagant appropriations of late session, make the honest tax-payers carry a much heavier burden than they had un-

Burgard, of the lower house of the Kansas legislature, has given a sensational account of his experience in connection with attempts at bribery in the election of United States senator in that state. He says the proposition was made to him to stay away from the populists, and to get two others to do so for \$7,500, and he was given to understand the money would come from Watson, who was said to have a barrel of money to spend, and everybody was trying to get his shovel into the pile. Burgard says he made up his mind, as the gang was trying to rob Watson, he would turn in and rob the gang. He told the man who made the proposition that he (Burgard) and two other men whom he named would not vote at all, though, of course, he intended to vote for Martin when the time came, as did the other two. They merely wanted to get hold of the money and then let the other fellows whistle, but the lobbyist would not trust him with the money, nor would he trust the man [whom Burgard arranged to hold the money and bolt as soon as he got it. So the matter fell through.

der the old law.

A movement is on foot for the establishment of a road department at Washington designed to improve the roads of the country for the convenience of those who use them. During the past four or five years this subject has been attracting a good deal of attention and has made a degree of headway that assures it a support from a strong public sentiment. If the people of this country expect to have better roads, for there is little doubt that they want them, they must turn to and substitute action for talking. If half the energy up to this time expended in swearing at the disgraceful clearings called roads had been used in one vigorous united protest to highway bodies, we should have roads today approaching those laid out in every other civilized country.

Another expedition for the exploration of Greenland and the Arctic regions is planned to leave in the early summer. At its head is Lieutenant R. E. Peary, of the United States navy, who but recently returned from a trip to that frigid country. He is now making a lecture tour of the states, with the proceeds of which he expects to pay the

expenses of his next trip. He will finish his lectures about May 1st, and will go to Europe, where he will lecture in all the larger cities. It is expected that the expedition will start on the northern journey between the 15th and 30th of June, reach camp about the last of July, and be absent in all about two years. The party will be a small one, numbering only about ten men.

These figures represent the number of bottles of Dr. King's New Discovery for consumption, coughs and colds, which were sold in the United States from March, '91 to March, '92. Two million, two hundred and twenty-eight thousand, six hundred and seventy-two bottles sold in one year, and each and every bottle was sold on a positive guarantee that money would be refunded if satisfactory results did not follow its use. The secret of its success is plain. It never disappoints and can always be depended on as the very best remedy for coughs, colds, etc. Price 50c. and \$1.00. At Snipes & Kinersly's drug store.

Notice of Dissolution.

Notice is hereby given that the co-partnership existing under the firm name of Davey & Linton in this city, dissolves by mutual consent, and any and all debts against the said firm will be settled by John Linton, and all out-standing debts will be collected by him. JOHN LINTON, W. M. DAVEY.

Shiloh's cure, the Great Cough and Croup Cure, is for sale by Snipes & Kinersly. Pocket size contains twenty-five doses, only 25c. Children love it. Sold by Snipes & Kinersly.

Hits the nail on the head -one of Dr. Pierce's Pleasant Pellets. They do the right thing in the right way. They cleanse and regu-late the liver, stomach and bowels—thoroughly and effectively, but mildly and gently. They persuade, rather than force. One tiny, sugarcoated Pellet's a gentle laxative; three to four act as a cathartic. They're the smallest, but the best. There's less to take, but there's more good in it, when it's taken. They're the original Little Liver Pill, and they've never been equaled. Sick Headache, Bilious Headache, Constipation, Indigestion, Bilious Attacks, and all derangements of the liver, stomach and bowels, are prevented, relieved, and cured.

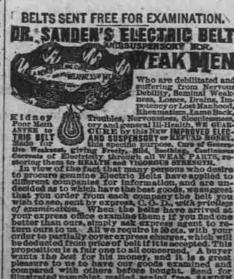

They're the cheapest pill you can buy, because they're guaranteed to give satisfaction, or your money is

VINANS

HE NEW TOWN has been platted on the old camp ground, at the Forks and Falls of Hood river, with large sightly lots, broad streets and alleys, good soil, pure cold water and shade in profusion, perfect draigage, delightful mountain climate, the central attraction as a mountain summer resert and for all Oregon, being the nearest town to Mt. Hood. It is also unparalled as a manufacturing center, being the natural center for 130 square miles of the best cedar and in timber, possessing millions of horse power in its dashing streams and waterfalls, easily harnessed. Where cheap motive power exists, there the manufactories will center, surrounded by soil and climate that cannot be excelled anywhere for fruit and agriculture, and with transportation already assured you will find this the place to make a perfect home or a paying investment
