IMPERSONAL MENTION.

In Pennsylvania a man has been fined \$1,000 for calling another a "Molly Maguire."

A Michigan man quit smoking on the 18th of January this year, and in one week's time he claimed to have gained four pounds of flesh.

A French merchant, the victim of several defaulting cashiers, now advertises for "a cashier as honest as possible and paralyzed in both legs."

There are now living within a radius of ten miles of Ashland, Me., eight American women who are the mothers of one hundred and two children, eighty of whom are living in the enjoyment of good health and sound minds.

The strongest recommendation that any article can have is the endorsement of the mothers of the town. When the mothers recommend it you may know that that article has more than ordinary merit. Here is what the Centerville, South Dakota, Citizen says editorially of an article sold in their town: "From personal experience we can say that Chamberlain's Cough Remedy has broken up bad colds for our children. We are acquainted with many mothers in Centerville who would not be without it in the house for a good many times its cost, and are recommending it every day." 50 cent bottles for sale by Blakeley & Houghton, druggists.

LOOK OUT FOR Fresh Paint!

W. C. GILBERT hereby sends his compliments to every friend and enemy—if he has any—be they few or be they many.

The time for painting now has come, and every one desires a home that looks fresh and clean and new, as none but a good painter can do. Painting, papering and glazing, too, will make your old home look quite new. He will take your work either way, by the job or by the day.

If you have work give him a call. He'll take your orders, large or small.
Respectfully,

W. C. GILBERT,

PASSING FANCIES.

The Florida coast has a floating hotel, which moves from place to place wherever the best fishing happens to be. Mrs. Johnson's home for cats at Buena Vista, Cal., is a splendid country mansion, fit for a millionaire's residence, to which 8,000 acres of grounds are attached.

Mrs. EUGENE CLARKE gave a dog party the other day, at her residence in New York, in honor of the birthday of her dog, and twenty canines that attended were treated to a repast of sliced chicken, game pie and ice cream.

Since jeweled fillets became the rage among rich women New York jewelers have produced many fabulously expensive things of this sort. Regular coronets are not uncommon, and one jeweler had made to order for a New York woman a reproduction of one of Queen Victoria's crowns, an elaborate affair of gold enriched with handsome work and jewels.

SAGE SAYINGS.

Nobody can become rich by never giving away anything.

The best workers are those who have learned best how to rest.

The man who never praises his wife deserves to have a poor one.

The first man to can tomatoes was the late Harrison W. Cooper, and they were sold at fifty cents per can. This was in 1848.

Tucson, A. T., is said to be the oldest city in the United States. An old Spanish land grant issued in 1553 has recently been unearthed.

In 1704 the house of representatives of Massachusetts ordered that the debates at their sessions should be open to the public ear, and that a gallery should be built in their chamber for the accommodation of the public.

In 1891 the province of New York was redivided into ten counties, namely, New York, Westchester, Ulster, Albany, Dutchess, Orange, Richmond, King's, Queen's and Suffolk. Cornwall county in Maine and Duke's county in Massachusetts, forming a part of the domain of New York, were transferred to those colonies under its new charter.

FACTS IN ASTRONOMY.

The nearest fixed star is 21,000,000 miles from the earth.

The moon is without water, and destitute of an atmosphere.

Some of the stars move with a velocity of fifty miles a second.

The fixed stars are suns and each may have its own planetary system.

There are twenty stars of the first magnitude and seventy of the second.

The fixed star second in distance is 63,000,000,000 miles from the earth.

To the naked eye 3,000 stars are visible; the best telescopes show 3,500,000.

The fixed stars are of all colors, violet, blue, green and red predominating.

The planets Venus and Mars most nearly resemble the earth in climatic conditions.

There are stars whose diameter is greater than that of our whole solar system.

The tail of a comet is believed to be matter similar to that contained in the nebulae.

The strongest telescopes bring the moon to an apparent distance of one hundred miles.

The sun's volume is 1,467,124 times that of the earth, and 600 times greater than all the planets.

KANSAS WIT AND WISDOM.

A THEORY works all right until you try it.

NO MAN is old enough to know some things.

WOMEN admire nature until it shows itself in a man.

EVERY time people talk love they try to pass their brass money as gold.

THE more worthless a man is the more he likes to sit and spit on a hot stove.

EVERY man tells his children that they must not do lots of things he does himself.

IN love affairs, men make too wild statements and women are too wild in believing them.

EVERY man makes a little money grating horse-radish until he begins putting turpentine in it.
