A. M. WILLIAMS & CO

LOOK OUT FOR Fresh Paint!

W. C. GILBERT hereby sends
 His compliments to every friend
 And enemy—if he has any—
 Be they few or be they many.
 The time for painting now has come,
 And every one desires a home
 That looks fresh and clean and new,
 As none but a good painter can do.
 Painting, papering and glazing, too,
 Will make your old house look quite new.
 He will take your work either way,
 By the job or by the day.

If you have work give him a call,
 He'll take your orders, large or small.
 Respectfully,
W. C. GILBERT,
 P. O. Box No. 3,
 THE DALLES, OR.

EDISON LIGHT TOWER

The Wizard's Display in the Electricity
Building.

WILL BE A BLAZE OF GLORY

The Tower Will be Eighty-Two Feet
High and Have 18,000 Lights
Strung on It.

CHICAGO, March 30.—Thomas A. Edison has kept very quiet about his plans for a show in the electricity building. His silence, in the face of persistent queries, has been so profound that some one started a much-believed rumor that the great electrician would make very little display. Part of the space marked "Edison" on the blue prints of the building is a circle in the exact center of the main floor, where the great display is supposed to culminate. Today a group of carpenters and scaffold-builders walked into the building, started in on a pile of lumber near the Edison circle and proceeded to occupy all the room inside the round white ring the surveyors had marked out. The lumber took the shape of a church spire and climbed well up toward the roof, and the curious began to ask what form it would finally assume. One of these inquisitors sauntered up to the office of the General Electric Company and asked Lieutenant Spencer, who knows all about the world's fair end of the company's business, what Mr. Edison was having constructed. "That," responded the lieutenant, "is the Edison Tower of Light—he spells it with capitals, and it will be an amazingly beautiful thing. The tower is 34 feet in diameter, 82 feet high and will have 18,000 lights strung on it. A blaze of glory! It's a regular burst of condensed sunlight. When the man from the prairies puts his head inside the door at night and sees that tower he'll think the whole show is afire."

A Veteran Fireman Dead.

SAN FRANCISCO, March 30.—David Scannell, for many years chief of the San Francisco fire department, died suddenly this morning, aged 73 years. He was sitting in a chair in the engine-house on Bush street at 9 o'clock, reading a paper. Suddenly his head dropped and he was dead. His death was due to kidney and liver troubles, from which he had been ailing some time.

Scannell has always been foremost at a fire and has had many narrow escapes from death. He received many injuries during his career as a fireman, but always managed to pull through. Although sick for weeks, he remained at work and was on duty when the final summons came. The fire bells of the city tolled all morning in his honor.

Naval Officer to Wed a Chinese Lady.

SAN FRANCISCO, March 30.—Commander Whiting, of the United States steamer Alliance, frankly says that his engagement to Miss Etta Ah Fong, the beautiful and accomplished daughter of a wealthy Chinese merchant of Honolulu, is a fact. As to when the wedding is to take place, the prospective bridegroom cannot say. Naval officers must get married when they can. The Alliance is now being fitted up for a year, which probably means that she will spend the summer in Behring sea, next winter in the south, and then go out of commission. Whiting is 50 years of age, while his bride-elect is 19.

Nominations.

WASHINGTON, March 30.—The president sent to the senate the following nominations:

Thomas F. Bayard, of Delaware, ambassador extraordinary and plenipotentiary to Great Britain.

J. D. Porter, of Tennessee, minister to Chili.

J. A. McKenzie, of Kentucky, minister to Peru.

Lewis Baker, of Minnesota, minister to Nicaragua, Costa Rica and Salvador.

P. M. Young, of Georgia, minister to Guatemala and Honduras.

Edwin Dun, of Ohio, minister to Japan.

John M. Reynolds, of Pennsylvania, assistant secretary of the interior.

Members of Parliament Frightened.

OTTAWA, Ontario, March 30.—A sensation was caused here today when it was reported about the house of commons that a fashionable resort had been raided last night, and that a number of members of parliament would be called as witnesses to prove the character of the house. In the court yesterday morning the chief of police said that the establishment was supported by members of parliament, and the magistrate advised him to summon them to give evidence. A conviction of the keeper

of the house was secured, however, without this testimony. The chief of police says that the legislators implicated only escaped a summons by one of the inmates, a married woman, promising to enter the Good Shepherd's home.

A Clever Medical Fraud.

SACRAMENTO, March 30.—The police are looking for a clever fraud who styles himself Dr. Craner. He arrived in this city about a week ago and learned the addresses of a number of sufferers from rheumatism. He made the rounds and represented that he would cure each of them for \$10, and in case his remedy failed he would not accept a cent.

After ingratiating himself into the confidence of his victims, he demanded \$1, which he claims is to prepay express charges on the medicine. A few days later the victim receives a bottle which contains a liquid resembling muddy water, with instructions to take one tablespoonful three times a day. The "doctor" then visits his victim and endeavors to make him believe that he is cured, except that it is necessary for him to remain in bed for a short time to enable the remedy to "eradicate all symptoms of the dreaded complaint."

This morning ex-Chief of Police Dillman received a letter from Constable Newby, of Dixon, warning him to look out for Craner. He writes that he has been looking for the fraud, whom he describes as being about five feet eight inches in height, wearing a dark coat, with a low-cut vest. He has small side whiskers and a goatee. The letter concludes: "I understand he has a testimonial purporting to come from Mrs. S. G. Little, a banker's wife, to the effect that he has cured her and received \$800. This is false, and the testimonial is a base forgery."

World's Fair Workmen May Strike Next Week.

CHICAGO, March 30.—Many of the contractors at the world's fair grounds are looking forward with a great deal of uneasiness to next Monday, April 3d. An edict has gone out among the labor organizations that after that day only union workmen will be employed on the world's fair jobs, and if contractors do not pay heed to this order there will follow a strike. It refers more particularly to 10 carpenters. Their union here is weak, compared with the bricklayers' and some others, and there being but 30 days left in which to finish the hundreds of exhibit pavilions and concessionary stands and not nearly enough carpenters to supply the demand, they think it is a good chance to strengthen their union. In case of a strike many buildings cannot be finished, and about the only thing left for the contractors to do is to get their men into the union.

Worth Thousands and Begging.

ST. PAUL, March 30.—An old man who gave his name as Joseph Sutter was arrested today while begging in the streets. At the station he was searched and there was found two pocketfuls of silver, \$165 in bills, a bank-book showing a balance of \$1,500 to his credit and certificates of deposit on New York banks for over \$20,000. A book was found containing papers and letters in German and patent-right papers in German and English showing that he is the inventor of a successful tide and river motor. The papers were made out to Joseph Sutter, No. 200 Worth street, New York. He has traveled on foot all the way from New York, he says, and that he has been arrested twice before, once in Chicago and once in Buffalo. He admitted that he was begging on the streets, but would give no reason for it. It is thought that he is suffering from mental aberration.

He Wanted Money.

NEW YORK, March 30.—The steamer Saginaw brings news that President Heurieux, of San Domingo, on March 4th visited the French bank at San Domingo City, broke into the safe and took \$62,000 in cash. He attempted to leave for Monte Christo, but was prevented by two French men-of-war, who demanded reparations and an indemnity of \$100,000. The United States ship Kearsarge was in port at the time.

A Diabolical Murder.

PINE BLUFF, Ark., March 30.—News is just learned of the diabolical murder of Phil Gardner, at Sherrill. The murderers left a note on the body saying: "C. O. D., collect three months' board. Dr. Sherrill, keep your man at home and he will not get lost." They poured alcohol over him before killing him and set him on fire. Burns were discovered all over the tortured body. Three men and three women were placed in jail this morning, charged with the murder. Two more are under surveillance.

Cholera Again in St. Petersburg.

ST. PETERSBURG, March 30.—Cholera has again appeared in this city. It is known fatal cases are of daily occurrence. It is thought the authorities will not resume the policy of last year of making a regular daily announcement of new cases and deaths. All news is suppressed. There are disquieting rumors as to the situation in the interior. Sanitary stations in the Volga provinces, where the disease created great ravages last year, have been reopened. Special steamers with sanitary officers cruise the Volga to pick up cholera patients. It is believed the government has grave secret information.

The Behring Sea Dispute.

WASHINGTON, March 30.—The cases and counter-cases of the United States and Great Britain, under the treaty to arbitrate the Behring sea difficulties between the two countries, were simultaneously sent to the United States today and to the house of parliament in London. Briefly stated, the case of the United States is that all the rights of Russia in respect to the seal fisheries in Behring sea, as to the water boundary established by the treaty of March 30, 1867, between that nation and the United States, and all power and authority possessed and asserted by Russia to protect said rights, passed unimpaired to the United States under that treaty; that the United States has such property and interest in the Alaskan seal herd as to justify the employment of such means as are responsibly necessary to prevent the destruction of such herd, and to secure the possession and benefit of the same to the United States, and that all acts and proceedings of the United States, done and had for the purpose of protecting such property and interest, were justifiable and stand justified, and that compensation should be made to the United States by Great Britain by the payment of the amount of losses to the United States, or such other sum as may be deemed to be just.

The case of Great Britain, on the other hand, is that Behring sea is an open sea, in which all nations have a right to fish. It is asserted that Great Britain has throughout been favorably disposed to the adoption of general measures for the control of the fur seal fisheries, should these be found to be necessary and desirable with a view to the protection of fur seals, provided that such measures be equitable and framed on just grounds of common interest, and the adhesion of other powers be secured as a guarantee of their continued and impartial execution.

Both parties file claims for damages—the United States for losses to its revenue and on account of losses to the Alaskan Commercial Company, because of the reduced number of skins taken, owing to the diminution of the herd by the pelagic sealing of British vessels, and Great Britain on account of losses to owners of vessels by the United States.

The Trip of the Portland Girl.

ST. LOUIS, March 29.—Miss Edith Day, who is circling the country against Miss Doolittle, reached here this evening from Washington, leaving later on the Iron Mountain for the city of Mexico, where she expects to meet Miss Doolittle Monday.

Judge Dedy's Successor.

WASHINGTON, March 29.—President Cleveland discussed with some Oregon democrats today the appointment of a district judge to succeed the late Judge Dedy. The impression prevails here among those who claim to know that L. L. McArthur will be appointed in a few days.
