OREGON AT THE WORLD'S FAIR.

The following is a list of the superintendents of the different departments of 'the world's fair' commission. Anyone who has anything to exhibit should correspond with the proper officer, one of the following: W. F. MATLOCK, department of agriculture, forestry and forest products, and live stock; P. H. BROWN, department of mines, mining and metallurgy; Asst. Secy.

FRIDAY, - - - - MAR. 31, 1893

The Atlanta Herald fears that Georgia is becoming a national joke. "Even the names of our people," it says, "are seized upon for the amusement of the northern readers. Hoke Smith's name has been a godsend to these fellows, and Tinney Rucker, Pod Dismuke, Dink Batts, and the rest are furnishing any amount of fun up north. Can we not get away from this sort of thing? Let us not call Atlanta the Cracker city, and let us not call our friends and relatives pet names in the papers. Don't let's have so much 'Bud,' and 'Sis,' and 'Shug,' and 'Pod' and 'Dink.' Out upon all such! In other words, avaut!"

There is in Spain a river called Tinto, which has very extraordinary qualities. Its waters, which are as yellow as the topaz, harden the sand and petrify it in a most surprising manner. If a stone falls in the river and rests upon another they both become perfectly united and conglutinated in a year. It withers all the plants on its banks, as well as the roots of trees, which it dyes of the same hue as its waters. No fish live in it.

Now that impenetrable armor has been discovered, there is a call for a shell that will penetrate it, and tests will soon be made on the government proving grounds. This recalls to the Astorian the old definition of the science of fortification. "Fortification," said a learned professor, "is the art of making a place impregnable and then showing how to take it."

The San Jose scale is reported quite thick in some of the Snake river orchards, and unless prompt measures are taken against the pest much damage will ensue. The codlin moth has also been found along the river. Orchardists are preparing to wage a vigorous war upon these pests.

They are just picking up gold out in Josephine county. One nugget was found containing \$375. It has been on exhibition in the bank at Grants Pass for several days. Last Friday another was found in the same gulch containing \$230. If this keeps up Josephine county will be famous.

Portland is congratulating herself over the re-establishment of S. H. Clark as president of the Union Pacific. Mr. Clark is a man of liberal views and his friendship for the whole Northwest is unquestioned.

The water supply of Honolulu is miserable. The only wholesome water that is had in the city is brought long distances from the mountains, and this can be enjoyed only by the wealthier classes.

The Rush Continues.

WASHINGTON, March 30.—There were no signs of a letting up in the rush of office-seekers at the white house today. They came early and stayed late, and some would have stayed all night if the opportunity had presented.

"But, Mr. President, what are you going to do with the slates congressional delegates are fixing up for the distribution of local patronage?"

"I am going to smash them."

This is the question reported to have been put to the president by a congressman and the reply of the president. To make the matter a little clearer, the congressman learned that while the Alabama delegation has decided to abandon its slate, before agreed upon. This lead will be followed by other delegations, with the result probably that the contest for office will become a free-for-all race and each candidate will run on his merits. This will probably be satisfactory to many congressmen, for it will relieve them of considerable responsibility.

BOOKS AND AUTHORS.

The public libraries of all Europe contain 21,000,000 volumes; those of America, 50,000,000 volumes.

QUEEN VICTORIA, when young, had poetic ambition. Under an assumed name she sent to a London publisher enough verses to make a book. They were promptly "returned, with thanks."

MR. CHARLES HENRY PEARSON, an Englishman, has written a book in which he claims to have proved that the great races of the world are losing ground, and that the Chinese, Hindus and South American half-breeds are the coming leaders of civilization.

MRS. MODJESKA's last meeting with Lord Tennyson was most pathetic. She accompanied him from London to his country house. After dinner he read a portion of "In Memoriam" to her, and she was so overcome with emotion that she knelt at his feet and kissed his hand. Lord Tennyson at the time said he had never received more sincere praise.

Deserving Praise.

We desire to say to our citizens, that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Bucken's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, as we stand ready to refund the purchase price, if satisfactory results do not follow their use. There remedies have won their great popularity purely on their merits. Snipes & Kinerly's druggists.

STEPHEN A. DOUGLAS on one occasion was able to give utterance to a historical retort. After some one had been assailing him in the senate by the most severe personal denunciation Douglas rose and said: "What no gentleman should say no gentleman need answer."

Can't be found—the equal of Dr. Pierce's Golden Medical Discovery. If other medicines of its class were like it, they'd be guaranteed. This is. If it doesn't benefit or cure, in every case for which it's recommended, you get your money back. I isn't a "cure-all," but it does cure all diseases arising from a torpid or deranged liver, or from impure blood. For all Scrofulous, Skin and Scalp Diseases, it's a positive remedy. Even Consumption, or Lung-scrofula, is cured by it, if taken in time and given a fair trial. That's all that's asked for it—a fair trial. Then, if it doesn't help you, there's no pay.

We claim it to be an unequalled remedy to purify the blood and invigorate the liver. We claim it to be lasting in its effects, creating an appetite, purifying the blood, and preventing Bilious, Typhoid and Malarial fevers, if taken in time. The time to take it is when you first feel the signs of *vacillancy* and *weakness*. By druggists.

WINANS

THE NEW TOWN has been platted on the old camp ground, at the Forks and Falls of Hood river, with large sightly lots, broad streets and alleys, good soil, pure cold water and shade in profusion, perfect drainage, delightful mountain climate, the central attraction as a mountain summer resort for all Oregon, being the nearest town to Mt. Hood. It is also unparalleled as a manufacturing center, being the natural center for 150 square miles of the best cedar and fir timber, possessing millions of horse power in its rushing streams and waterfalls, easily harnessed. Where cheap motive power exists, there the manufacturing will center, surrounded by soil and climate that cannot be excelled anywhere for fruit and agriculture, and with transportation already assured you will find this the place to make a perfect home or a paying investment
