Kreft Becomes Warmed Up Over a Proposition Submitted by Joles ---

The City Assessment.

The regular monthly meeting of the city council occurred Saturday night, present Mayor Mays and Aldermen Joles, Kreft, Haight and Wood; absent

Lauer and Williams. After reading of minutes, permission was given to Hon. J. M. Huntington, who was in waiting, to address the council with a petition. It was for a new franchise for the Electric Light Company, being precisely like that passed February 6th, 1892, which had legally expired, by default of that company filing articles of incorporation. Mr. Huntington said that it is the intention of the company to soon expend \$8,000 for new machinery and appliances and they wish to incorporate and have the benefit of a franchise, unquestioned by

upon motion. A report was read from the commitmatter of making an equitable assessment for the Laughlin street sewer. The committee said that they could adopted by the city," and a second one property committee employ a surveyor, who shall ascertain what lots on Laughlin and Washington shall be tributary. Pending decided action, the defective wooden sewer in block 9 should be kept in as good repair as possible. The sewer problem is one of the knotty ones now

under discussion by the council. A complaint was then recited by Ald. Haight about the cistern at Skibbe's corner, it appearing that it is in an unsafe condition and, as Ald. Joles facetiously pushing flatwise across one end, about observed "fenced in and looks like a pigpen." Referred to committee on streets and alleys.

Before reading them be said, as a preamble, that there was considerable grumbling from taxpayers about excessive city taxes, and he proposed to retrench by having the recorder draw up an ordinance, with the salaries per month as above stated, saving something like \$1,400 per year. This proved to be the hit of the evening. The street commissioner was thrown off his guard to the extent of forgetting the dignity of the presiding officer and ejaculated: "I'll expect to get coffee five pounds for a dollar then." Ald. Kreft, who may be said to be the impulsive member of the council, quickly arose and denounced the scheme with considerable warmth. more than earns the salary he was now getting by his faithful devotion to duty building, came in today from Reed's and estimable work. The trouble was adjusted in a Mr. Kreft, "it is frequently that he gives the council legal advice, which would otherwise necessitate the expend- Bargains iture of a good many dollars." As to the street commissioner, Mr. Kreft said that the present incumbent was willing to take off his coat and do a good day's work with the crowbar and shovel himself. It is evident that Mr. Kreft is observant and he was assuredly "worked up." The motion prevailed to draw up

the ordinance. Street commissioner ordered to put in a cross walk on Eleventh street to
