MONDAY, - - - - APR. 10, 1893

OREGON AT THE WORLD'S FAIR.

1893), department of woman's work, comprising the fine arts, hous hold economy and products ley & Houghton.

thereof.

E. B. Mcklroy, department of education, including educational exhibits, literary, special, general, music, etc.; Salem.

GEO. W. McBRIDE, department of civil government, including state and county; Salem.

Congressmen are mortified by the slowness with which their applications about a pint of boiling water, then set for appointments have been granted and it away from the fire for about five the lightness of what they had supposed minutes.-Farming World. to be their heavy-weight influence, but they are reluctantly disposed to grant President Cleveland the credit of running a strictly business administration. Ample evidence of his disposition to lop off all superfluities and bring the cost of operating the government machinery to as low a total as is consistent with effectiveness is furnished by various removals in the several departments made under his instructions. The trouble to the congressmen is that these removals do not mean vacancies. The places are simply wiped out of existence, and nothing is left for the democrat who stands and gazes blankly at the spot where something was but a moment before and now nothing is. Some of them go as far as to call it a penny-wise-and-poundfoolish policy, but that does not help matters any, and does not meet with much approval from people who are not seeking office.

There it goes again. The Hood River Glacier is the latest to kick over the traces. The Glacier says in its last issue: "We have received a clipping from the Oregonian that would about fill one of our columns, with a note of two words: 'Please publish.' The clipping was headed 'World's Fair,' but does not mention anything except 'Mr. Myers.' It is passing strange that the legislature cannot provide for creating a commission so that it will not be at once headed by a damphool. This lump of concentrated gall, Myers, asks us to give him a column in which to remark that 'Mr. Myers has been to Chicago, Mr. Myers has returned from Chicago, and Mr. Myers expects to go back to Chicago.' It don't go. Mr. Myers can go to Hel-ena."

The Spokane Review has received a number of letters censuring Rev. Nelson Clark for his course in advising his daughter to discontinue the attentions of E. Ross Smith. The Review very sensibly coincides with the father of the murdered girl adding that the frightful deed of the murderer and suicide was "demonstration of the correctness of the father's estimate of the character of the young man sulng for his daughter's hand in marriage." If the romanticallydisposed youth had survived by five years this particular period of his adolescence there is little chance that he would have been the author of a tragedy. But that does not alter the conclusion that since he did so he was afflicted with mania, differing only in its greater intensity from that common to 18 to 20-year-oldings.

In 1788 Messrs. Phelps & Gorham secured 6,000,000 acres of land, including all of Western New York, at about four cents an acre. A few years later the Holland Land company purchased the land between the Genessee and Niagara rivers, and Joseph Ellicott selected the site for the present city of Buffalo. In M.A. GUNST & CO 100 years it has grown from a vast wilderness, with but one white man, to one of the finest cities in the world, with a population of 300,000. A pretty good sample of American progress, this.

The numerous late mining finds in various sections give promise that Oregon may be the leading mining state. It is probable that less attention has been given to Oregon by miners than any other Western state, and if the number of prospect holes with which California and Nevada are punctured were a feature of Oregon, it is probable that the output would closely approximate that of either of these famous goldproducers.

The national meeting of state boards of health at New York resulted in a division of the different districts, as being better for handling the cholera question, since the same rules will not apply for the best methods in all alike. The surgeon-general of the marine service will make a thorough investigation into the present condition of affairs in Russia, which is now so artfully covered up by the czar and his officials.

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by Snipes & Kinersly.

In many countries the rainbow is spoken of as a great bent pump or sy-phon tube, drawing water from the earth by mechanical means. In parts of Russia, in the Don country, and also in Moseow and vicinity, it is known by a name which is equivalent to "the bent water pipe."

The following is a list of the superintendents of the different departments of the world's fair commission. Anyone who has anything to exhibit should correspond with the proper officer, one of the following:

W. F. MATLOCK, department of agriculture, forestry and forest products, and live stock; Pendleton.

C. W. A. V. F. S. C. W. A. Pendleton.
C. W. AYERS, department of mines, mining and metallurgy; Ashland.
DR. J. R. CARDWELL, department of horticulture, including floriculture and viticulture; first application, and by using it regu-Portland.

GEO. T. MYERS, department of fishing and fishing apparatus, manufactures, electrical and mechanical inventions; Portland.

MRS. M. PAYTON, Salem, (until July 1, 1893) and MRS. E. W. ALLEN, Portland, (after July 1, 1893), department of works and the property of works and the property of works and the property of works are property of the property of works are property of works and the property of works are property of works are property of works. Minn. 50 cent bottles for sale by Blake-

> THE white of an egg though containand indigestible by cooking. But as it it is unpalatable when raw, the best way to prepare it is to put the egg in

Two doctors of an Eastern town, To learning much inclined, Were called to see a gentleman, Whose health was undermined.

Whose health was undermined.
The first one used his stethoscope
Upon his patient meek.
"I find," quoth he, "one lung is gone;
You cannot live a week."
To this 'he other wise M. D.
Vehemently objected.
"I see," quoth he, "as all may see,
Your kidneys are affected."

These wise was argued long and long.

These wise men argued loud and long, Yet the patient owes recovery (Not to those doctors, but to— Pierce's Golden Medical Discovery).

Pierce's Golden Medical Discovery).

There are some patent medicines that are more marvelous than a dozen doctors' prescriptions, but they're not those that profess to cure everything.

Everybody, now and then, feels "rundown," "played out." They're the will, but no power to generate vitality. They're not sick enough to call a doctor, but just too sick to be well. That's where the right kind of a patent medicine comes in, and does for a dollar what the doctor wouldn't do for less than five or ten.

than five or ten.

We put in our claim for Dr. Plerce's Golden Medical Discovery.

We claim it to be an unequaled remedy to purify the blood and invigorate the whole services.

system.

It's the cheapest blood-purifier, sold through druggists, no matter how many doses are offered for a dollar.

Why? Because it's sold on a peculiar plan, and you only pay for the good you get. Can you ask more?

The New Town has been platted on the old camp ground, at the Forks and Falls of Hood river, with large sightly lots, broad streets and alleys, good soil, pure cold water and shade in profusion, perfect drainage, delightful mountain climate, the central attraction as a mountain summer resort and for all oregon, being the nearest town to Mt. Hood. It is also unparalled as a manufacturing center, being the natural center for 160 square miles of the best cedar and fir timber, possessing millions of horse power in its dashing streams and waterfalls, easily harnessed. Where cheap motive power exists, there the manufactories will center, surrounded by soil and climate that cannot be excelled anywhere for fruit and agriculture, and with transportation already assured you will find this the place to make a perfect home or a paying investment
