Come and See the New Fashions. Cleaning and Repairing to order. Satisfaction guaranteed.

TOSSED BY THE STORM

Many Lives Lost and Much Property Damaged.

SEVERAL VILLAGES DESTROYED

The Entire Country Laid Waste by the Fierce Blast--Wires Down in all Directions.

KANSAS CITY, April 12.-Eastern Kansas and Western Missouri were visited by a terrible cyclone last week. The storm prostrated the wires in every direction and little definite news is obtainable. In Kansas the storm area covered three tiers of counties on the east, nearly all suffering more or less. Parker was almost totally demolished. Many houses were demolished and scores badly wrecked. The loss of life is believed to have been great. Walnut suffered severely in wrecked houses, but without loss of life. In the adjacent country it is reported great havoc was created. In Brown county, in the northeastern part of the state, it is said several towns were damaged and many lives lost. There was much damage in Missouri also. At Mayview many houses were blown down, and it is believed a number were injured and a few killed. The damage to crops in both states is very great.

A Severe Storm.

St. Louis, Mo., April 12.-Thunder and lightning, hail and wind combined last evening to form the severest storm this city has had for years. It began about 8:15 p. m. and lasted nearly an hour, coming from the southwest. The worst effects of the storm are now apparent on the telegraphic service. The steamer D. H. Pike, lying at its wharf at the foot of Locust street, with no steam on and five men on board, was blown adrift, and no trace can be had of her. It is feared she has sunk with all on board. The harbor boat City of St. Louis, with a small crew aboard, was also blown from the same wharf. Two wharf boats anchored near by met with a similar fate, but it is believed there were no persons on board. Hailstones demolished a large amount of glass all over the city.

Struck Several States.

INDIANAPOLIS, April 12.-A tornado swept over the southwestern portion of Kokomo at 4 o'clock this morning, demolishing the machinery and boiler-rooms of the American straw board mills. Robert Douglass was killed. The financial loss is \$30,000.

Several People Killed.

St. Joseph, Mo., April 12.-A destructive cyclone visited the country northeast of Stansbury. Almost every building in its path was destroyed. Several people were killed, among them Mrs. Ward and husband. John Shelton was fatally hurt. An unknown woman was also killed.

At Other Places.

HIAWATHA, Kan., April 12.-It is reported Willis and Powhatan, villages of 500 inhabitants each, south of here, were totally destroyed by a cyclone last night. The cyclone was followed by hail, which damaged fruit.

LEXINGTON, Mo., April 12.-A tornado near Mayville tore up everything in a path 200 yards wide and five miles long. A dozen houses were demolished, two Walker children being killed and many others seriously hurt. The wife of Mr. Luke and her brother, were killed. Luke was injured.

ALBANY, Tex., April 12.-Whole farms, orchards and crops of small grain are completely ruined, and granaries, barns and wind mills destroyed. Many cattle were killed.

GARNET, Kan., April 12.-Two houses were demolished. The town of Parker is said to have been blown out of existence.

PAGE CITY, Mo., April 12.-A terrible tornado struck this city last evening, tearing and twisting houses, and creating widespread ruin. William Walker and his two children were killed. Many others were injured.

CINCINNATI, O., April 12.-A terrific gale swept over here early this morning. The wind was 78 miles an hour.

Political Riots in Peru.

NEW YORK, April 12.-A special cable dispatch says: Grave political troubles are reported from all parts of Peru. The most serious disorder so far reported occurred at the towns of Cuterne and Chole. An armed body of men, headed

by General Rivera and a man named Guerr, attacked the governor's palace, "Viva Porok" was their cry. The attack upon the palace began at 3 o'clock in the afternoon, and the siege lasted until 2 o'clock on the following day. While one portion of the mob held the towns, another body besieged the governor's palace, and many volleys were fired at the official's residence. Rosalo Pilla, one of the defenders of the house, was killed. Just as the mob was about to batter down the doors of the palace, while their leader was shouting "Kill the governor," the troops who had been sent for appeared. The soldiers charged upon the rioters. Rivera, the real leader, was killed. With the loss of their leader, the rioters became disheartened. They ceased firing and fled in all directions, but they carefully retained all their arms, which will no doubt be used on another occasion. Besides the leader, Rivera, three other rioters and a child were killed. More than 20 persons were wounded during the fight. An incident similar to this, less bloody in its results, occurred in Lima a few nights ago. While a band was playing on the plaza in front of the president's palace, a crowd gathered. Some one raised the cry, "Viva Porok," which was cheered by nearly all the persons in the crowd. The guards around the palace were about to fire, when the crowd fled.

An Uprising in Corea.

WASHINGTON, April 12. - Secretary Gresham has received a cable from a diplomatic officer at Seoul, Corea, saying that a general uprising of the natives against the Christians, including a number of citizens of the United States, was about to take place. Gresham laid the dispatch before the secretary of the navy, who ordered Admiral Harmony, commanding the Asiatic squadron at Hong Kong, to send a vessel to the scene.

EUROPE'S ARMIES.

Over Three Million Men Kept on a War Footing.

Capt. Molard, professor in the French military college of St. Cyr, has published a pamphlet in which he shows, in a brief but striking way, the development of the armies of Europe during the latter part of this century. He shows in the following table the numerical strength of all the principal powers in 1869, the year before the great Franco-German war in 1870, and

GEN. SAUSSIER, [Military Governor of Paris]

his forecast for 1900, should the new military act come into force in Germany, and be followed, as it undoubtedly will be, by similar acts on the part of neighboring powers:

Table with columns for Year (1869, 1889, 1900) and Rank. Rows include France, Germany, Russia, Austria and Hungary, Italy, England, Spain, Turkey, and Grand total.

The coming century, then, according to the captain, will be ushered in under an escort of 22,500,000 bayonets. Taken roughly, the figures reach, for 1869, about 7,000,000; 1893, about 12,500,000; 1900, about 22,500,000; in other words, in twenty years Europe has doubled her armed strength; in thirty years from 1870 she will have trebled it. Capt. Molard says: "In 1870 the war budget of Europe reached three milliards of francs, or 4120,000,000 sterling; in 1892 it almost touched five milliards, or 2300,000,000 sterling. In 1869 Europe kept up on war footing rather more than 2,000,000 of men; in 1893 she keeps up nearly 3,500,000."

MARKET REPORT.

THURSDAY, April 13.-The market of The Dalles is still in a slumbering condition. The continued stormy weather and bad roads has had much to do towards holding in check the accustomed activity. The business houses in the city have large assortments of general merchandise, and the agricultural departments are well stocked up with implements and machinery. Some classes of merchandise and agricultural goods have declined somewhat owing to cheaper freights.

In the grocery and provision line, there is but little change in quotations or supply to note. Eggs continue steady at 15 cents per dozen. Butter is steady at former quotations.

Potatoes are in better inquiry and an advance has taken place, \$1.40 to \$1.50 is offered for good keepers.

Green apples are more scarce, although some of our dealers decline to pay more than \$1.00 to \$2.00 per box for good, sound and good-keeping apples.

The wool question is in a state of unrest, partly owing to large stocks of last years clip in the hands of Eastern buyers, and to the continued alarm felt through the extremists clamor for a reduction in tariffs on all raw materials. Recent letters from Boston and New York give an opinion that the wool market will be favorable to the wool men, and that those putting their fleeces on the market first, will be the more fortunate, as better prices are in store for new and fresh wools for immediate use in the manufactories.

The wheat market in this city is quiet. Foreign markets are somewhat dearer. During the past week an advance of 3 cents per cental has taken place with a better feeling prevailing throughout Europe. There was quite a flurry in Chicago yesterday and the wheat market became quite excited. Future deliveries were bid up by the bulls, with a disposition to chase the bears to the wall and compel them to pay \$1.00 per bushel for May delivery. It is thought this flurry is for the purpose of punishing those who had dealt heavily on shorts, having nothing in sight to fill up on. The Washington crop reports are favorable for a very large harvest for 1893.

ELECTRIC FLASHES.

The democratic senators in caucus decided the Roach case would not be investigated this session, but that inquiry be made in the Martin case.

It is stated authoritatively that Cleveland has selected J. O. Smith, of Ohio, a radical tariff-reformer, as commissioner of internal revenue.

The court of arbitration on the Behring sea trouble has decided not to admit for the present the British supplementary report. This is a victory for the United States.

The Argentine Times says Great Britain has demanded the extradition of Jabez Spencer Balfour, the fugitive president of the Liberator Building Society.

A spark from an engine ignited gas in a coal pit near Pontypridd, England, caused a frightful explosion and untombed 300 miners. Rescuers were driven back without being able to bring up more than five of the dead. There were 70 men succeeded in reaching the surface through the main dip, led by a miner who knew the road. They had a terrible struggle to get out, forcing their way through fire and smoke. The men who saved themselves were too confused and frightened to observe the positions of their fellow workmen.

The more Chamberlain's Cough Remedy is used the better it is liked. We know of no other remedy that always gives satisfaction. It is good when your first catch cold. It is good when your cough is seated and your lungs are sore. It is good in any kind of a cough. We have sold twenty-five dozen of it and every bottle has given satisfaction.
