A Tree Five Thousand Years Old.

On the island of Teneriffe, one of the largest if not the very largest of the Canaries, about half way between the Porto Santo and the summit of the famous Pico de Tyde, the highest point of land on the island, stands the considerable town of Orotava, famous for its wonderful "Dragon Tree," the identical botanical specimen which Humboldt pronounced "the most ancient vegetable relic in the world." Humboldt made calculations on its age in several different ways, and declared that it was between 5,000 and 6,000 years old. Sir John Herschel often alludes to it as the oldest tree in the world. For at least twenty centuries the Guanches used the immense hollow of this ancient tree as a temple of worship. Its eventful career was suddenly terminated in the summer of 1867, when it was uprooted and almost entirely destroyed by a hurricane.

Patent medicines differ—One has reasonableness, another has not. One has reputation—another has not. One has confidence, born of success, another has only "hopes." Don't take it for granted that all patent medicines are alike. They are not. Let the years of uninterrupted success and the tens of thousands of cured and happy men and women, place Dr. Pierce's Golden Medical Discovery and Dr. Pierce's Favorite Prescription on the side of the comparison to which they belong. And there isn't a state or territory, no—nor hardly a country in the world, whether its people realize it or not, but have men and women in them that're happier because of their discovery and their effects. Think of this in health. Think of it in sickness. And then think whether you can afford to make the trial if the makers can afford to take the risk to give you money back, as they do, if they do not benefit or cure you.

Bucklen's Arnica Salve.

My wife was confined to her bed for over two months with a very severe attack of rheumatism. We could get nothing that would afford her any relief, and as a last resort gave Chamberlain's Pain Balm a trial. To our great surprise she began to improve after the first application, and by using it regularly she was soon able to get up and attend to her house work. E. H. Johnson, of C. J. Knutson & Co., Kensington, Minn. 50 cent bottles for sale by Blakeley & Houghton.

Telephones as Weather Prophets.
 A citizen of Richmond, Ind., has discovered a new method by which a telephone will foretell storms, and his invention is to be put to practical use. By placing two iron oars a short distance from each other, and then putting them in communication on one side with a copper wire covered with rubber, and on the other side with a telephone, a storm can be predicted at least twelve hours ahead through a dead sound heard in the receiver. According as the storm advances the sound resembles the beating of large hailstones against the windows. Every flash of lightning and every clap of thunder produces a shock similar to that of a stone cast between the diaphragm and the instrument.

THE DALLES,
 Wasco County, Oregon,
 The Gate City of the Inland Empire is situated at the head of navigation on the Middle Columbia, and is a thriving, prosperous city.
ITS TERRITORY.
 It is the supply city for an extensive and rich agricultural and grazing country, its trade reaching as far south as Summer Lake, a distance of over two hundred miles.
The Largest Wool Market.
 The rich grazing country along the eastern slope of the Cascades furnishes pasture for thousands of sheep, the wool from which finds market here.
 The Dalles is the largest original wool shipping point in America, about 5,000,000 pounds being shipped last year.
ITS PRODUCTS.
 The salmon fisheries are the finest on the Columbia, yielding this year a revenue of thousands of dollars, which will be more than doubled in the near future.
 The products of the beautiful Klickitat valley find market here, and the country south and east has this year filled the warehouses, and all available storage places to overflowing with their products.
ITS WEALTH.
 It is the richest city of its size on the coast and its money is scattered over and is being used to develop more farming country than is tributary to any other city in Eastern Oregon.
 Its situation is unsurpassed. Its climate delightful. Its possibilities incalculable. Its resources unlimited. And on these corner stones she stands.
