End of the Convention.

The county convention of the W. C. T. U. closed its labors last night at the Methodist church. The Scripture reading by Mrs. Riggs was from Isaiah lviii. Mrs. Riggs mentioned that in famine-stricken Russia last year 800,000,000 gallons of alcohol were used, which required 20,000,000 bushels of grain, which if used for food, would have done away with all of the suffering from hunger. She related many facts of interest.

The reading of the annual report of Mrs. Dougherty next took place, followed by music by the Alki club.

Recitation, Miss Georgia Sampson.

Miss Trumbull the speaker of the evening, was then introduced by Mrs. S. French.

This lady gave one of the pleasantest talks it is ever been our pleasure to hear. Dealing with the temperance question in all its phases, she touched upon and illuminated them with choice rhetoric, with phrases, that while continually changing as the scintillations of a diamond, were yet accurate; with a candor that was unmistakable; with grace, and ease, and unaffectedness, with musical, modulated tones, she held the audience spell-bound by the force and purity of her language and the common sense of her ideas. We will not attempt a review of her lecture; to mention any of it would be an injustice to the remainder; and to give all of it is beyond our abilities. Those who attended were well repaid, and those who did not should avail themselves in the future, if it is ever a possibility, to hear this delightful lecture.

Young Mays' Logic.

From San Francisco Wasp.

There is in Berkeley a young ladies' fraternity, called Kappa Alpha Theta. The wicked Berkeley youth, knowing no respect, calls them the Kats—horrid feline cognomen, suggestive of backyard concerts. When the Kats first took their place on the high board fraternity fence—fraternity, considering the sex, is, perhaps, a misnomer—they became at once the sport of the joking boys. Once, the temple of Vesta, otherwise the Kat house, was even decorated as to its door knob—with festive kine—but of that the newspapers have said enough. Recently, however, a hotly contested election was held in Berkeley for the position of football manager—a position which is full of glory once or twice a year. Among the contestants was Billy Denman, a son of the supervisor from the Twelfth Ward. Toward the close of the day, when it appeared that the election was going against him, Denman got the Kats together, and offered to pay their assessment if they would vote for him—those only being allowed to vote who had contributed to the football fund. They consented, and voted accordingly. Shortly after, Jack Mays, son of Mayor Mays of The Dalles, came to the polling-place with his big dog, Governor.

"I want to vote Gov.," he said. "Here's his assessment."

"I guess the dog can't vote, Jack," rejoined the man at the polls.

Mays turned to the crowd:

"Boys," he said, "I'll leave it to you if a dog's vote ain't as good as a Kat's."

A Gloomy Outlook.

It is manifest that the present depression of trade is exceptionally severe, and promises to be enduring. Some attribute this depression to the injurious effects of the McKinley and other protective tariffs instituted in foreign countries and in our colonies; others to over-speculation, and yet others to the trades unions, which have increased the wages and diminished the hours of the workmen. But these appear to be secondary and minor causes. With scarcely an exception all our correspondents speak of a fall of prices greater than that which can be attributed to the normal progress of industry—the introduction of labor-saving appliances, etc. Many admit that the demand for the special articles which they produce is good, while insisting with a curious unanimity upon a general and continuous fall in prices.—Exchange.

Turn Out Everybody.

GOT HIS MAN.

A Dane Introduced to the American Style of Hotel Runners.

The hotel runners of The Dalles come nearly worrying the life out of a passenger occasionally, and it will not be surprising if some time, some poor individual will become so befuddled as to turn out a raving maniac. Yesterday a Dane arrived on the 4 o'clock train and he was immediately surrounded by runners. He didn't know a word of English, German or French, which were all tried without avail, but by heroic negotiations Skibbe secured control of him and his grip. Ere he could go a dozen feet he was hemmed in in front, in the rear, and on both sides by runners of the other hotels, all shouting, and gesturing, and vociferating as if a murder had just been committed and he was the assailant caught in the act. In fact the poor deluded devil did turn white in the face, and abandoning his grip to its fate, started to run. He was caught again and shouted to, with Skibbe walking along in front hotelward, with one of his irresistible smiles, and finally emerged from view within, when he was given up—it was a close rub for Skibbe though.

MARKET REPORT.

THURSDAY, April 20.—The week just past has been variable in weather and likewise in the volume of trade with our business men. There have been fitful spurts of activity among business houses which evidenced an improvement over the former week. Quite a number of teams have come in from interior towns after freight and immediate supplies which has given a stimulating influence in business circles.

In the produce market there is the usual quietness. Eggs continue to come into market sparingly, and 15 cents per dozen is the ruling quotation for today. Butter is more plentiful and 40 cents per roll is said to be the price paid for good.

Poultry is scarce in the market with a better inquiry. Potatoes are steady at \$1.35 to \$1.50 per 100 lbs.

In groceries, sugar has advanced a quarter of a cent on all grades. Coffee remains steady on former quotations. Beans have declined 3/4 of a cent per lb. Stock salt has declined, likewise Liverpool.

Mill feed is steady at former prices. Rolled barley has advanced in consequence of an advance in barley which is becoming more scarce as the season advances. Oats are difficult to get, and owing to the increasing scarcity, the market is very firm with a strong tendency to higher prices.

The wool market remains in a dormant condition at present. No one cares to give an opinion of the market from recent advices.

The cereal situation is far from satisfactory. The future prospects for a repetition of 1891 in an over production is not expected, judging from the report from the U. S. department of agriculture, as the present average wheat condition shows only 77.4 per cent of a full crop. Oregon's standing is 99 per cent., while California has 67 per cent., and other prominent wheat states average 80 per cent.

Money for Argentine.

LONDON, April 19.—The Argentine government has made, through the Barings, an offer to the Rothschild committee to pay £1,500,000 annually, with resumption of payments of full interest after five years, as a settlement of the foreign debt, the bondholders to arrange among themselves how the amounts shall be apportioned. This last provision probably will render futile the whole offer, as it is likely to cause endless discussion among the claimants.

The Hen Gave Up the Job.

A "Cape Codder" tells how he cured a setting hen. "I made," he says, "half a dozen snowballs and soaked them in water. In the morning they were solid ice. I shaped them as near like an egg as possible and then placed them under the setting hen. She smiled. I stood by and watched her. She cuddled the ice eggs under her and chuckled softly to them. In about ten minutes she appeared to get uneasy. She arose and scratched the darlings together and shook herself; then, evidently satisfied, settled down again. Soon she got up once more, this time with evident concern; something was wrong, surely; perhaps the weather was getting cold. She felt wet and chilly, but, with great perseverance, she sat down again, and again got up, this time for good. She walked out of the box and then turned and looked in, but she had
