OREGON AT THE WORLD'S FAIR.

The following is a list of the superintendents of the different departments of the world's fair commission. Anyone who has anything to exhibit should correspond with the proper officer, one of the following:
W. F. MATLOCK, department of agriculture, forestry and forest products, and live stock; Portland.
C. W. AYERS, department of mines, mining and metallurgy; Ashland.
DE. J. R. CARDWELL, department of horticulture, including floriculture and viticulture; Portland.
GEO. T. MYERS, department of fishing and fishing apparatus, manufactures, electrical and mechanical inventions; Portland.
MRS. M. FAYTON, department of domestic arts, including the fine arts, household economy and product thereof.
E. H. MCLELLY, department of education, including educational exhibits, literary, special, general, music, etc.; Salem.
GEO. W. MCBRIDE, department of civil government, including state and county; Salem.

The recent performance of the Empire State Express of the New York Central, which ran at the rate of 95 miles an hour for 10 consecutive miles, has greatly interested mechanical engineers and scientific men generally. This remarkable record is expected to have a very important bearing upon railroad schedules of the near future, and is especially interesting at this time, when extraordinary efforts are being made to reduce the time between distant points by means of electricity. Until lately 80 miles, or perhaps 85, had been the fastest time made by any railroad, and this speed of 95 miles an hour by a complete train, weighing in the neighborhood of 200 tons, and running over different grades, throws new light upon the question of attainable speeds and gives some data from which to work and figure for the future.

A bill passed the last legislature to make counties liable for damages sustained in consequence of defective and dangerous county roads and bridges, but will not become a law until after the expiration of ninety days. It provides that whenever any individual while lawfully traveling upon any county road without contributory negligence on his part, and not having been warned of the defect or danger, sustains any loss, damage or injury in consequence of the defective and dangerous character of such road or bridge, shall be entitled to recover damages for such loss or damage from the county in which the damage occurred. Damages may be recovered by an action in the circuit court or in the justice court if the amount of damage sued for be less than \$1,000. Before the law goes into effect it might be well for the proper authorities to inquire into the condition of our roads.

A correspondent of the Union Republican writes: "I don't want to dictate a policy for Cleveland but I wish he would make some change—I mean pocket change. Ben Hawley said when Cleveland was elected every thing would be cheaper. But that won't do us any good if we don't have any thing to buy with." This deplorable condition is very likely to happen, now that gold is being shipped across the ocean so steadily. The democrats seem determined to follow all precedent in the matter of reducing the country to financial distress whenever they get the chance to handle the reins of government.

It is said the two hotel buildings that have recently fallen in Chicago are not the only dangerous structures in that city. Severe winds are predicted for that locality the coming summer, and the condition of many of the frail buildings in the world's fair district has occasioned much alarm. The falling of the Plymouth and the Clarkdale simply indicates the utter failure of the building department to supervise this work and it is feared more serious disasters will occur when many of these temporary hotels are put to use.

European sugar journals express their admiration for the enterprise and ability shown in the management of the Nebraska sugar beet industry. Interest in sugar beet culture is now extending generally throughout the United States, and great credit is due the excellent management of existing sugar beet companies.

Look Over Your County Warrants. All county warrants registered prior to June 1, 1889, will be paid if presented at my office, corner Third and Washington streets. Interest ceases on and after this date.

CARLISLE'S POLICY.

Secretary of the Treasury on the Financial Situation.

WASHINGTON, April 20.—Secretary Carlisle tonight made the following statement regarding the financial situation:

"In the exercise of the discretionary power conferred upon the secretary of the treasury by the act of July 14, 1890, he has been paying gold for coin treasury notes, issued for the purchase of silver bullion, and he will continue to do so as long as he has gold legally available for the purpose. Under this process the government has been, and now is, paying gold for silver bullion and storing silver in its vaults, where it is as useless for any purpose of circulation or redemption as iron, lead, or any other commodity. The government, in the first place, issues a coin treasury note in paying for the silver bullion, and then the coin treasury note is presented at the sub-treasury and gold paid out for it; so that the effect is precisely the same as if the gold were paid out for the silver in the first instance. About \$800,000 of the gold which was withdrawn from the sub-treasury last Tuesday for shipment abroad was paid in these coin treasury notes. No order has been made to stop the payment of gold upon these notes, nor has anyone been authorized to say such an order would be issued. The purpose of the government to preserve its own credit unimpaired and to maintain the parity of the two metals by all lawful means will not be abandoned under any circumstance.

"In view of the existing legislation, the only question for consideration is as to the measures that ought to be adopted to insure the accomplishment of these purposes, and upon this question there is, of course, room for wide differences of opinion. The total stock of gold coin and gold bullion now in the country, including what is held by the treasury as well as what is held by the banks and individuals, amounts to about \$740,000,000. When I came into the treasury department, March 7, the amount of free gold on hand had been reduced to \$987,000, but by arrangements with Western banks it was increased until April let it amounted to \$9,000,000. Then heavy shipments began to be made, and two days ago we had only about \$40,000, but now it amounts to \$885,000, after deducting what has been withdrawn from the sub-treasury today for shipment. Arrangements are now in progress by which more gold is to be procured from the west, and I hope a sufficient quantity will be secured to keep the gold reserve intact. There is gold enough in the country to meet all the requirements of the situation, and if all who are really interested in maintaining a sound and stable currency would assist the secretary of the treasury to the extent of their abilities, the existing difficulties would soon be removed."

In addition to this statement, Secretary Carlisle said \$800,000 in gold was taken out of the sub-treasury in New York today for export. The class of money paid into the sub-treasury for the gold withdrawal included \$400,000 in gold certificates, which to that amount did not reduce the gold reserve, because they themselves are practically gold, so that the actual gold reduction today was about 400,000, leaving a balance as stated above. This is the first considerable amount of gold certificates paid into the sub-treasury for gold export for many years encourages the treasury officials to hope the banks seeing the situation will continue to present gold certificates in payment at least, for the gold withdrawal for export.

Good Intent Meeting.

Yesterday afternoon the Ladies Good Intent Society of the M. E. church spent a most pleasant afternoon at the home of Mrs. D. M. French. Business of course came first, in which lunch was included, and afterward a general good time was had, barring the thought that they were soon to lose one of their number, Mrs. C. H. Brown, who will leave for her home in Michigan. The ladies presented her with a handsome souvenir spoon as a slight remembrance of her stay with them.

The Union Pacific Strike.

DENVER, Colo., April 20.—Assistant Superintendent Mertzheimer, of the motive-power department of the Union Pacific, informed a representative of the Associated Press this morning that so far only 1200 men has gone out on the strike, out of a total number employed in his department of over 10,000. He insists that work is not interfered with and that new men are easily found to take the place of the strikers. The condition of the strike at this point remains the same as on yesterday.

The more Chamberlain's Cough Remedy is used the better it is liked. We know of no other remedy that always gives satisfaction. It is good when you first catch cold. It is good when your cough is seated and your lungs are sore. It is good in any kind of a cough. We have sold twenty-five dozen of it and every bottle has given satisfaction. Stedman & Friedman, druggists, Minnesota Lake, Minn. 50 cent bottles for sale by Blakeley & Houghton, druggists.

A laborer named Andrew Farland, employed by the Union Pacific company to assist in unloading heavy ordnance from a barge, was instantly killed at the government dock at Canby, Wash. The carriage for a fifteen-inch gun was being rolled up the slip when the accident occurred. Farland was placing rollers under the carriage, when the iron hook in a new block parted, allowing the heavy mass of iron to topple over upon him, crushing him in a frightful manner against the dock, and killing him instantly.

An unusual offer—the one that's made by the proprietors of Dr. Sage's Catarrh Remedy. Unusual, but made in good faith. It's a reward of \$500 for an incurable case of Catarrh. If you have one, the money's for you. But you can't know whether you have one, till you've tried Dr. Sage's Remedy. What's incurable by any other means, yields to that. By its mild, soothing, cleansing and healing properties, it cures the worst cases, no matter of how long standing. That's the reason the money can be offered. There's a risk about it, to be sure. But it's so small that the proprietors are willing to take it. The symptoms of catarrh are, headache, obstruction of nose, discharges falling into throat, sometimes profuse, watery, and acid, at others, thick, tenacious, mucous, purulent, bloody, putrid and offensive; eyes weak, ringing in ears, deafness; offensive breath; small and taste impaired, and general debility. Only a few of these symptoms likely to be present at once.

WINANS

THE NEW TOWN has been platted on the old camp ground, at the Forks and Falls of Hood River, with large slightly lots, broad streets and alleys, good soil, pure cold water and shade in profusion, perfect drainage, delightful mountain climate, the central attraction as a mountain summer resort for all Oregon, being the nearest town to Mt. Hood. It is also unparalleled as a manufacturing center, being the natural center for 150 square miles of the best cedar and fir timber, possessing millions of horse power in its dashing streams and waterfalls, easily harnessed. Where cheap motive power exists, there the manufacturing will center, surrounded by soil and climate that cannot be excelled anywhere for fruit and agriculture, and with transportation already assured you will find this the place to make a perfect home or a paying investment.
